Dov,

Start here and work toward September 2019. There are plenty of ignored PRAs since this one.

Here. In Brenda's own words. Show me where those complete records were sent to me.

The City's habit of ignoring them needs to be addressed immediately.

Dan

Dan,

We have not refused to fulfill your CPRAs. I did confirm with staff that the person with the show beagles has licensed their dogs.

Brenda,

At today's mtg you interrupted my comment to say that Lipari et al had dog breeder permits when Ross wrote that they had not.

Im **writing** an article now addressing special treatment for people connected to city officials and reiterate my CPRA for their permits from 2009-present. Your attempt to mislead the commission was made clear after you left the meeting.

If you refuse to fulfill this request, which is now nearly 6 months old, I will file both a complaint with the state and make the nexus that you are not only failing to collect the city's due revenue, but giving preferential licensing discounts to your breeder friends.
