Commission/ Staff Site Inspection Photos--April 26, 2018

FINDINGS

- The Selma Las Palmas Courtyard Apartments "embodies the distinguishing characteristics of an architectural-type specimen, inherently valuable for study of a period, style, or method of construction" as an excellent and highly intact example of a multi-family residential property in the Hollywood Regency architectural style and a notable example of courtyard housing.

CRITERIA

The criterion is the Cultural Heritage Ordinance which defines a historical or cultural monument as any site (including significant trees or other plant life located thereon) building or structure of particular historic or cultural significance to the City of Los Angeles, such as historic structures or sites in which the broad cultural, economic, or social history of the nation, State or community is reflected or exemplified, or which are identified with historic personages or with important events in the main currents of national, State or local history or which embody the distinguishing characteristics of an architectural type specimen, inherently valuable for a study of a period style or method of construction, or a notable work of a master builder, designer or architect whose individual genius influenced his age.

SUMMARY

The Selma Las Palmas Courtyard Apartments consist of three two-story apartment buildings located at the southwest corner of North Las Palmas Avenue and West Selma Avenue in Hollywood. Constructed in 1939 by engineer Joseph J. Rees for Aetna Construction Company, which was owned by developer and philanthropist Ben Weingart, the subject property was designed in the Hollywood Regency architectural style. Weingart's company continued to own the building until 1985.

1535 and 1545 North Las Palmas are rectangular in plan and feature full, enclosed courtyards, while 1555 is C-shaped and features a north-facing half courtyard open to Selma Avenue. All the buildings are of wood frame construction with smooth stucco cladding and have hipped roofs of composition shingle above the street and courtyard-facing elevations, and flat, parapeted roofs over the remaining elevations. Fenestration consists of multi-lite steel fixed and casement windows, multi-lite wooden double-hung sash windows, and bay windows. All buildings share identical features, like the centered primary entrances on the east-facing elevations, and the outward extension of the central bays surrounding them. Grass courtyards are surrounded by concrete walkways, and units feature individually designed multi-paneled doors, with a variety of broken and solid triangular pediments, straight lintels, and other designs. Second story balconies surround the courtyards with diamond-patterned steel railings, and interiors feature hardwood floors, built-in cabinetry, and plain wainscoting in the dining rooms. Each building is differentiated by its detailing on the primary, east-facing elevations--1535 Las Palmas features wrought iron columns at the primary entry and fluted pilaster corners, 1545 Las Palmas features a scroll pediment over the primary entry and quoins at the corners, and 1555 Las Palmas features rusticated brick around the primary entry and plain corners. There is a row of one-story garages at the rear of the buildings.

The subject property appears to have only undergone minimal alterations over the years that includes the addition of metal security gates over the primary entries of 1535 and 1545 Las

Palmas Avenue, and the removal of a square column from the primary entry of 1545 Las Palmas, at unknown dates.

The subject property was identified as eligible for listing at the state level both individually and as a contributor to a potential historic district in the March 2009 Community Redevelopment Agency Historic Resources Survey of the Hollywood Redevelopment Area prepared by Chattel Architecture, Planning & Preservation, Inc. in collaboration with PCR Services Corporation and LSA Associates, Inc.

DISCUSSION

The Selma Las Palmas Courtyard Apartments successfully meets one of the Historic-Cultural Monument criteria.

The Selma Las Palmas Courtyard Apartments "embodies the distinguishing characteristics of an architectural-type specimen, inherently valuable for study of a period, style, or method of construction" as an excellent and highly intact example of a multi-family residential property in the Hollywood Regency architectural style, and a notable example of courtyard housing. The hallmarks of the Hollywood Regency style, as exhibited by the subject property, are hipped roofs, steel casement windows, stucco cladding with brick veneer, and the use of Neoclassical design elements such as fluted pilasters, pediments, and iron railings. The subject property also retains other characteristic features that include hardwood floors and built-in cabinetry.

Courtyard apartments are one of four multi-family housing types that became popular during California's population boom after World War I. Courtyard apartments are distinguished by several different types, but most commonly they are two stories in height, have a U- or O-shaped configuration with a central courtyard, and have pedestrian access incorporated into the courtyard with vehicular access at the periphery. The Selma Las Palmas Courtyard Apartments is a notable representative of this typology, as it includes the following characteristic elements: O-shaped configurations; central open spaces; garages at the rear; orientation of the interior living spaces toward the central courtyard; and rectangular interior floor plans. The footprint of the subject property has remained the same since 1939 and retains integrity in its site plan, orientation, and interior configurations.

The applicant argues that the subject property is also "identified with historic personage(s) or with important events in the main currents of national, state, or local history" for its association with developer and philanthropist Ben Weingart, and "reflects the broad cultural, economic, or social history of the nation, state, or community" as a representative of the idolized Hollywood lifestyle in the mid-20th century. However, the information provided in the application does not support these findings. Although Ben Weingart was a significant community leader, he is not directly associated with the subject property and the property does not represent his significant contributions. Weingart never resided at the subject property. Weingart's company, Aetna Construction Company, built the residential property and the parent company, Consolidated Hotels Incorporated, owned the property for several decades. Further, the subject property better represents courtyard housing as a type of multi-family residential development rather than a reflection of cultural, economic, or social history.

The Selma Las Palmas Courtyard Apartments is highly intact and retains a high level of integrity of location, design, setting, materials, workmanship, feeling, and association.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (“CEQA”) FINDINGS

State of California CEQA Guidelines, Article 19, Section 15308, Class 8 “*consists of actions taken by regulatory agencies, as authorized by state or local ordinance, to assure the maintenance, restoration, enhancement, or protection of the environment where the regulatory process involves procedures for protection of the environment.*”

State of California CEQA Guidelines Article 19, Section 15331, Class 31 “*consists of projects limited to maintenance, repair, stabilization, rehabilitation, restoration, preservation, conservation or reconstruction of historical resources in a manner consistent with the Secretary of the Interior’s Standards for the Treatment of Historic Properties with Guidelines for Preserving, Rehabilitating, Restoring, and Reconstructing Historic buildings.*”

The designation of the Selma Las Palmas Courtyard Apartments as an Historic-Cultural Monument in accordance with Chapter 9, Article 1, of The City of Los Angeles Administrative Code (“LAAC”) will ensure that future construction activities involving the subject property are regulated in accordance with Section 22.171.14 of the LAAC. The purpose of the designation is to prevent significant impacts to a Historic-Cultural Monument through the application of the standards set forth in the LAAC. Without the regulation imposed by way of the pending designation, the historic significance and integrity of the subject property could be lost through incompatible alterations and new construction and the demolition of an irreplaceable historic site/open space. The Secretary of the Interior’s Standards for Rehabilitation are expressly incorporated into the LAAC and provide standards concerning the historically appropriate construction activities which will ensure the continued preservation of the subject property.

The use of Categorical Exemption Class 8 in connection with the proposed designation is consistent with the goals of maintaining, restoring, enhancing, and protecting the environment through the imposition of regulations designed to prevent the degradation of Historic-Cultural Monuments.

The use of Categorical Exemption Class 31 in connection with the proposed designation is consistent with the goals relating to the preservation, rehabilitation, restoration and reconstruction of historic buildings and sites in a manner consistent with the Secretary of the Interior’s Standards for the Treatment of Historic Properties.

Categorical Exemption ENV-2018-1041-CE was prepared on April 30, 2018.

BACKGROUND

On March 15, 2018, the Cultural Heritage Commission voted to take the property under consideration. On April 26, 2018, a subcommittee of the Commission consisting of Commissioners Barron and Milofsky visited the property, accompanied by staff from the Office of Historic Resources.

SUMMARY

The Selma Las Palmas Courtyard Apartments consist of three two-story apartment buildings located at the southwest corner of North Las Palmas Avenue and West Selma Avenue in Hollywood. Constructed in 1939 by engineer Joseph J. Rees for Aetna Construction Company, which was owned by developer and philanthropist Bert Weingart, the subject property was designed in the Hollywood Regency architectural style. Weingart's company continued to own the building until 1985.

1535 and 1545 North Las Palmas are rectangular in plan and feature full, enclosed courtyards, while 1555 is C-shaped and features a north-facing half courtyard open to Selma Avenue. All the buildings are of wood frame construction with smooth stucco cladding and have hipped roofs of composition shingle above the street and courtyard-facing elevations, and flat, parapeted roofs over the remaining elevations. Fenestration consists of multi-lite steel fixed and casement windows, multi-lite wooden double-hung sash windows, and bay windows. All buildings share identical features, like the centered primary entrances on the east-facing elevations, and the outward extension of the central bays surrounding them. Grass courtyards are surrounded by concrete walkways, and units feature individually designed multi-paneled doors, with a variety of broken and solid triangular pediments, straight lintels, and other designs. Second story balconies surround the courtyards with diamond-patterned steel railings, and interiors feature hardwood floors, built-in cabinetry, and plain wainscoting in the dining rooms. Each building is differentiated by its detailing on the primary, east-facing elevations--1535 Las Palmas features wrought iron columns at the primary entry and fluted pilaster corners, 1545 Las Palmas features a scroll pediment over the primary entry and quoins at the corners, and 1555 Las Palmas features rusticated brick around the primary entry and plain corners. There is a row of one-story garages at the rear of the buildings.

