Dear Los Angeles City Council Arts, Parks, and River Committee Member,

As an area resident and a supporter of the Los Angeles Zoo, I urge you to dismiss L.A. City Council motion #17-0453 that would send Billy the Asian elephant to a sanctuary.

The Elephants of Asia habitat at the Los Angeles Zoo is Billy's home. In fact, it's the only home that he has ever known. Billy lives in one of the best and largest elephant habitats in North America and benefits from tremendous resources, a dedicated staff, and top-quality health care. Elephants of Asia is the largest habitat at the L.A. Zoo and the space vastly exceeds the standards of the Association of Zoos and Aquariums (AZA), as well as those of the U.S. Department of Agriculture and the California Department of Fish & Wildlife.

Billy's quality of care at the L.A. Zoo far surpasses that which he would receive at any sanctuary. Elephants are highly intelligent and sociable animals, and they form deep emotional bonds with their caregivers and other elephants. Billy's caregivers have known him for decades and he receives the best care possible at the L.A. Zoo. If Billy were sent to a sanctuary, the ties he has with his caregivers and fellow elephant companions would be broken. Further, any sanctuary would keep Billy separated from other elephants, since he is a bull and would not be allowed to mate.

The fact is that sanctuaries are limited in their land and financial resources, no matter their size. They do not have an accrediting organization as stringent as the AZA and they are not focused on or committed to saving animals from extinction.

At the L.A. Zoo, Billy is an ambassador for his endangered species. He is an important member of the AZA Asian elephant Species Survival Plan (SSP) and his presence at the L.A. Zoo raises awareness about his wild counterparts to the nearly 1.8 million people who visit the Zoo annually. The L.A. Zoo does a tremendous amount of conservation work and is committed to saving the thousands of species, including wild Asian elephants, that are on the verge of extinction.

I am submitting this letter because I care deeply about Billy's future as well as that of endangered wild Asian elephants. It is with this concern that I ask you NOT to approve the motion to send Billy to a sanctuary. Billy deserves the best care possible – and wild Asian elephants deserve a future.

Sincerely,

Eleanore Estrada

Ms. Holly L. Wolcott

Dear Ms. Wolcott,

As a Los Angeles constituent and a supporter of California-based In Defense of Animals that represents over 250,000 supporters, I urge you to support Councilman Koretz's motion to free Billy, the lone bull elephant at the Los Angeles Zoo, to an accredited GFAS (Global Federation of Animal Sanctuaries) sanctuary as soon as possible. We also ask the same for the female elephants at the exhibit, Tina and Jewell.

Billy's plight at the LA Zoo has been a focus of In Defense of Animals for over 12 years. The inadequate conditions that he is forced to live in, despite costly renovations to the Elephants of Asia exhibit, continue to negatively impact his well-being.

Through the LA Zoo's breeding program, Billy has been forced to endure a highly invasive procedure to collect his semen for the purpose of artificially inseminating females at other zoos for breeding. According to zoo documents, Billy underwent "training" for the actual semen collection process at least 55 times between January 20, 2011 and November 14, 2014.

This procedure is inhumane and invasive. While this has been touted as a practice of "conservation," the data shows that it is nothing of the sort, with elephants in zoos dying in captivity faster than they can reproduce due to the unnaturally high mortality rates of elephants in captivity. The only real way conservation for elephants can occur is in the wild and a certified elephant sanctuary is the closest thing to a natural environment that we can give to Billy.

There is no science- or conservation-based justification for the LA Zoo to keep Billy or ANY of the elephants, including females Tina and Jewel - in captivity. The scientifically validated negative effects of captivity on elephants are irrefutable and well documented.

Los Angeles must seize this opportunity for leadership on humane animal welfare issues and policy. Therefore, we urge you to support the relocation of Billy to a GFAS-certified sanctuary to transfer elephants Tina and Jewel as well - end all elephant captivity and elephant breeding programs at the LA Zoo immediately.

Sincerely,

Ms. Okiyo Ososaka
