Comments for Public Posting: To Whom It May Concern re: 20-1101 I am commenting on item 6 and 7 today, Hillside Construction Regulation to Coldwater, and Building Size Cap of hillside neighborhoods. It is astounding to me that these hungry developers will continue to build oversized mega mansions in the name of commerce on hillsides that are natural habitats, against parkland that has served the community for decades. Does the city value its residents and their own well being? I have been hiking in Franklin Canyon for 40 years, and was astounded the last time this developer put up fences and cameras to stop the community from enjoying their land. And now? Here we are again. STOP THESE HILLSIDE DEVELOPMENTS that are destroying our environment and our way of life. We can do better for future generations. Best, John Mullican