The subject property appears to have only undergone minimal alterations over the years that includes the addition of metal security gates over the primary entries of 1535 and 1545 Las Palmas Avenue, and the removal of a square column from the primary entry of 1545 Las Palmas, at unknown dates.

The subject property was identified as eligible for listing at the state level both individually and as a contributor to a potential historic district in the March 2009 Community Redevelopment Agency Historic Resources Survey of the Hollywood Redevelopment Area prepared by Chattel Architecture, Planning & Preservation, Inc. in collaboration with PCR Services Corporation and LSA Associates, Inc.

CRITERIA

The criterion is the Cultural Heritage Ordinance which defines a historical or cultural monument as any site (including significant trees or other plant life located thereon) building or structure of particular historic or cultural significance to the City of Los Angeles, such as historic structures or sites in which the broad cultural, economic, or social history of the nation, State or community is reflected or exemplified, or which are identified with historic personages or with important events in the main currents of national, State or local history or which embody the distinguishing characteristics of an architectural type specimen, inherently valuable for a study of a period style or method of construction, or a notable work of a master builder, designer or architect whose individual genius influenced his age.

FINDINGS

Based on the facts set forth in the summary and application, the Commission determines that the application is complete and that the property may be significant enough to warrant further investigation as a potential Historic-Cultural Monument.

HISTORIC-CULTURAL MONUMENT NOMINATION FORM

Selma Las Palmas Courtyard Apartments *Architectural Description*

The Selma Las Palmas Courtyard Apartments consist of two full square courtyard buildings at 1535 and 1545 N. Las Palmas Avenue and a third half courtyard at 1555 N. Las Palmas Avenue. The two story buildings are constructed in the Hollywood Regency style. The two larger buildings are built in a square with the building plan surrounding an open garden, while the smaller third building has a U-shaped layout forming a half courtyard. The three buildings were all built together and share many commonalities in design, but each was given a unique look through the use of different detailing treatments.

The main or entrance to each of the full courtyard buildings is a covered patio located at the center of the front façade with a tile floor, entered via a decorative porch flanked by narrow fluted square pilasters. The entrance to the building at 1535 Las Palmas is topped with a rigid awning supported by decorative wrought iron pillars. The 1545 building entry is topped with a classically detailed broken pediment with small a low arched parapet above it at the roof level decorated by a Classical drapery detail at the center of the pediment. The 1555 building has a single front door set in a rusticated brick façade, with a classical broken pediment. Each building is slightly different in detailing.

Apartments are entered via the courtyard with individually designed doors and frames, each appearing unique from the rest. Some have broken pediments, some have solid triangular pediments, others are straight lentils, etc., with multi-paneled doors. Decorative door openings also lead to the parking garages in the rear. The second level balconies surround the courtyards and have decorative steel railings with a diamond pattern. The buildings all have hipped composition shingle-covered roofs, dotted with several stucco-clad chimneys and small arch metal vents.

Windows are mostly multi-light steel casements or multi-light steel fixed, while some smaller windows have multi-light wooden double hung sashes. Some are on wide three sided bays and others are on square bump outs.

The three front facades all have unique details:

The front façade of the 32-unit “A” building at 1535 Las Palmas has two semi-circular window bays and arched lentils above the larger windows at the first floor level, excepting the two that flank the entry, which have square recessed surrounds. The central section surrounding the entry is set forward. A double banded freeze is set between the floors broken by the bays, which have rectangular freezes between the upper and lower windows. Fluted square pilasters are at the building corners, broken by the freeze and half pilasters on the lower corners of the central portion. A single band is across the front at the base of the first floor windows. This building is the most modern looking of the three. The roofline has a simple lined closed cornice

The front façade of the 32-unit “B” building at 1545 Las Palmas has two squared window bays topped with small arched pediments and straight lentils with simulated capstones above the larger windows at the first floor level, except those in the central section. A single band is across the front at the base of the windows except at the central section, which is set forward and has a rusticated brick bulkhead. The corners of the building and the central section are decorated with large quoins. The roofline has shallow open eaves. This building has the most classical detailing of the three.

The front façade of the 16-unit “C” building at 1555 Las Palmas has a rusticated brick surface across at the first floor level, flanked by brick quoins at the corners. The entry to a front apartment is flanked with sets of casement windows topped by palladian style arches in brick with capstones with sunburst designs below the arches. A small octagonal window is set directly above the entry. The roofline has closed eaves with a decorative band at the base. This building is the most eclectic of the three

The courtyards are large grassy surrounded by concrete walkways. There are low walled beds for trees, roses and other planting within the courtyards. The edges of the well-manicured courtyards are lined with cypress trees and bushes, including bird of paradise. Drains are set in the grassy areas to keep water from flooding the courtyard.

The buildings are plain on the rear facades, excepting for the steel casement windows. Across from them are a series of 1-story garages with tile coping on the low parapets.

The interiors of the building have hardwood floors, built-in cabinetry, plain wainscoting in the dining rooms.

Selma Las Palmas Courtyard Apartments

1535, 45 & 55 N. Franklin Avenue

Significance Statement

The Selma Las Palmas Courtyard Apartments represent one of the finest examples of Hollywood Regency styling in the Hollywood area. They are significant for their architectural quality and integrity, and remain virtually unaltered. The buildings located on a large lot at the corner of Las Palmas Avenue and Selma Avenue, between Sunset and Hollywood Boulevards in an area that is synonymous with Old Hollywood. The complex is also associated with Ben Weingart, having been built for his company, Consolidated Hotels Inc. and retained by him and the Weingart Association until 1985.

“Hollywood Regency”, which is sometimes called **“Regency Moderne”**, is a design style that describes both interior design and landscape architecture characterized by the bold use of color and contrast often with metallic and glass accents meant to signify both opulence and comfort. It is named for the movie-making industry of southern California as typified by the glamorous homes and estates of the actors and actresses of Hollywood's "Golden Era", roughly from the 1920s through the 1950s, and typified by the work of interior designers, such as Dorothy Draper and Billy Haines. The term "Hollywood Regency" appears to have originated with Draper in the 1920s. It remains a current and lively area of design work both inside and outside of southern California.

It is a style meant to feel frivolously overdone and pleasantly, extravagantly unbalanced, yet sleek and modern, not unlike the Rococo style and in contrast to the strict, repetitive ornament of styles such as Beaux Arts. By the 1930s, it had become a decorative variant of the Streamline Moderne for exterior designs. This was to give the Modern style a bit of a classical bent, bringing elements of earlier styles into the facades.

The three buildings show a commonality in their layout and massing, as well as materials and surfaces, but each captures its individual look through the use of different design elements in each building. This concept even goes further within each building by giving each unit a unique entry. The Hollywood Regency style in many respects is an amalgamation of both Modernism and classicism. It is also paired with traits of more traditional styles, such as Spanish Colonial Revival,

French Provincial and Italian Renaissance, giving input into evolving styles, such as Neo-Classicism.

The layout of the buildings reflect the view of the time of the Hollywood lifestyle, with the expansive courtyards that were designed to give the resident a sense of living in a Hollywood movie. This was the epitome of the California lifestyle, taking full advantage of the weather and the locale in the middle of the “Movie Capital of the World”. The feeling conveyed was not that one was living in an apartment, but rather that one was living in a dream.

They were built by the Aetna Construction Company, which was also owned by Ben Weingart, at a cost of \$200,000.00 for the three buildings, plus an additional \$4,500.00 for the five garages. There is no architect on the permits, but the engineer was Joseph J. Rees.

Born in Grodno, Russia (Poland after World War I, U.S.S.R after World War II and now Belarus) on March 19, 1894 as Joseph Rzepniewsky. He received his training as a civil engineer while he and his wife, Eugenia, were living in Liverpool, England, before immigrating to the United States in 1913. He became a United States citizen a decade later, living at the time on Malabar Street in Boyle Heights.

It is possible that the Aetna Construction Company had an in-house architect. However, three years earlier the firm had retained architect Clarence Justin Smale to design an apartment at 827-37 S. Hobart Boulevard. Smale was the architect of several theaters, including the Loyola in Westchester (HCM 259) and a number of fine homes, such as the Monsignor O’Brien Residence (HCM 861). Smale also designed apartment buildings. The buildings at Selma and Las Palmas are highly detailed, a Smale characteristic, in other buildings that he designed.

Nothing has been found, as of yet, to see if there was a long-term relationship between Smale and the Aetna company. Future research may establish that connection or identify another highly skilled architect that worked with the construction company.

Aetna Construction, Inc. is listed as the owner/builder of the Selma/Las Palmas Courtyard Apartments, but county assessor’s records show Consolidated Hotels Incorporated. The Aetna concern was a wholly-owned subsidiary of Consolidated Hotels, a company that ran both hotels and apartment buildings. After World War II, the Aetna firm was to become one of the largest developers of single family

homes in Southern California, with subdivisions in the San Fernando Valley, the South Bay, Alhambra and Orange County. The company focused on buyers who were recent veterans utilizing the GI Bill for funding. The largest of these ventures was the establishment of the city of Lakewood on 3,000 acres of land that Weingart bought in the early 1950s. The 18,000 home development that Aetna did there, partnering with Mark Taper and Louis Boyer heralded a fundamental shift in population patterns that were to transform Los Angeles into one of the nation's primary urban centers. Lakewood was looked upon as the West Coast version of New York's famous Levittown.

