Comments for Public Posting: I'm writing in support the ordinance banning tour busses on certain streets in the Hollywood Hills. Tour busses are not safely operating on our streets. They often stop in the middle of the road, block traffic and drive very slowly. This creates a hazard on the roads, especially on Mulholland where there are sharp turns and it is hard to see a stopped or slow tour bus around a curve. Tour busses use loud microphones/speakers that interrupt the peaceful enjoyment of our homes and cause a nuisance in the community. Tour busses do promote tourism in our town, but they should operate within reason. Hence, they should not operate on our small neighborhood streets, which are not designed for commercial traffic. Thank you.

Comments for Public Posting: The tour buses are continually presenting a dangerous threat at the intersection of Pacific View and Mulholland Dr. The entrance onto Mulholland at this intersection is a blind curve in both directions and always difficult to navigate. Tour buses stop at this intersection to show the view of the city obstructing entry onto Mulholland or give the "ok" to enter directing us into oncoming traffic. Barriers put up by LADOT are ignored by the buses and they stop directly in the intersection of Pacific View Dr. blocking the intersection entirely. They refuse to move when asked asked and are often rude and aggressive. My suggestion for this particular intersection is a 3 way stop sign which would be a deterrent for the tour buses as (with police enforcement from time to time) they could be cited for not honoring it. Stop signs would support us safely entering Mulholland Dr. under all circumstances but especially the dire ongoing tour bus safety hazard.

Comments for Public Posting: As a resident of Outpost for 40 years, I have been impacted by tour buses almost daily. Traffic congestion, noise, and invasion of my privacy are impacts I have been subjected to for most my life in the area though never more than the last few years. Anything that can be done to mitigate this problem is highly appreciated.

Comments for Public Posting: Please don't close the roads for your buses. It doesn't even make sense to do that. L.A is a huge tourist location and people want to see everything this beautiful city has to offer. The tour buses don't hurt anyone if anything it produces the city more money. Doing this will also effect so many people's jobs and to do that in the current state that the economy is in is just cruel. Please consider at least postponing the vote.

Comments for Public Posting: I support the Outpost Canyon Homeowners' Associates efforts to improve the safety of the Hollywood Tours buses that operate in our neighborhood. Please pass the resolution for topic #15 on the agenda for Friday, October 21, 2023. Thanks.

Comments for Public Posting: Hello! My concern here is—if buses aren't able to pull over or turn onto certain streets—major delays will result. These buses go VERY slowly and often stop completely in the middle of Mulholland Drive. The only chance to pass safely is when they've pulled over or onto a side street. Backups are guaranteed. Thanks!
