Type of NC Board Action: For

Impact Information

Date: 01/16/2019

Update to a Previous Input: No

Directed To: City Council and Committees

Council File Number: 18-0054

Agenda Date:

Item Number:

Summary: Whereas the UN's IPCC Report, which aggregated more than 8,000 climate studies, gives the world one year to reach a peak in carbon emissions, and twelve years to halve them; and Whereas the IPCC states that consequences of failure are apocalyptic: tens of millions of displaced people, widespread crop failures, and economic chaos, Whereas even the IPCC's "best case scenario", an increase of 1.5 degrees Celsius, is disastrous; and Whereas the IPCC report is actually too optimistic, failing to take into account certain feedback loops; and Whereas the fires that destroyed hundreds of homes and killed dozens of people this year in California are previews of what the next decade will look like; and And whereas Los Angeles's current commitment is 100% carbon-free energy by 2050, by which time the crisis will be irreversible; The Los Feliz Neighborhood Council urges Los Angeles to recognize that we are out of time. Climate Disruption is here. The LFNC calls upon the City of Los Angeles to declare a Climate Emergency, as London, Berkeley, Richmond, and Oakland have done. In support of the new Los Angeles Climate Emergency Mobilization Department, the LFNC calls upon the City of Los Angeles to accelerate its carbon-free goal from 2050 to 2025, as set out in the Climate Emergency Mobilization Department council file. PLEASE SEE ATTACHED.PDF FOR FULL CIS

COMMUNITY IMPACT STATEMENT

Council File No: File No. 18-0054

Whereas the UN's IPCC Report, which aggregated more than 8,000 climate studies, gives the world one year to reach a peak in carbon emissions, and twelve years to halve them; and

Whereas the IPCC states that consequences of failure are apocalyptic: tens of millions of displaced people, widespread crop failures, and economic chaos, Whereas even the IPCC's "best case scenario", an increase of 1.5 degrees Celsius, is disastrous; and

Whereas the IPCC report is actually too optimistic, failing to take into account certain feedback loops; and

Whereas the fires that destroyed hundreds of homes and killed dozens of people this year in California are previews of what the next decade will look like; and

And whereas Los Angeles's current commitment is 100% carbon-free energy by 2050, by which time the crisis will be irreversible;

The Los Feliz Neighborhood Council urges Los Angeles to recognize that we are out of time. Climate Disruption is here. The LFNC calls upon the City of Los Angeles to declare a Climate Emergency, as London, Berkeley, Richmond, and Oakland have done. In support of the new Los Angeles Climate Emergency Mobilization Department, the LFNC calls upon the City of Los Angeles to accelerate its carbon-free goal from 2050 to 2025, as set out in the Climate Emergency Mobilization Department council file.