Consolidated Hotels, Inc. was founded in 1928 by Ben Weingart, who was to become one of the richest men in California and one of the most generous. Born Benjamin Weingarten in Louisville, Kentucky on September 26, 1888 to immigrant Jewish parents. His German-born father died in an accident before he was 5 and his Russian mother passed shortly afterwards. He was soon in an orphanage in the Atlanta, Georgia area until a local woman took an interest in him and raised him as her own. She was a devout Christian Scientist and he converted to that religion, but never lost touch with his Jewish roots. Weingart usually listed his birthplace as Atlanta, rather than Louisville.

As a teenager he moved to Detroit and worked pushing a clothing cart in the garment district and then in San Francisco where he briefly sold encyclopedias. In 1906, when he was 18 he relocated to Los Angeles and worked for the Diamond Laundry Company driving a horse wagon, but within a decade he was working as a hotel manager. He was also an inventor, building a robot that could respond to piano chords, worked with high-speed counter, long before the pocket calculators were invented and designed and received patents on various items, such as a vacuum cleaner that could reach under furniture, to a newfangled toilet paper holder.

He married his wife, Stella, in 1916 and soon bought his first hotel, a rundown building on Skid Row. He made the building more profitable by converting most of it to apartments and soon owned several other buildings. Years later, as a wealthy man, he was asked why he still retained his Skid Row holdings and his response was "The poor need a place to live."

Weingart was to acquire substantial real estate holdings, including hotels, apartment buildings and boarding houses. He also owned a variety of businesses from laundries to jewelry companies. He was also a partner for several years in a Los Angeles brokerage house. Even during the Great Depression, Weingart's

holdings grew with announcements of construction appearing frequently in the Los Angeles Times.

Many of the new buildings were sold once they were fully occupied, but a few were retained by the company, including the Selma Las Palmas Courtyard Apartments, which were eventually transferred into Weingart's own name in 1948. A decade later he put it under Tragniew, Inc., a real estate holding Company he owned (Tragniew is Weingart spelled backwards).

What Ben Weingart is best remembered for is the Weingart Foundation, which he and Stella founded in 1951 as a charitable venture to help the needy by providing grants and other support designed to improve the capacity and effectiveness of nonprofit organizations delivering quality services in health, human services, and education to people and communities who face the most obstacles to opportunity.

Since its founding the Weingart Foundation has served the underserved. The foundation was started with about \$15,000,000.00 in money from the Weingarts. By the time of Ben Weingart's death in 1980, it had over \$176,000,000.00 and has over \$750,000,000.00 in assets and has granted more than \$950,000,000.00 to support a variety of Southern California social services, educational and community programs.

When he was 86, Weingart was placed in a conservatorship due to advancing dementia and the apartments were put into the B. W. Foundation, which was managed by the Weingart Foundation, on March 2, 1978. Weingart passed away two and a half years later, on December 22, 1980. The Foundation sold the property five years later.

The land that the buildings are on was previously owned by Joseph Hurd Walker, a pioneer resident of Hollywood. Walker had purchased a 2.5 acre portion of the Northwest Quarter of Section 10, Township 1 South, Range 14 West. In the 1920s he sold the Southern portion of the land, where the Hollywood Reporter Building now stands. In April 1936, Walker allowed the First Baptist Church of Hollywood to move a small office on to his land in order to facilitate the construction of a new church across the street. Later that year, he sold the family home to Linnie Peterson, who then moved the house and converted it to a duplex at 9303-05 Bandera Street, where it remain extant at the present time. He then sold his land to Consolidated Hotels Inc., which had the apartments built.

After Ben Weingart's death, much of his real estate was sold off. The Selma Las Palmas Courtyard Apartments were sold to a partnership headed by Kee Whan and Kyung Hee Ha, along with In Kyo and Ok Ja Han, Ok Suk and Busun Kim as well as with Sung Ho and Que Hee Lee on September 24, 1985. On April 26, 1993 the four couples placed it under Las Palmas Apartment c/o Olympic Property Management Company. A year later, on April 4, 1994, it was deeded to Louis and Carmen Harvey Warscham.

The apartments were sold to the Cross Roads Trust, with Morton La Kretz as the Trustee, on June 13, 1994. Finally, on June 20, 2002, they were placed Under Cross Roads Properties I, LLC, the present ownership of record.

The Selma Las Palmas Courtyard Apartments were flagged in Survey LA as eligible for an individual listing on the California Register. They are representative of the idolized Hollywood lifestyle in the Mid-20th Century, as the community had evolved into the place that dreams were made. They also meet the requirements for Los Angeles Historic Cultural Monument as an architectural type specimen of the Hollywood Regency style. They are also significant due to the longtime association with a major historic California individual in developer/philanthropist Ben Weingart.

Permits were issued for construction of the three apartment buildings located on this property in 1939. "Unit A" is located at 1535 N. Las Palmas Ave and "Unit B" is located at 1545 N. Las Palmas Ave. Units A & B are twins, each designed in 2-story square doughnut arrangements fronting Las Palmas Avenue. Both were designed with stucco exterior walls, built to contain 130 rooms and 32 families, and each were built at a cost of \$80,000. The third apartment building on the lot (not given a name) is located at 1555 N. Las Palmas Ave. It has a C-shape layout with the building arranged around green space and facing Selma Avenue. It was originally constructed as a 2-story, 16-family, 40-room...(continued on next page)

CHAIN EXTENDS HOLDINGS

Los Angeles Organization Leases San Francisco Hotel Preliminary to Northern Operations

Consolidated Hotels, Inc., operators of a chain of 110 hotels and apartment-houses in the Los Angeles metropolitan area, has extended its operations into Northern California through the leasing for fourteen years of the six-story Turpin Hotel in San Francisco from the Bank of Italy National Trust and Savings Association, J. L. Spicer, manager of operations, reported yesterday. *

The hotel concern was organized May 1, 1928, to take over the operation of a group of forty properties from the Lincoln Investment Company. Since that time the company has expanded its operations until today the establishments under its supervision represent a total value of more than \$25,000,000 and contain more than 12,000 rooms. Its chain of properties is said to be the largest under a single management in the West.

With the leasing of the Turpin Hotel, the initial step has been taken toward large-scale expansion of operations in the Northern California field, Spicer states. Negotiations are under way for the leasing of additional hotel and apartment properties in San Francisco and neighboring cities and plans for opening a branch office of the company in the north are being made, it was stated.

The Turpin Hotel is a Class A building containing 210 rooms and is situated at 17 Powell street at Market street. Work was started yesterday on a \$50,000 improvement program by the Bank of Italy to renovate the building and Consolidated Hotels, Inc., will spend \$100,000 for furnishings, according to Spicer.

HOSTELRY CHAIN ADDS TEN UNITS

*Consolidated Hotels, Inc.,
Leases Apartments*

*Gross Rental Estimated at
\$1,525,000*

*Two of Buildings Located in
Downtown Area*

Calling for an estimated gross rental of more than \$1,525,000, ten local apartment-houses, representing an aggregate investment of more than \$1,750,000 in land, buildings and furnishings, were leased yesterday by Consolidated Hotels, Inc., for periods ranging from five to fifteen years, according to announcement by Werner Hartman, official of the chain concern.

Inclusion of the ten units in the Consolidated chain brings the number of local properties operated to 120 hotels and apartment-houses, said to be the largest number of such establishments under a single management in the United States, according to Hartman. The ten houses all were leased on the percentage basis, with no fixed annual rental set.

TWO IN DOWNTOWN AREA

Two of the ten buildings leased yesterday are situated in the downtown district. These are the Pickwick Apartment Hotel, a \$350,000 five-story brick building at 833 South Grand avenue, containing 187 rooms, leased from the Title Insurance and Trust Company, trustee, and the St. Francis Apartments, a three-story building at 203 West Tenth street, containing fifty-six rooms, leased from the Van Nuys Investment Company.

Names of the owners of the other eight structures are withheld pending completion of other transactions, it was stated. The description of the properties, however, is given, as follows: The Cora Belle Apartments, a four-story brick building at 447 Grandview, containing ninety-four rooms, forty-seven apartments; the Sherbrook Arms Apartments, a three-story brick building at 247 South Alexandria, containing twenty-seven apartments; the Wilton Arms Apartments, a four-story brick building at 1310 South Wilton Place, containing forty-eight apartments.

LARGEST EXPANSION

The Holly Vista Apartments, a four-story brick building at 1975 North Beechwood, containing forty-seven apartments; the Pellissier Apartments, a four-story brick building at 817 South Hobart, containing 104 rooms; the Hillmont Apartments, a three-story brick building at 205 North Kenmore, containing sixty rooms; Delphene Manor, a three-story brick building at 1240 Fourth avenue, containing thirty-two apartments, and the Hoover Arms Apartments, a four-story brick building at 384 South Reno, containing ninety-five rooms.

The leasing of the ten structures marks the largest single expansion of the Consolidated chain since its organization in 1928, according to Hartman. In addition to its expansion locally, the company recently has extended its operations into Northern California by leasing the Hotel Turpin at Market and Powell streets, San Francisco.

