Comments for Public Posting: Good Afternoon, I am writing to voice my support for passage of the measure to ban any new oil and gas wells, as well as to phase out existing wells. I am a resident of Hawaii, an island state that is extremely vulnerable to the effects of climate change and sea level rise. As the second largest city in the United States, it would be a significant decision for Los Angeles to take this bold and necessary step to transition away from these extractive fossil fuels. With its passage, I hope this measure might set an example to the rest of California, my home state, and the nation as a whole that the time to prioritize a clean and safe environment is now. Thank you for your time. Respectfully, Jeremy Garrett
