Council File No: 17-0046-S4

Comments for Public Posting: Item 5 - We the people of Los Angeles are tired of the constant hounding of our immigrant community. We refuse to normalize the constant hyper vigilance, anxiety, and overall fear that we are being placed under. We will have a public health crisis if this continues. We DEMAND the following: - End to the city cooperation with ICE! - Full legal defense for immigrants - Real sanctuary - not just a name that is thrown around to have a false notion of safety - We need protection NOT policing - Clear and effective identification of ALL federal agencies
