**Subject: Oppose CF 16-0585-S2 Trap & Release / Coyote Management:**

**Message:** Dear Hon. Chair Koretz and PAW committee members,  
I am opposed to Council File 16-0585-S2 and the motion to propose a trap-and-release program for coyotes because it is inhumane, ineffective and there are better choices for our whole community. Please oppose this motion and concentrate on education and coexistence programs here in our city. Many thanks.

Sincerely,  
Jenny Mangelsdorf

**Subject: Oppose CF 16-0585-S2 Trap & Release / Coyote Management:**

**Message:** Honorable Chairperson Koretz and PAW committee members,

I am a voting resident and I strongly oppose Council File 16-0585-S2 and the motion to propose a trap and release program for coyotes. The practice is proven ineffective and have been proven to lead to an actual increase in the local coyote population when the alpha male coyotes are removed. Additionally, the practice is inhumane as related coyotes often do not survive and the the younger coyotes left behind are too young to fend for themselves. In Los Angeles, where residences continue to encroach on the land of our animal inhabitants, the better option is effective co-existence. As such, resources would be better spent on education and coexistence programs

Thank you for your consideration

Lisa Morgan