BELL TO LECTURE TODAY

Rev. Robert B. H. Bell of Denver, leader of the "Life Abundant" movement in the Episcopal Church, will give a lecture at St. Paul's Cathedral at 10 a. m. today.

HOLLYWOOD PLANT GROWS

Los Angeles Times (1923-Current File); Jun 28, 1936;
ProQuest Historical Newspapers: Los Angeles Times
pg. E3

New Apartment Building's Cost to Be \$74,500

Plans and specifications have been completed for a \$74,500 apartment building to be erected at 827-37 South Hobart Boulevard for the Aetna Construction Company. Clarence J. Smale is the architect.

The structure will rise three stories and is to contain fifty rooms divided into fourteen apartments.

Two Realty Sales Exceed \$100,000

In realty transactions representing investment in excess of \$100,000, former Superior Court Judge C. F. Cook of Long Beach has acquired the Las Moradas Apartments, a four-story brick building, 1221 North Vermont avenue, from the Consolidated Hotels, Inc., and the De Longpre Apartments at 6228 De Longpre street, Hollywood, from Mrs. Lola Ogg.

F. E. Yates of the Yates Realty Company, North Hollywood realty dealers, represented both the buyer and sellers in both transactions.

RENTAL-HOME PROJECT BUILT

Los Angeles Times (1923-Current File); Jul 21, 1940;
ProQuest Historical Newspapers: Los Angeles Times
pg. E2

RENTAL-HOME PROJECT BUILT

One of Los Angeles' largest rental projects of moderately-priced four and five-room unfurnished homes has just been completed at Washington Gardens. The development covers approximately two square blocks. There are about 200 units with separate entrances in variously styled two-story buildings.

The project is in an area already popular for its comparative nearness to downtown Los Angeles, its accessibility and its shopping facilities close at hand, just north of Washington, two blocks east of Vermont. The grounds have been beautifully landscaped.

Consolidated Hotels, Inc., owners and operators of the project, state that some \$500,000 was expended and that almost half of the units already have been spoken for.

Inquiries were received even before the buildings were well under way, it was announced.

Each unit has a flameless electric water heater, electric refrigeration and an electric bathroom heater. The units have been

wired for electric ranges which are being installed with year leases. Each suite is fully carpeted.

ENCINO WHITE OAK PARK OPENS FORMALLY TODAY

Los Angeles Times (1923-Current File); Jul 2, 1950;
ProQuest Historical Newspapers: Los Angeles Times
pg. E4

ENCINO WHITE OAK PARK OPENS FORMALLY TODAY

Formal opening of White Oak Park in Encino is announced for today by officials of the Aetna Construction Co.

The completely furnished model homes have drawn favorable comments from the many visitors, according to J. F. McCaffery and Bill Clifford, realtors and exclusive sales representatives for the development.

New freeways, now partially completed, will bring the community nearer to Hollywood and Los Angeles. It has also been

announced that a large new shopping center will be built within easy walking distance of the property. Already there are churches, schools, stores and theaters nearby.

Foundations of homes at White Oak Park are solid concrete two feet up from the ground. Floors are hardwood over heavy diagonal subflooring.

All homes have garages, single or double, attached or detached.

Features Described

Among added features are pulverators, automatic water heaters, dual floor furnaces, separate service porches or laundry facilities, steel casement windows, stainless steel drainboards, tile splash over bathtubs and laundry trays, plenty of closet and cupboard space, shades and rust-proof plastic screens throughout.

Prices for the homes are low and terms attractive, it was stated. No down payment is necessary by veterans. Monthly payments start at \$40.34 for two-bedroom homes and \$48.11 for

three-bedroom dwellings, it was explained.

Five completely furnished model homes are open from 9 a.m. to 9 p.m. daily. The area is floodlighted at night.

Tract office and model homes are at the corner of Victory Blvd. and Lindley.

The Incredible Story of Ben Weingart

by [Deke Keasbey](#), Real Estate Investment Specialist, Tierra Properties

Ben Weingart was born near Atlanta, Georgia, in 1887, and died in Los Angeles in 1980. At age 18 he started work in Los Angeles as a delivery boy, and when he died at age 93 he left a real estate empire worth an estimated \$100 million. By 1974, he had been for some time the largest taxpayer on the rolls of the Los Angeles County Assessor.

From Humble Beginnings

Weingart was an orphan. He never knew his parents. At age 7 he bought candy in town, then walked to his country school and sold it to school kids at triple his price, having eaten none of it himself. In grade school he got into frequent fights defending his adoptive sister, who was handicapped. The fighting forced him to leave school in the third grade. He never returned.

As a teenager, Weingart worked in Detroit in the garment district pushing racks of clothes through the streets, and in St. Louis driving a laundry wagon. He became convinced that his fortune would be made out west, in Los Angeles.

From Delivering Laundry to Hotel Ownership

In 1906, at age 18, Weingart arrived in Los Angeles penniless on a railroad boxcar. He got a job delivering laundry from a horse-drawn wagon with the Diamond Laundry Company. He lived frugally, saved much of his income and began to reinvest his money into the laundry company. In a few short years, he acquired ownership of the company.

Under Weingart's management the laundry company grew, especially with hotel business which needed large quantities of laundry cleaned in a short time.

The owner of the Winchester and other hotels, Mr. Orth, was so impressed with Weingart's efficiency that he asked Ben if he would manage some of his hotels. Weingart accepted the offer, and promptly changed the operating policies at all hotels under his charge. His salary was in the form of profit sharing. Nothing could make Ben work harder than profit. Efficiency tripled and profits increased sharply at Mr. Orth's hotels. Weingart again invested his earnings into the company he worked for, and soon he acquired ownership of some of the hotel properties.

Meantime, Weingart met Morgan Adams of Western Mortgage Company. Western Mortgage had a number of hotels that were experiencing difficulties. Ben was able to solve many of the problems and in the process acquired more hotel properties for himself.

An Accumulator of Property

With some experience under his belt, he obtained financing and began buying more properties. Most of his early properties were located in downtown Los Angeles. He was convinced that the Los Angeles economy was growing strongly. He believed that real estate in Los Angeles could only become more valuable. His belief proved to be correct - property values in downtown indeed grew at a rapid rate.

Weingart was never a seller. He was an accumulator. He would buy and hold property. His properties soon made him worth several million dollars.

At age 27 he fell in love with Stella Shobe and they got married. It has been said that Weingart always had a strong attraction for the ladies. It was also said that Ben never touched alcohol.

By the early 1930s the stock market had crashed and many people had experienced large losses. Ben lost nearly \$20 million in the value of his investments, but he managed to hang onto some of his properties.

During the Depression, many of the hotels in downtown Los Angeles suffered hardships, and one of their major creditors was Weingart's laundry company. When hotels couldn't pay him, Weingart would settle for an option to buy the property at a greatly reduced price. Then he would contact the mortgage holder and disclose the problems that the hotel was experiencing. He would suggest that there was a good chance the mortgage holder might get the property back through foreclosure and thus would inherit the problems of the previous operator.

He would then negotiate with the mortgage holder, saying that if they would reduce the mortgage principal balance, and also sufficiently reduce the monthly payments, he would take over and operate the property. Weingart was a tough negotiator, but a reliable operator. Many mortgage holders took his proposal rather than face the prospect of losing substantial sums through foreclosure, while still being required to manage the property.

Weingart converted many hotel rooms into efficiency bachelor apartment units. The result was that the units were more desirable, the income was increased, and the units stayed rented for longer periods of time. Less turnover meant fewer repairs, hence higher net income.

After the Depression, once again he started buying foreclosed properties. He raised additional funds through financing and acquired even more properties.

Weingart Builds a City

In the late 1940s Weingart bought 3,500 acres of land north of Long Beach. It was farmland formerly used to grow beans and sugar beets. He had a vision of grand development for the property.

Weingart engaged three developers: Lou Boyar, Mark Taper, and Joel Eichenbaum. He contacted Harry Volk of the Prudential Insurance and Trust Company, who agreed to insure \$250 million in mortgage loans. 17,000 homes were built. The combination of a development plan and financing was the birth of the City of Lakewood.

It was Weingart's vision and resources that built the Lakewood Shopping Center, the first large-scale shopping center in the country. It was constructed on 163 acres with more than 2 million square feet of shopping space. The Lakewood Shopping Center became a model for shopping center development everywhere.

By 1954, with a population of 57,000, Lakewood was the 16th largest city in California. The growth of the city, along with many other areas of southern California during the 1950s and 1960s, was bolstered by heavy migration of people into the area, including World War II and Korean War veterans.

Weingart also built homes in the San Fernando Valley, La Puente, Thousand Oaks, Oxnard, Ventura, and Las Vegas.

The Mayfair Hotel

In the early 1970s the Mayfair Hotel, located on West Seventh Street, was in trouble. The hotel had 330 rooms. Western International Hotels held the mortgage and the current owner was in default.

Western, owner of the Century Plaza Hotel, did not want to take possession of the Mayfair and have to operate it. They wanted to sell their position. Weingart made an offer to buy the hotel for substantially less than the mortgage amount. His offer was immediately accepted.

