To: "Adam.Lid@LAcity.org" <Adam.Lid@lacity.org>, "councilmember.martinez@lacity.org" <councilmember.martinez@lacity.org>

Please be advised that numerous letters have been sent in support of further evaluation of the California Water Fix aka the Governor's Twin Tunnels project aka the Bay Delta Conservation project.

Some have referenced CF 15-0002-S71 & CF 15-0002-S168, also expired CF 12-002 and CF 09-0002.

Others include letters to the Mayor and Council in opposition including the one from HHPNC in 2016 which is attached hereto.

I have been involved with the issues raised by this project for several years now and the questions remain:

- who pays for the huge overruns which are anticipated?
- what about the environmental damage?
- the City's mandate under its sustainability objectives is to reduce reliance on outside water – why incur these costs?
- who is the water for? primarily Gov. Brown's Big Ag friends who funded his re-election and continue to use water unsustainably in the Central Valley, NOT Los Angeles residents
- who else benefits? the Metropolitan Water District which can sell excess water for its own profit

Los Angeles stakeholders deserve better.

Thank you, Nury Martinez.
