Dear Mayor and City Councilmembers,

Thank you for your ongoing leadership and thoughtful attention to the many issues facing our city, especially reducing traffic by allowing more multimodal transportation options.

I want to let you know that I support shared electric scooters. These innovative new modes of transportation are affordable and environmentally-friendly.

As we plan for a more sustainable future, we need to embrace innovation that makes our city greener and our streets less crowded with bumper-to-bumper car traffic.

Thank you,
Sergey Lyubyatinskiy

Dear Mayor and City Councilmembers,

Thank you for your ongoing leadership and thoughtful attention to the many issues facing our city, especially reducing traffic by allowing more multimodal transportation options. I commute to a Beverly Hills and being able to Bird to work has helped me immensely in my budgeting of living in an expensive area.

I want to let you know that I support shared electric scooters. These innovative new modes of transportation are affordable and environmentally-friendly. I do believe that there can be better regulations, but that rings true for any innovative people oriented service. Further, it's allowed my girlfriend to want to visit places more often via bird, rather than believing that we have to Uber everywhere or nothing.

As we plan for a more sustainable future, we need to embrace innovation that makes our city greener and our streets less crowded with bumper-to-bumper car traffic. I realize that Beverly Hills decision can be influential on your decision (I work there), but I believe that Bird can continue to be innovative, progressive, and further developed to meet the needs of the people, the community, and the city.

Best,
Eunice Kim

Dear Mayor and City Councilmembers,

Before I give you The Bird (auto generated email), I've gotta say: how incredible of an idea are these scooters?! We are literally living the future... My vote for you, Mayor Garcetti, was based on an idea that my mayor listens, supports forward thinking, embraces innovation, and is working towards a greener tomorrow. These scooters are on the right track; let's work with them Let's not put a damper on our future! Thank you for your ongoing leadership and thoughtful attention to the many issues facing our city, especially reducing traffic by allowing more multimodal transportation options.

I want to let you know that I support shared electric scooters. These innovative new modes of transportation are affordable, fun, efficient, fairly self sustaining, and environmentally-friendly.

As we plan for a more sustainable future, we need to embrace innovation that makes our city greener and our streets less crowded with bumper-to-bumper car traffic. This is exactly what we envisioned when we pictured "the future" as kids

Thank you,
Rory Slikker

I love Bird!

Dear Mayor and City Councilmen,
the company bird would like me to tell you it's a safe community toy that can be very helpful in environmental efforts and so on and so forth but contrary to that train of thought, the bird is a very dangerous and should be removed from the community. I rode the bird for 2 days, resulting in numerous fights. One of them was a man "giving me the bird" because he was in the turning lane and I had the green light and proceeded. I had 4 circumstances in those 2 days that resulted in inches from accidents due to either people not yielding to the scooter or cars believing they don't have to yield to them. And while the bird could argue that these circumstances would be improved by your endorsements, I'm here to swear to you that the right of the road will never be given to the bird users no matter what regulations are put on it. The bird not only makes traffic worse in many ways but is very hazardous to the riders and would be a selfish decision to keep them here in the beautiful city of LA

Dear Mayor and City Councilmembers,

Thank you for your ongoing leadership and thoughtful attention to the many issues facing our city, especially reducing traffic by allowing more multimodal transportation options.

I want to let you know that I support shared electric scooters. These innovative new modes of transportation are affordable and environmentally-friendly.

As we plan for a more sustainable future, we need to embrace innovation that makes our city greener and our streets less crowded with bumper-to-bumper car traffic.

Thank you,
Jakub Kratochvil

Dear Mayor and City Councilmembers,

Thank you for your ongoing leadership and thoughtful attention to the many issues facing our city, especially reducing traffic by allowing more multimodal transportation options.

I want to let you know that I support shared electric scooters. These innovative new modes of transportation are affordable and environmentally-friendly.

As we plan for a more sustainable future, we need to embrace innovation that makes our city greener and our streets less crowded with bumper-to-bumper car traffic.

Thank you,
Diego Montoyagarnica

Dear Mayor and City Councilmembers,

Thank you for your ongoing leadership and thoughtful attention to the many issues facing our city, especially reducing traffic by allowing more multimodal transportation options.

I want to let you know that I support shared electric scooters. These innovative new modes of transportation are affordable and environmentally-friendly.

As we plan for a more sustainable future, we need to embrace innovation that makes our city greener and our streets less crowded with bumper-to-bumper car traffic.

Thank you,
Brandon

Dear Mayor and City Councilmembers,

Thank you for your ongoing leadership and thoughtful attention to the many issues facing our city, especially reducing traffic by allowing more multimodal transportation options.

I want to let you know that I support shared electric scooters. These innovative new modes of transportation are affordable and environmentally-friendly.

As we plan for a more sustainable future, we need to embrace innovation that makes our city greener and our streets less crowded with bumper-to-bumper car traffic.

Thank you,
Danilo Ribeiro

Dear Mayor and City Councilmembers,

Thank you for your leadership and attention re: allowing electric scooters in the bike lanes.

I used to hate seeing these scooters everywhere myself, until I rode one to school. Now I support shared electric scooters, both as a rider and as a charger.

While bikes are more environmentally-friendly, scooters are still more environmentally friendly than cars - including Ubers, which is a vehicle scooters are replacing most.

Please help plan for appropriate and safe use of the scooters, to help keep our city green and our streets less crowded.

Also as a charger, I can tell you that this is a great pick up job for people who need to augment student or part time jobs.

Thank you,
Julia Dole

Dear Mayor and City Councilmembers,

Thank you for your ongoing leadership and thoughtful attention to the many issues facing our city, especially reducing traffic by allowing more multimodal transportation options.

I want to let you know that I support shared electric scooters. These innovative new modes of transportation are affordable and environmentally-friendly.

As we plan for a more sustainable future, we need to embrace innovation that makes our city greener and our streets less crowded with bumper-to-bumper car traffic.

Thank you,
Sean Sebastian Uribe

Dear Mayor and City Councilmembers,

Thank you for your ongoing leadership and thoughtful attention to the many issues facing our city, especially reducing traffic by allowing more multimodal transportation options.

Honestly, scooters and mopeds are the wave of the future. LA should adapt the customs of crowded cities in foreign country's. Less people in cars and safer paths for people on smaller pieces of transportation is a must for the continued growth of our beautiful city

I want to let you know that I support shared electric scooters. These innovative new modes of transportation are affordable and environmentally-friendly.

As we plan for a more sustainable future, we need to embrace innovation that makes our city greener and our streets less crowded with bumper-to-bumper car traffic.

Thank you,

Louie Lozano

As we plan for a more sustainable future, we need to embrace innovation that makes our city greener and our streets less crowded with bumper-to-bumper car traffic.

Also it also allows me to support more local businesses. Before if a coffee shop or cafe I really like is to far to walk to, I would just not go, as it's to much of a hassle for finding parking and not worth a 15min car ride to go 2 miles. Now it makes complete sense to just grab a bird and go to a much wider radius range of local businesses.

Thank you,
Nicholas Lucas

Dear Mayor and City Councilmembers,

Thank you for your ongoing leadership and thoughtful attention to the many issues facing our city, especially reducing traffic by allowing more multimodal transportation options.

I want to let you know that I support shared electric scooters. These innovative new modes of transportation are affordable and environmentally-friendly.

As we plan for a more sustainable future, we need to embrace innovation that makes our city greener and our streets less crowded with bumper-to-bumper car traffic.

Thank you,
Diana Soedarmanto
