Los Angeles City Council
c/o Office of the City Clerk
200 North Spring Street, Room 360
Los Angeles, CA 90012

Honorable City Council:

The **Central Alameda Neighborhood Council**, located in South Central Los Angeles, held a Brown Act compliant meeting on Saturday, March 4, 2017, and with ____ members present for a quorum, voted ____ -- ____ -- ____ to pass the following resolution.

Whereas, a great number of residents of Central Alameda Neighborhood Council have limited access to green spaces, fresh organic produce, and suffer from health conditions due to their polluted environment,

Whereas, a significant portion of residents of the City of Los have limited access to green spaces, fresh organic produce, and suffer from health conditions to their polluted environment,

Whereas, many of the residents in CANC are working-class youth and families of color whom at a city and national level most disproportionately suffer due to environmental pollution,

Whereas, it has been ten years since the eviction of the South Central Farmers,

Whereas, on March 7th, 2017 the **South Central Farmers** will appeal to the Planning and Land Use Management Committee to reconsider clothing conglomerate, PIMA's approval for their final environmental impact report (FEIR) from the LA City Planning Department; and

Whereas, green accessible spaces are continually threatened in the greater Los Angeles area in order to give way to new developments; and

Whereas, our neighborhood is a food desert with more fast food restaurants per block than schools; and

Whereas, grassroots led movements like **The Ron Finley Project** are attempting to address inner city health problems, gang violence and poverty through urban gardening; and

Whereas, The Ron Finley Project has led the campaign for healthy change in our urban communities by creating an educational site, a propagation station for more edible landscapes as well as the formal headquarters for The Ron Finley Project (RFP) that has become the focus of study for local K-12 classrooms and universities worldwide including the renowned institutions of MIT, Harvard and University of Southern California; and

Whereas, the RFP is in the process of fighting for their headquarters after the property owner sold the land to Strategic Acquisitions Inc in a foreclosure; and

Whereas, according to the United States Department of Agriculture's *Food Access Research Atlas*: the CANC is surrounded by food deserts; and

Whereas, CD9 has one of the highest concentrations of low-income levels in the City – a major factor in fresh food access along with limited access to green spaces such as urban gardens and parks.

Therefore, be it further resolved, that the **Central Alameda Neighborhood Council** will work alongside its community to defend and support access to fresh organic produce as well as green communal spaces in the forms of low-income accessible markets and urban farms and gardens.

Passed this 4th day of March, 2017

Name	City	State	Zip	Country	SignedOn	Comment
Lauren Raquel	Los Angeles	CA	90031	United States	2/21/2017	Great cause!!
Lydia Ponce	Venice	CA	90291	United States	2/21/2017	We all need healthy good food for our healthy people and communities!
Alis Lemus	Los Angeles	CA	90011	United States	2/23/2017	Because I used to live near it by Jefferson high on 33rd st and I think farms will better benefit the community than warehouses
Emily Moore	Los Angeles	CA	90045	United States	2/23/2017	This under-represented community clearly is lacking a voice in city hall as well as lacking justice needed for a community to grow in a healthy and sustainable manner!
Michael Kuehnert	Los Angeles	CA	90066	United States	2/23/2017	Urban farms are a vital part of the future of healthy cities and environmental justice
Elizabeth Kempf	Van Nuys	CA	10941	United States	2/23/2017	Its an atrocity to have kicked them off this land to begin with, let alone to allow it to sit vacant. Bring back South Central Farms!
Jessica Espinoza	Los Angeles	CA	90037	United States	2/23/2017	I'm signing this position because I live in South Central and it is unfair to take away access to healthy foods.
Vance Dubberly	Santa Monica	CA	90405	United States	2/23/2017	We need to nourish bodies and minds in the urban food desert.
Alex Garrido	Los Angeles	CA	90003	United States	2/23/2017	It is a good cause.
Cori Redstone	Los Angeles	CA	90039	United States	2/23/2017	We need better connected communities in Los Angeles and the farm is just one way among many to bring people together. Just because corporations like PIMA won't put a price on social capital doesn't mean we can't see that community resources are priceless.
Antonio Fernandez	Woodland Hills	CA	91367	United States	2/23/2017	I support this farm!
Andreas Weiland			32130	Germany	2/23/2017	It matters to bring the countryside back to the city. Planners like Hilberseimer https://en.wikipedia.org/wiki/Ludwig_Hilberseimer knew it long ago.
Carry Kim	LA	CA	90026	United States	2/24/2017	It's imperative to restore green space to LA and bringing back the South Central Farm is one way to mitigate against the negative impact of climate change and rising temperatures in Los Angeles. I wholeheartedly support the return of SCF to support families and their food sovereignty as well as to help counter climate change in the city.
Hiroshi Mori	Los Angeles	CA	90027	United States	2/24/2017	I am a urban farmer and urban farms are a good thing
alana king	Seattle	WA	98107	United States	2/24/2017	Access to fresh local food is important, and a better use of that land than more buildings that LA doesn't need!
Anna Christensen	Long Beach	CA	90803	United States	2/24/2017	Vegetables for all. Justice for the South Central Farm!
Jeanie You	Los Angeles	CA	90006	United States	2/25/2017	Urban farming is beneficial in multiple ways: beautification for the neighborhood, cleaning of air, nutrients to the community, teaching sustainability, creating a fun, communal way of exercising & finally the mental benefits of gardening. WIN win WIN all the way around.

