Summary: Foothill Trails District Neighborhood Council communities experience year-round incidences of illegally ignited fireworks which are a constant safety and fire hazard due to this District's existence in High Fire and High Wind zones. Periodic brush fires are ignited by these fireworks. There is a definite need for significant outreach to the public regarding dangers and fines that will be associated with these. Both County and City need to expand information to the public immediately in these hillside areas which have recently been damaged by intense brush fires with substantial losses.
