Comments for Public Posting: Dear City Council Members I live on Burwood Terrace just below Poppy Peak. I am writing to support your passage of the HCR as it is written. It is important to me that you support the PSA provision as it is written in LAMC section 13.20 D(6)(j). Our hillside neighborhood and surrounding area includes schools, Optimist Club facility for school and boarding and small businesses. Hillside development will negatively affect the quality of life to all people living here due to: Truck traffic, dust and take away already limited parking spaces. Please take the time to come and visit our vibrant community and support us in our quest to limit hillside development. Sincerely Robi Inserra 710 Burwood Terrace