Barrington Plaza

Weingart's largest single acquisition was Barrington Plaza, 722 units in three high-rise apartment buildings located on Wilshire Boulevard in West Los Angeles. The property had been taken back by the Federal government through default. The government held a \$22 million loan against the property and did not want to take a loss, but they were ready to negotiate.

The government accepted his offer of \$22 million with nothing down and a total moratorium on payments for two years. Then payments were to be "interest only" for 10 years, but the interest payments would be made only if there was sufficient net income. Any unpaid interest would be added to the principal balance.

As it turned out, Weingart's risk was minimal and his tax benefits were over \$1,250,000 yearly. Real estate went into an inflationary period and Weingart ended up making a profit of over \$10 million on a real estate acquisition which required no down payment.

In 1957 Ben's wife Stella died. During the 1960s and early 1970s he lived with his girlfriend Laura Winston. In 1974 at age 87, Weingart's health had deteriorated. He was unable to function adequately and his assets were placed into a conservatorship. He died in 1980.

In 1974 when the conservatorship began, the Weingart holdings consisted roughly of 100 apartment buildings with a total of 8,469 units, 17 hotels with a total of 4,492 rooms, 5 motels with 654 rooms, 38 leased commercial properties, a construction company, a linen service company, and several million dollars in the bank. The total value of the estate at the time has been estimated at \$100 million.

The Weingart Foundation

Ben Weingart was a generous and caring person who used his wealth to help other people. In 1951, he and his wife Stella started a charitable foundation. Real charity, he thought, is helping those who really need it. The "down and out" people on Skid Row, and the forgotten ones, these were the people he chose to support.

Today, the Weingart Foundation is a well known and respected institution in Los Angeles. In 1994 the foundation had total assets of \$490,350,000 and made total grants of \$25,250,000 to assist people in numerous categories of philanthropy, including education, youth programs, health and medicine, crisis intervention, disaster relief, and community programs.

The Life and Many Loves of Ben Weingart

Quiet Man of Fabulous Wealth

*Time is money, don't waste it!
Business is like a tree; if it stops
growing, it doesn't stand still. It dies.
The only thing you get for nothing
is the hole in your doughnut.*

—Ben Weingart

By RONALD L. SOBLE,
Times Staff Writer

Ben Weingart led many lives.

He was a fabulously wealthy Los Angeles area real estate developer and investor. His vast property holdings ranged from the city of Lakewood and its pioneer shopping center to the expensive Barrington Plaza apartment complex on the city's West Side to dingy \$1.50-a-night Skid Row hotels like the Cecil and the El Rey. In his heyday, he may have owned more hotel rooms than Conrad Hilton.

He was a benefactor of the poor and downtrodden. He set up a kind of way station near 6th and San Pedro streets where those on the fringe of society could at least get free razors and bars of soap. He gave hundreds of thousands of dollars to many humanitarian causes. But he steadfastly refused to part with a buck for the construction of the Music Center, perceiving little benefit in it for the less fortunate.

Wide-Ranging Patents

He was born a Jew, converted as a child to Christian Science and in later years was said to be more atheistic than anything else. In any event, he easily mixed with Los Angeles' wealthy WASP and Jewish communities and knew on a first-name basis the city's most powerful politicians, businessmen and bankers.

He was an inventor who loved to tinker with gadgets. He built a robot that responded to piano chords, fiddled with high-speed counters long before the advent of ubiquitous electronic calculators and designed and received patents on an array of items from a vacuum cleaner that could reach under furniture to a newfangled toilet paper hanger.

He remained a little boy at heart who loved magic shows and such practical jokes as pasting his picture over George Washington's on dollar bills or wearing a life-like ladybug pin on his shoulder.

He was the Casanova of his time.

Photo from Laura Winston's album showing her with Ben Weingart.

He simply loved women—a lot of them. And, almost to a woman, they recalled fondly how they had been wined and dined by that rare commodity: a gracious and old-fashioned gentleman.

And for all of this, the public hardly heard of Weingart. He simply deplored publicity and turned down interviews with the likes of Time, Life and the Saturday Evening Post. It was not until he was declared incompetent at 86 and a bitter court battle developed over his person and estate that Weingart was thrust into the public spotlight.

Benjamin Weingarten (it is not clear why or when he shortened his name) was born on Sept. 26, 1888, in Louisville, Ky.

Little is known about his first few years except that his family was dirt poor and that their plight worsened when his father was killed in an accident.

When young Benny, as he was called then, was 4 or 5 years old, he was sent to an orphanage in the Atlanta area. A few years later, a woman spotted the youth picking cotton in a field near the rural Georgia community of Tignall. She immediately took a liking to the boy and somehow was able to unofficially adopt and raise him in her home.

His new mother was a devout Christian Scientist and she imbued young Weingart with the religion.

WEALTH: L.A. Property Tycoon

Continued from Third Page

She also had a granddaughter afflicted with polio. Ben, it is said, used to protect the crippled girl from neighborhood bullies.

Weingart never forgot those who befriended him in those days. When he was in his early 40s he returned to his childhood home and made a financial gift to the orphanage. He even found an old Tignali man who had lent him a few dollars when he needed the cash to make his way in the world and paid him back.

It is believed his surrogate mother died in a house fire. The little girl with polio also died. But the girl's mother was alive when Weingart returned to Tignali and he paid her way to Los Angeles, saw that she was moved into an apartment house he owned and gave her a monthly allowance.

"That's my mother," he once said to a surprised group of business friends when she walked into a restaurant where they were dining. They later learned the woman was a "Mrs. Kincaid" and that she was very close to Weingart's heart.

After his early years in Georgia, Weingart migrated to Detroit where he worked pushing a clothes cart in the city's garment district. By then, he had a third-grade education, which was about as far as his formal schooling went. But he was continuing his "schooling" in other ways in the rough-and-tumble of the real business world.

By then also, he was growing into a strong young man, just a shade under six feet tall with broad shoulders. His muscles had grown powerful in the Georgia cotton fields.

From Detroit, young Ben wandered to St. Louis and found employment delivering laundry on a horse-drawn wagon. He rose with the sun and his main job was to make sure the ladies of the night in St. Louis' red light district had clean sheets. Years later, he would tell

'This is your friend and don't ever forget it,' he once said of money.

friends, he "never had any involvement" with the women and always treated them with dignity. At the same time, Weingart began saving money and considered another move. Like many other young men, he went West.

Stories vary about how Weingart made his way to California. According to one version, he was befriended by a wheeler-dealer who sold eye glasses the way a carnival pitchman sells a show, and Weingart was the advance man. Another tale was that Weingart rode the rails with hobos, doing odd jobs and moving along when he had the urge and a freight train was convenient until he arrived in California.

Whatever the truth, by the time he reached California, Weingart had learned some of the entrepreneurial rules of survival and knew how to hustle to make a living. Even then, say his friends, he realized that money—saved, invested and amassed—would be the key to carving out a better life for himself.

"This is your friend and don't ever forget it," Weingart said years later to a woman companion while pointing to a fat roll of cash.

Married in 1916

Weingart lost no time applying his particular brand of business acumen in San Francisco, where he sold encyclopedias. There he met the brother of his wife-to-be, Stella. He married her in 1916 after moving to Los Angeles.

Weingart arrived in Los Angeles in 1906 at 18 and took a job with the Diamond Laundry Co., again driving a horse-drawn wagon. The firm had several of the city's Skid Row hotels among its customers. Making his rounds, Weingart met Morgan Adams, a well-connected Los Angeles real estate investor and socialite who owned a number of the hotels that were the laundry company's clients. Adams' Hotels had been losing money for years.

"I think I can make money for you" on the money-losing properties, Weingart reportedly told Adams. And he did.

One of the keys to Weingart's early success with dilapidated hotel properties was to cut hotel services to the bone and convert rooms into small apartments with combination refrigerator and cooking units.

He was so successful in this respect that during the Great Depression, a bank asked Weingart to take over

'I think I can make money for you,' he told a hotel owner. He did.

the money-losing El Rey in the Skid Row district. He did and soon paid off the hotel's mortgage.

Asked later in life why he hung on to Skid Row properties when he was wealthy enough to choose better investments, Weingart replied, "The poor need a place to live."

By that time, Weingart not only had acquired substantial real estate holdings, including hotels, apartment buildings and boarding houses, but he also owned a variety of businesses from laundries to jewelry companies and was a partner for a time in a Los Angeles brokerage house.

It was in a brokerage house during the fall of 1928 that Weingart met a slightly built, attractive divorcee named Hazel Walsh. The next spring, Weingart, although married for more than a dozen years, began a warm and enduring relationship with Walsh.

"It was the most important person in his life," she said in a recent interview. "It was the love of his life, there is no doubt about it."

Then, with a twinkle in her eyes, she added: "Here's to our wives and sweethearts, may they never meet."

'Probably Didn't Know'

Walsh, 86, lives not far from the Hancock Park home Weingart built for himself and his wife. She said she believes Stella, Weingart's wife, "probably didn't know about me" through their long relationship.

In his will, Weingart left Walsh \$15,000 plus \$600 a month for life and income from one of his apartment buildings.

She recalled Weingart's wide circle of friends and acquaintances. They included, she said, developers Mark Taper and Louis Boyer, with whom Weingart developed the city of Lakewood, former Los Angeles Mayor Sam Yorty, oil executive Edwin Pauley, Donald Douglas, president of Douglas Aircraft, businessman Victor Carter and many others.

