Comments for Public Posting: Hello, I am currently a student at Cal state dominguez hills and I'm taking a " Labor and the environment" class. I am against oil drilling in Los Angeles I believe it should be stopped because they are close to hundreds of homes and it is affecting people's health. Majority of the people living nearby are having nosebleeds, headaches, nausea, asthma, and many other health issues. It is even possible to be at risk of cancer. People's health is more important than oil drilling.
