**Comments for Public Posting:** Please reconsider this motion as it doesn't do ANYTHING in regards to bike or bus infrastructure. In the year 2021, after the latest IPCC report on climate change, you cannot approve a "complete street" plan that does not MASSIVELY INCREASE the number of bike and bus lanes and REDUCE the number of car trips. This is a disgrace. You personally do not have to ride a bike or a bus to improve the ability to those who are willing to do so. And we will ALL benefit from such changes.