Stella died in 1957, Weingart and Walsh became more open in their relationship. They were finally seen at large parties and social events around Los Angeles.

Two years later, Weingart met Laura Winston, then 35 and twice divorced, who called on Weingart at his office at 1301 Wilshire Blvd. to solicit a contribution for a charity for which she was working.

Weingart struck up an intimate relationship with Winston that culminated in her moving into Weingart's

Please see WEALTH, Page 19

Photo mural on wall of the Weingart Foundation shows buildings and events in life of the real estate magnate, who died last December at age of 82.

WEALTH

Continued from 18th Page

Hancock Park Home in March, 1974, just months before he was declared incompetent and placed into a conservatorship.

To hear Helen Tarashita, his housekeeper for more than 80 years, tell it, Weingart divided his time between his women by establishing a routine so that Walsh could visit him on Wednesday, Friday and Sunday; Winston on Tuesday, Thursday and Saturday.

Although Weingart's love life was altered by his wife's death, his other habits were not. He was always "the epitome of the eccentric millionaire," according to Mary Levin, wife of the late Norman Levin, a longtime friend of Weingart who founded the Thrifty drug store chain.

This was a reference Weingart's attire: clothes bought decades earlier, a beret (a preference he apparently picked up in his later years after visiting the French business operations of a friend) and high-button shoes, of which he had several dozen pairs made by a Boston firm.

'An Incredible Character'

"The guy was a big overgrown kid," recalled Michael Savage, who is in the leasing business and who saw a lot of Weingart in the 1950s. Weingart carried several hundred dollars, Savage said, not in a wallet, which he never carried, but in a cutaway envelope. "He would take a roll of bills and fan them out like a deck of cards," said Savage. "He was an incredible character."

At their zenith, Weingart's real estate interests through his corporations—Tragniew (Weingart's name spelled backwards), Consolidated Hotels and Junior Realty—may have encompassed more than \$100 million worth of land and buildings. At today's prices, this part of the Weingart estate alone could easily have been worth much more than \$500 million, according to some estimates.

Although he lost a few million dollars in the stock market crash during the Depression, he rebuilt a stock portfolio that, by many accounts, approached or exceeded \$20 million during the height of his investment days.

Moreover, Weingart had access to millions more through Aetna Construction, his own construction firm, and interlocking interests in other firms and ventures, plus about \$15 million in assets in two Stella Weingart trusts, and through the charitable Weingart Foundation, which he and Stella founded in 1951 and which in 1980 had assets of more than \$176 million.

When Weingart died last Dec. 22, his personal estate was valued at about \$57 million. By then, he had assumed a Howard Hughes-like aura, a sort of mystique that surrounds the very wealthy who attempt to escape the probing eyes of the news media and the public.

But, of course, the irony was that also by then the bitter feud over his estate had received enormous publicity.

There are those who contend that if Weingart had been able to do so in his last years, he would have taken the same course his beloved black and white terrier did after Weingart was moved from his Hancock Park home to Good Samaritan Hospital.

The dog, Bobby, pining for its master of many years, ran away and did not come back.

Reflections on Ben Weingart (1888-1980)

Ben Weingart's life began in poverty, but when he died in December 1980, his Southern California real estate holdings were comprised mostly of hotels, shopping centers and apartment buildings worth many millions of dollars. He probably was best known as the man who led the multimillion-dollar venture that created a new town, the City of Lakewood, on what previously were sugar-beet and bean fields.

Built after World War II on a scale grander than Levittown, its famous Eastern counterpart, Lakewood was the first planned city in Southern California. In the 1950s Weingart purchased 3,500 acres of agricultural land from Montana Land Co. and, in the years following, developed the new community of 18,000 homes and the 156-acre Lakewood Center, one of Southern California's first shopping malls.

In planning to develop Lakewood, Weingart and his then partners, Mark Taper and Louis Boyar, foresaw a fundamental shift in population patterns that soon would transform Los Angeles into one of the nation's primary urban centers.

Weingart's generosity was a visible element in Lakewood's growth and development. His long association with and affection for the city can be seen today in the many public facilities made possible by the Weingart Foundation: a civic center, community service center, library, YMCA and senior center.

For more than half a century Weingart's keen business sense earned him the respect and admiration of the financial community and the real estate industry of Southern California. Always considering himself as the steward for the benefit of society of the fortune he accumulated he and his wife, Stella established the Weingart Foundation in 1951.

Born in Atlanta, Ben Weingart was orphaned at the age of five and was brought up by a foster mother on a Georgia farm. He worked as a farmhand and attended school through eighth grade, but was self-taught beyond that point to become a well-educated man. He arrived in Los Angeles at age 18, and his first job was delivering laundry with a horse and buggy to downtown hotels and boarding houses.

With savings from his job and acquired financial assistance, Weingart purchased not only the laundry, but also many of the hotels to which he once delivered laundry.

The life of Ben Weingart epitomizes the entrepreneurial spirit that characterized much of the early growth of the American free enterprise system. He was highly intelligent, motivated man of innovative ideas, exceptional foresight and an unusual ability to develop his ideas and plans into reality. His friends and business associates remember him for his delightful sense of humor, his loyalty, integrity and shrewd business judgment.

Weingart Foundation is a living memorial to Ben Weingart's ability and desire to return the fruits of his success to build better lives for those in the communities where he made his fortune.

In 2000, the Weingart Foundation Board of Directors commissioned the writing of a book documenting the life of Ben Weingart and the creation of the Weingart Foundation. This book was completed and published in 2002.

Foundation Overview

Founded in 1951 by **Ben and Stella Weingart**, the Weingart Foundation is a private, nonprofit grantmaking foundation that provides grants and other support designed to improve the capacity and effectiveness of nonprofit organizations delivering quality services in the areas of health, human services, and education for people and communities who face the most obstacles to opportunity.

For 65 years, the Weingart Foundation has served the underserved. The Foundation believes in inclusion and opportunity for all Southern Californians, and especially for people and communities at greatest disadvantage. Therefore, all of our grantmaking is based on our commitment to advance social and economic equity. For us, equity means expanding opportunity by correcting the imbalances we see across racial, ethnic, and socio-economic lines in our education, health, human service, economic, and criminal justice systems.

We fund nonprofit organizations working to provide greater access, resources, and opportunities in low-income communities, including those whose race, gender, immigration status, disability, age, sexual orientation, or zip code has prevented them from realizing the dignities and liberties all people deserve. Our primary grant program is multi-year Unrestricted Operating Support, which is our principle strategy for building organizational capacity and effectiveness.

The Weingart Foundation supports nonprofit organizations across six Southern California counties including Los Angeles, Orange, Riverside, Santa Barbara, San Bernardino, and Ventura. Over the past forty years, the Foundation has granted more than \$950 million to support a variety of Southern California social services, educational, and community programs. Within the Foundation, we also maintain a Board of Directors and staff that reflect the diversity of Southern California. With assets over \$750 million, the Foundation is proud to serve the needs of Southern California.

The Weingart Foundation

 chronicleofsocialchange.org/funders/the-weingart-foundation

By Elizabeth Green

Name of Foundation: The Weingart Foundation

Location: Los Angeles, CA

Contact Information: info@weingartfnd.org

Phone: (213) 688-7799

Coverage Area: Southern California, specifically Los Angeles, Orange, Riverside, San Bernardino, Santa Barbara and Ventura counties.

Subject Area: Strengthening nonprofit organizations with proven efficacy delivering health, human services and education for communities and people in need; nonprofit advocacy and support of economically disadvantaged or underserved communities.

Special initiatives around child welfare, full cost recovery for nonprofit organizations, immigrant integration, supportive housing, vulnerable and at-risk youth – PropelNext California initiative, nonprofit sustainability initiative. See “Major Program Categories” below for more details.

Assets: \$779,431,371 (2015)

Last Year Total Giving: \$35,474,073 (2015)

In a Nutshell: Ben Weingart might be best known for his work as a leader in creating the City of Lakewood, Southern California’s first planned city, in the 1950s. However, his name continues to be prominent in the region and in the country thanks to the philanthropic endeavors of the Weingart Foundation, founded by the developer and his wife Stella in 1951.

Its mission today is to “build a better Southern California by supporting nonprofit organizations to more effectively serve the underserved,” a statement which guides its grantmaking toward nonprofit organizations serving economically disadvantaged individuals and communities, in the areas of health, human services and education. The effort to effectively serve these populations sees the foundation focused on supporting highly effective nonprofit organizations and their ability to do the work in question.

In 2015, it released a report on its most recent special project, [the Nonprofit Sustainability Initiative](#), a joint venture between the Weingart Foundation, California Community Foundation and the Ralph M. Parsons Foundation.

Because of initiatives like this one, the foundation is at the forefront of a national conversation in philanthropy around [overhead](#) and supporting full costs of nonprofit grantees, transparency, and creating an effective model of learning and assessment for both nonprofits and foundations. Its [learning and assessment framework](#) is a key part of the foundation’s grantmaking process.

To reinforce the foundation’s efforts around transparency, its [website](#) is an important resource, and serves as a hub for all of the organization’s financial materials, learning metrics, and plans for the future.

