

## Communication from Public

**Name:** Padric Gleason Gonzales

**Date Submitted:** 12/05/2019 07:15 PM

**Council File No:** 17-1125-S6

**Comments for Public Posting:** I OPPOSE this motion. Dockless mobility has clear and persistent problems around safety and further study and guidance is needed to better respond to demand (and prevent oversupply), HOWEVER it is patently absurd for an entire council district to abstain from participating in this program. The council needs to invest in proper physically protected bike lanes and designate parking locations so that scooter companies can provide users with rules of the road. The primacy of cars should not be enshrined by the council. There are Angelinos like me who don't own cars and I'm fed up with motions like this that seek to limit my transportation options.
