**Subject: Council File: 18-0278 - Full Environmental Review is Needed:**

**Message:** When is the building going to stop! Nature is a very important part of our environment and existence. Building an 8000 sq ft house in the middle of a wildlife corridor is ridiculous!

**Message:** What is wrong with you, people? Is it because you, decision makers live in the city and have never been privileged to enjoy the beauty of nature that you are willing to destroy it along with its wildlife? Is it because you can make an easy buck for the city? I am so appalled to witness what is going on in my neighborhood. The destruction of the hills, the annihilation of the wildlife habitat, just to profit developers who, in turn, will bring money to the city when their cement boxes called "houses", surrounded by cement retaining walls that have replaced rolling hills. PUT GREED ASIDE, RESPECT THE ENVIRONMENT - for a change!

I oppose the Board of Public Works adoption of ENV-2015-1843-MND and its addendum, as well as their approval of a tree removal permit for 5 protected trees.

This decision failed to take in adequate consideration of the adverse effects this project would have on the onsite riparian habitat. The MND also did not address potentially adverse effects on habitat connectivity, as this land is acting as a wildlife corridor between two large open space habitat areas. The Tree Removal Permit for this project was granted prematurely, and no tree removal should take place before the City Council has heard our appeal.