As far as types of grants the Weingart Foundation offers, it “prioritizes multi-year unrestricted operating support grants as our primary strategy for building capacity and supports full cost funding for program

grants.” It also will award capital grants, small grants, and program-related investments. Although as of this publication, Weingart is not accepting applications for capital grants and small grants.

To leverage dollars for greater impact, Weingart participates in several partnerships including but not limited to the Annenberg Foundation’s Alchemy Program for leaders of nonprofit organizations; California Community Foundation’s Building a Lifetime of Options and Opportunity for Men, for young Black males living in South L.A. who are or have been involved with L.A. County probation; and United Way’s Home for Good to end chronic and veterans’ homelessness.

Major Program Categories:

The Weingart Foundation’s focus is supporting nonprofit organizations with strong leadership in the areas of advocacy, policy and programs for economically disadvantaged and underserved individuals and communities. Within these categories, there is a particular focus on organizations that deliver high-quality health and human services and education.

Click [here](#) to see a full list of grants the Weingart Foundation awarded in 2016, in the areas of human services, health, education, arts education, and public & society benefit.

The foundation also sponsors and participates in partnerships around child welfare, full-cost recovery for nonprofit organizations, immigrant integration, supportive housing, vulnerable and at-risk youth, the PropelNext California initiative, and the nonprofit sustainability initiative. Grant applications for each of these initiatives are by invitation only, with the exception of the nonprofit sustainability initiative.

How to Apply:

The foundation has two different processes, depending on the size of grant in question. If you plan to apply for a “regular grant,” of \$25,000 or more, it is necessary to submit a letter of inquiry through the [website](#) after which you will be contacted about the application process should the foundation be interested in moving forward.

According to the foundation’s website, successful applicants are able to demonstrate a commitment to the following:

- *A clear mission and vision;*
- *A qualified, engaged and supportive board of directors;*
- *Strong leadership and management;*
- *A well trained and supported staff;*
- *Program and services that are responsive to the culture and linguistic needs of its clients/constituents;*
- *A board of directors and staff that reflect the diversity of people and key interests of the communities served by the organization;*
- *A process to solicit and utilize client/constituent feedback;*
- *A strategy to accomplish their mission, operate programs that produce positive outcomes, and learn from results;*
- *The ability to identify and adapt to internal and external changes;*
- *A funding model that can support core programs and services;*
- *An appropriate level of cash reserves to sustain the organization.*

It also offers a “small grant program,” for organizations applying for less than \$25,000. As of [April 2016](#), the foundation’s small grants program is on temporary hold while new small grants guidelines are created for 2017. Updates are expected to be announced in July of 2016.

Click [here](#) for details to help prepare for the application process.

Application for the Erection of Frame Building CLASS "D"

To the Board of Public Works of the City of Los Angeles:

Application is hereby made to the Board of Public Works of the City of Los Angeles, through the office of the Chief Inspector of Buildings, for a building permit in accordance with the description and for the purpose hereinafter set forth. This application is made subject to the following conditions, which are hereby agreed to by the undersigned applicant and which shall be deemed conditions entering into the exercise of the permit:

- First: That the permit does not grant any right or privilege to erect any building or other structure therein described, or any portion thereof, upon any street, alley, or other public place or portion thereof.
- Second: That the permit does not grant any right or privilege to use any building or other structure therein described, or any portion thereof, for any purpose that is, or may hereafter be prohibited by ordinance of the City of Los Angeles.
- Third: That the granting of the permit does not affect or prejudice any claim of title to, or right of possession in, the property described in such permit.

DECLARATIONS AND CERTIFICATIONS
LICENSED CONTRACTORS DECLARATION

16. I hereby affirm that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.
 Date 4-20-83 Lic. Class c-39 Lic. Number 313258 Contractor A-1 Roofing Service

OWNER-BUILDER DECLARATION

17. I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code): Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars (\$500).
 I, as owner of the property, or my employee with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code; The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale, if, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale).
 I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code; The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law).
 I am exempt under Sec. _____ B. & P. C. for this reason.
 Date _____ Owner's Signature _____

WORKERS' COMPENSATION DECLARATION

18. I hereby affirm that I have a certificate of consent to self-insure, or a certificate of Worker's Compensation Insurance, or a certified copy thereof (Sec. 3800, Lab. C.).
 Policy No. Wp-83-75984 Company Fremont Indemnity CO.
 Certified copy is hereby furnished.
 Certified copy is filed with the Los Angeles City Dept. of Bldg. & Safety.
 Date 4-20-83 Applicant A-1 Roofing Service, Inc.
 Applicant's Mailing Address 3455 E. Olympic Blvd, L.A. CA. 90023

CERTIFICATE OF EXEMPTION FROM WORKERS' COMPENSATION INSURANCE

19. I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the Workers' Compensation Laws of California.
 Date _____ Applicant _____
 NOTICE TO APPLICANT: If, after making this Certificate of Exemption, you should become subject to the Workers' Compensation provisions of the Labor Code, you must forthwith comply with such provisions or this permit shall be deemed revoked.

CONSTRUCTION LENDING AGENCY

20. I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ. C.).
 Lender's Name _____ Lender's Address _____

21. I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes.
 I realize that this permit is an application for inspection, that it does not approve or authorize the work specified herein, that it does not authorize or permit any violation or failure to comply with any applicable law, that neither the city of Los Angeles nor any board, department, officer or employee thereof make any warranty or shall be responsible for the performance or results of any work described herein or the condition of the property or soil upon which such work is performed. (See Sec. 91.0202 LAMC)

2. DOUBLE COVER RIDGES WITH MATCHING TRIM SHINGLES.

[B] FOR FLAT AREA AND OPPOSITE SLOPES

1. CHECK AND RESEAL ANY VISIBLE LOOSE FLASHING COMPOUND AT BASE OF VENTS, PIPES AND PROTRUSIONS
2. CAULK ANY VISIBLE BREAKS IN ROOFING BY ANGLES OF PARAPET WALLS

WARRANTY ON SHINGLES 20 YEARS GUARANTEE 5 YEARS ITEM [A] ONLY

Price \$3,300.00 Terms CASH ON COMPLETION

1. You may cancel the agreement or offer referred to above at any time prior to midnight of the third day (excluding Sunday) after the day you signed the agreement or offer. If you cancel and you have already made some payment to the seller, the seller is entitled to retain out of the payment, as a cancellation fee, 5 percent of the cash price of the goods or services but in no event, may the seller retain more than fifteen dollars (\$15).
2. This order shall be binding only upon acceptance thereof by contractor. This contract shall constitute the entire agreement of the parties, and there have been no representations or oral agreements made which are not contained herein. Contractor will make only repairs which are expressly provided for in this contract. Court costs and attorneys fees will be charged in collection matters. .8% per month late charges will be added to delinquent accounts.
3. Guarantees will be provided as agreed upon completion of work. In the event of any defect arising out of the work, owner shall promptly give contractor written notice of the exact nature and extent of such defect and if the same is covered by guarantee, contractor shall remedy same within thirty (30) days after receipt of said written notice. Owner hereby waives any claims against contractor for damages sustained to any part of the interior of the above described premises or the contents thereof resulting from leaks of any kind or nature, arising either, before, during or after work has been performed. Owner acknowledges that contractor does not guarantee nor is there any warranty nor liability on the part of contractor, respecting leakage from vents, air conditioning, skylights, TV antennas, defective walls, defective gutters and/or clogged drains. All and all guarantees and warranties made by contractor in connection with this agreement are on a service basis from the date of completion and shall be in favor only of the property owner hereinabove named and shall not be in favor for the benefit of any other persons.
4. If not done by the owner, or others, we shall raise, move, or lift objects on the roof, but we assume no responsibility for the operation of or damage to conduits, signs, skylights, air conditioners or other objects on the roof, where it becomes necessary to raise, move, or lift said objects in order to properly apply the roof.
5. We shall use reasonable care, but are not responsible for TV antennas, guy wires, lead in wires, or adjustment of sets as these parts are subject to deterioration due to exposure to elements. Contractor cannot assume responsibility for any nails protruding through thin plywood sheathing as all roofs which are fully guaranteed must be securely nailed.
6. NOTICE—UNDER THE MECHANICS LIEN LAW (CALIFORNIA CODE OF CIVIL PROCEDURE, SECTION 1181 ET SEQ.), A CONTRACTOR MUST GIVE TO THE OWNER A COPY OF A "NOTICE TO OWNER." YOUR SIGNATURE IS AN ACKNOWLEDGMENT THAT YOU HAVE RECEIVED A COPY. CONTRACTORS ARE REQUIRED BY LAW TO BE LICENSED AND REGULATED BY THE CONTRACTORS STATE LICENSE BOARD. ANY QUESTIONS CONCERNING A CONTRACTOR MAY BE REFERRED TO THE REGISTRAR OF THE BOARD, WHOSE ADDRESS IS: CONTRACTORS STATE LICENSE BOARD, 1020 "N" STREET, SACRAMENTO, CALIFORNIA 95814. THE ABOVE CONTRACT HAS BEEN READ AND IS UNDERSTOOD BY OWNER, AND RECEIPT OF A COPY THEREOF BY SAID OWNER AT THE TIME OF EXECUTION, IS HEREBY ACKNOWLEDGED.