Andre K	Los Angeles	CA	90291	United States	2/26/2017	Besides giving access to fresh food for many people in the food desert of South Central LA, selling the farm back to the cooperative also presents a perfect opportunity for PIMA to show their goodwill for the greater good of mankind, which in turn will certainly bring with it a better brand recognition!
Miriam Dolid	Los Angeles	CA	91607	United States	2/26/2017	miriam dolid
Lesandre Barley	CA	AL	92382-1526	United States	2/27/2017	It takes 19 calories of fossil fuel to put one calorie on a plate. Why wouldn't we encourage otherwise?

Alyssa Eckley	Carson	CA	90745	United States	3/7/2017	I'm signing this petition because it is unjust that these farmers who worked hard tending to the land in order to provide food and medicine for their families are being denied access to buying this land. There is no reason to deny these people from turning this land into an urban farm that will greatly benefit their families and the community. If it is not sold to these farmers, it will simply be sold and turned into a warehouse that will simply hold more of the crap that we don't need. People need food and medicine, not junk.
Sadie Peters	Snohomish	WA	98296	United States	3/7/2017	This land was stolen from the community who used it and relied on it heavily only be left as nothing but dirt. There is no reason to keep this cultural and agricultural oasis away from those who need it.

Nirvan Mullick	Los Angeles	CA	90013	United States	3/20/2017	This site has a unique history as a community farm that could still be a part of the story of Los Angeles moving forward, and I believe that the best use of this site would be to give that story the land and canvas it needs to be told. Any EIR should take into account this as a viable potential alternative, and consider the positive environmental impact of such an alternative.
Dana Bean	Los Angeles	CA	90027	United States	3/20/2017	The farm was an inspirational place. Let's return it to the community!
DJ Bernier	Santa Monica	CA	90404	United States	3/20/2017	This neighborhood farm is so needed in the community!
Gabriella Rosco	Los Angeles	CA	90017	United States	3/20/2017	This is the right thing to do. The south central area of LA is already a good desert. Why deprive families even more of good, nutritious food? The area need this farm. They don't need another warehouse. Lastly, the farm is an amazing way to help support the environment. I know LA City Council has vowed to make LA a greener City. This is one important step in that direction. Uplift this community and the City. Save the farm!

Michelle Wong	Los Angeles	CA	90010	United States	3/21/2017	I remember the beauty of the Farm in bringing together culture, healthy eating and connection with the Earth to everybody... near & far. Since then, I was inspired to start the White House Place Learning Garden - a garden that was destroyed, and now brought back to life. https://www.facebook.com/WHPLearningGarden This can be done, this must be done!

Jasmine iraheta	Los Angeles	CA	91331	United States	3/21/2017	I'm signing because the farm was the only healthy option for organic food, unity and education in South Central. Especially in the Alameda industrial corridor. If the city wants to promote health, progress and equity, then they will endorse to keep the farm!! The Largets Urban farm west of the Mississippi River!!

						Having community gardens is an important aspect of sustainability for any city . Giving people the chance to grow their own food is vital to the community and we are blessed that these gardens existed and I plead the property will become available to the local farmers who dedicated their time and energy to feed not only themselves but also the larger community . Please make this possible . ☐☐☐

						As a south central resident, and someone who saw first hand the power of community, healthy food, and culture that once thrived in this agricultural oasis, I believe the City Council should mark this item Special, hear public comment, & consider alternative use that has a direct public benefit. i.e. Bring the farm back.
						Please. Thank you. Respectfully & urgently.

Franklin Andres	Los Angeles	CA	90011	United States	3/21/2017	The South Central Farm brought people together, brought joy to the community. I remember the good times I had at the farm. At a young age I didn't know what was happening, I didn't know why it was closed. All I knew that south central was in tears when the cops, bulldozers came and destroyed what was once a family, community garden. Now I'm 22 and understand what's going on. If you need help please contact me via email. Thanks and Let's Bring back the South Central Farm!
Andres Marquez	Baldwin Park	CA	91706	United States	3/21/2017	My brother stood up for the farms years ago and still fights for so much for my gente, our gente! Only feels right to support in him in us and in the farms
Julie Hayne	Seattle	WA	98105	United States	3/21/2017	I love the South Central Farmers! I bought their CSA boxes at a discounted price when I was a student on a limited budget. (And when I return home to LA after finishing my graduate program, one of the first things I will do is sign up for their CSA box again!) I never felt healthier than when I cooked with those wonderful vegetables. The South Central Farmers contribute to the community in a healthful and culturally profound manner. With the rise of so many diseases that would be preventable with a healthy diet and lifestyle, these are the the types of organizations we need to support!
Ibarria Edgar	Compton	CA	90221	United States	3/21/2017	For more than 10 years the city officials have ignored our community cry, concern and demand to bring back what is known to us as the South Central Farm. We ask that the land is given back to the community that has fought against the city for more than 30 years to make it a space for the community by the community. It is easy developers, city council and officials to make decisions in places where people don't live, it's is harder to listen don't ignore our community save the SCF!

						All communities need access to healthy foods, public spaces to build a sense of community, and fun recreation to stay fit. we have enough vacant manufacturing places in L.A. - including American Apparel that just closed. This land is environmentally clean and should not be colonized with a new manufacturing site.
