Directed To: City Council and Committees

Council File Number: 17-1311

Agenda Date:

Item Number:

Summary: The Downtown Los Angeles Neighborhood Council ("DLANC") hereby submits the following Community Impact Statement in support of Council File 17-11311. DLANC agrees that significant changes must be made to the City's street-related infrastructure and the public works programs tasked with maintaining and improving that infrastructure. DLANC also generally approves of the Tier 1 recommendations of moving the Department of Transportation into the Department of Public Works as a Bureau, and creating an umbrella organization to oversee the City's infrastructure program called the Office of Infrastructure Management ("OIM") within the Board of Public Works. But DLANC cautions that the City must take seriously the concern expressed by the Chief Legislative Officer that there is presently no method to implement the proposed OIM, or a defined limit on its regulatory scope of work. Those details must be in place before spending taxpayer money on another local regulatory agency.