1 LICENSED CONTRACTOR AND WORKERS' COMPENSATION DECLARATION

GENERAL CONTRACTOR

I hereby affirm, under penalty of perjury, that I am the general contractor named on the reverse side of this permit and I am licensed under the provisions of Chapter 9, commencing with Section 7009, of Division 3 of the Business and Professions Code, and my license is in full force and effect. I am responsible for the following permits:

- Building Electrical Plumbing HVAC

I hereby affirm, under penalty of perjury, one of the following declarations:

I have and will maintain a certificate of consent to self-insure for workers' compensation, as provided for by Sec. 3700 of the Labor Code, for the performance of the work for which this permit is issued.

I have and will maintain workers' compensation insurance, as required by Sec. 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: State Fund Policy No. 1296563-94

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the provisions of Sec. 3700 of the Labor Code, I shall forthwith comply with those provisions.

Sign: [Signature] Date: 6-20-95

ELECTRICAL CONTRACTOR

I hereby affirm, under penalty of perjury, that I am the electrical contractor named on the reverse side of this permit and I am licensed under the provisions of Chapter 9, commencing with Section 7000, of Division 3 of the Business and Professions Code, and my license is in full force and effect. I am responsible only for the electrical permit.

I hereby affirm, under penalty of perjury, one of the following declarations:

I have and will maintain a certificate of consent to self-insure for workers' compensation, as provided for by Sec. 3700 of the Labor Code, for the performance of the work for which this permit is issued.

I have and will maintain workers' compensation insurance, as required by Sec. 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: _____ Policy No. _____

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the provisions of Sec. 3700 of the Labor Code, I shall forthwith comply with those provisions.

Sign: _____ Date: _____

PLUMBING CONTRACTOR

I hereby affirm, under penalty of perjury, that I am the plumbing contractor named on the reverse side of this permit and I am licensed under the provisions of Chapter 9, commencing with Section 7000, of Division 3 of the Business and Professions Code, and my license is in full force and effect. I am responsible only for the plumbing permit.

I hereby affirm, under penalty of perjury, one of the following declarations:

I have and will maintain a certificate of consent to self-insure for workers' compensation, as provided for by Sec. 3700 of the Labor Code, for the performance of the work for which this permit is issued.

I have and will maintain workers' compensation insurance, as required by Sec. 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: _____ Policy No. _____

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the provisions of Sec. 3700 of the Labor Code, I shall forthwith comply with those provisions.

Sign: _____ Date: _____

HVAC CONTRACTOR

I hereby affirm, under penalty of perjury, that I am the HVAC contractor named on the reverse side of this permit and I am licensed under the provisions of Chapter 9, commencing with Section 7000, of Division 3 of the Business and Professions Code, and my license is in full force and effect. I am responsible only for the HVAC permit.

I hereby affirm, under penalty of perjury, one of the following declarations:

I have and will maintain a certificate of consent to self-insure for workers' compensation, as provided for by Sec. 3700 of the Labor Code, for the performance of the work for which this permit is issued.

ASBESTOS REMOVAL

I declare that relocation of Asbestos Removal is not applicable

I declare that a notification letter has been sent to the AQMD or EPA. Sign: [Signature] Date: 6-20-95

3 OWNER-BUILDER DECLARATION

I hereby affirm, under penalty of perjury, that I am exempt from the Contractors License Law for the following reason (Sec. 7031.5, Business & Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chap. 9 commencing with Sec. 7000 of Div. 3 of the Business & Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Sec. 7031.5 by any applicant for a permit, subjects the applicant to a civil penalty of not more than five hundred dollars (\$500).

I, as the owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business & Professions Code: The Contractors License Law does not apply to the owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractors License Law).

I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business & Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractors License Law).

I am exempt under Sec. _____ Bus. & Prof. Code for the following reason: _____

Print: _____ Sign: _____ Date: _____ OWNER AUTHORIZED AGENT

5 FINAL DECLARATION

I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes. I realize that this permit is an application for inspection and that it does not approve or authorize the work specified herein. Also, that it does not authorize or permit any violation or failure to comply with any applicable law. Furthermore, that neither the City of Los Angeles nor any board, department officer, or employee thereof, make any warranty, nor shall be responsible for the performance or results of any work described herein, nor the condition of the property nor the soil upon which such work is performed.

LICENSED CONTRACTOR AND WORKERS' COMPENSATION DECLARATION

GENERAL CONTRACTOR

I hereby affirm, under penalty of perjury, that I am the general contractor named on the reverse side of this permit and I am licensed under the provisions of Chapter 9, commencing with Section 7000, of Division 3 of the Business and Professions Code, and my license is in full force and effect. I am responsible for the following permits:

Building Electrical Plumbing HVAC

I hereby affirm, under penalty of perjury, one of the following declarations:

I have and will maintain a certificate of consent to self-insure for workers' compensation, as provided for by Sec. 3700 of the Labor Code, for the performance of the work for which this permit is issued.
 I have and will maintain workers' compensation insurance, as required by Sec. 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: STATE FUND Policy No. 1294563-94

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the provisions of Sec. 3700 of the Labor Code, I shall forthwith comply with those provisions.

Sign: [Signature] Date: 6-20-95

ELECTRICAL CONTRACTOR

I hereby affirm, under penalty of perjury, that I am the electrical contractor named on the reverse side of this permit and I am licensed under the provisions of Chapter 9, commencing with Section 7000, of Division 3 of the Business and Professions Code, and my license is in full force and effect. I am responsible only for the electrical permit.

I hereby affirm, under penalty of perjury, one of the following declarations:

I have and will maintain a certificate of consent to self-insure for workers' compensation, as provided for by Sec. 3700 of the Labor Code, for the performance of the work for which this permit is issued.
 I have and will maintain workers' compensation insurance, as required by Sec. 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: _____ Policy No. _____

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the provisions of Sec. 3700 of the Labor Code, I shall forthwith comply with those provisions.

Sign: _____ Date: _____

PLUMBING CONTRACTOR

I hereby affirm, under penalty of perjury, that I am the plumbing contractor named on the reverse side of this permit and I am licensed under the provisions of Chapter 9, commencing with Section 7000, of Division 3 of the Business and Professions Code, and my license is in full force and effect. I am responsible only for the plumbing permit.

I hereby affirm, under penalty of perjury, one of the following declarations:

I have and will maintain a certificate of consent to self-insure for workers' compensation, as provided for by Sec. 3700 of the Labor Code, for the performance of the work for which this permit is issued.
 I have and will maintain workers' compensation insurance, as required by Sec. 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: _____ Policy No. _____

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the provisions of Sec. 3700 of the Labor Code, I shall forthwith comply with those provisions.

Sign: _____ Date: _____

HVAC CONTRACTOR

I hereby affirm, under penalty of perjury, that I am the HVAC contractor named on the reverse side of this permit and I am licensed under the provisions of Chapter 9, commencing with Section 7000, of Division 3 of the Business and Professions Code, and my license is in full force and effect. I am responsible only for the HVAC permit.

I hereby affirm, under penalty of perjury, one of the following declarations:

I have and will maintain a certificate of consent to self-insure for workers' compensation, as provided for by Sec. 3700 of the Labor Code, for the performance of the work for which this permit is issued.
 I have and will maintain workers' compensation insurance, as required by Sec. 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: _____ Policy No. _____

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the provisions of Sec. 3700 of the Labor Code, I shall forthwith comply with those provisions.

Sign: _____ Date: _____

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL AND SHALL BE SUBJECT TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS (\$100,000), IN ADDITION TO THE COST OF THE COMPENSATION DAMAGES AS PROVIDED FOR IN SEC. 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

CONSTRUCTION LENDING AGENCY

I hereby affirm, under penalty of perjury, that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3087, Civil Code).

Lender's name: _____ Lender's Address: _____

ASBESTOS REMOVAL

I declare that notification of Asbestos Removal is not applicable. I declare that a notification letter has been sent to the AQMD or EPA. Sign: [Signature] Date: 6-20-95

OWNER-BUILDER DECLARATION

I hereby affirm, under penalty of perjury, that I am exempt from the Contractors License Law for the following reason (Sec. 7044, Business & Professions Code): Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chap. 9, commencing with Sec. 7000 of Div. 3 of the Business & Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Sec. 7031.5 by any applicant for a permit, subjects the applicant to a civil penalty of not more than five hundred dollars (\$500).

I, as the owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business & Professions Code). The Contractors License Law does not apply to the owner of property who builds or improves thereon; and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he or she did not intend to improve for the purpose of sale.

I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business & Professions Code). The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractors License Law.

I am exempt under Sec. _____ Bus. & Prof. Code for the following reason: _____

Print: _____ Sign: _____ Date: _____ OWNER AUTHORIZED AGENT

FINAL DECLARATION

I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinance and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes. I realize that this permit is an application for inspection and that it does not approve or authorize the work specified herein. Also, that it does not authorize or permit any violation or failure to comply with any applicable law. Furthermore, that neither the City of Los Angeles nor any board, department officer, or employee thereof, make any warranty, nor shall be responsible for the performance or results of any work described herein, nor the condition of the property nor the soil upon which such work is performed.
