Please Ban Fur Sales

1 message

From: Maria Rojas <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 4:35 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,

Maria Rojas

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

T Perez

Fur is Cruel and Unnecessary

1 message

From: Jennifer Worrel <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 4:28 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

I have been in the fashion industry for almost 20 years and know that there have been significant advancements in "faux fur" textiles that make the torture of innocent animals for there skin completely unnecessary and simply cruel. Fur will eventually be obsolete given the advancements in technology and society; Los Angeles can be among the leaders such as Calvin klein, Versace, and Armani who have pledged against this barbaric practice.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. Michael Espinosa,

LA City Council Members:

I am writing on behalf of all of the innocent, sentient beings that are being tortured, skinned alive, and murdered for a piece of clothing, a bag, or a silly keychain. Humanity revolves around compassion to all living beings.
There is so much hate around the globe, so much hate and craziness, in our beautiful country. Therefore Los Angeles should pioneer the road to compassion, which will ultimately lead to a better future, a kinder future. Our children will learn that compassion is the key to ultimate lead a life of love, and respect to one another and all innocent beings.
Please support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was so proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel, deadly, inhumane industry.
As you may already know, there is much evidence obtained by animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,
Martha Correa

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

Maricel Peralta

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,

Be Tarino

LA FUR BAN: VOTE YES

1 message

From: Jemma Meecham <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 3:19 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

I sincerely urge the city council to PLEASE BAN the manufacture and sale of fur in the City of Los Angeles.
I am devastated about the shocking treatment of animals on fur farms.
All fur comes from from sentient beings who suffer and experience pain. Fur is a product of extreme suffering and we cannot continue to tolerate an industry that profits from this cruelty for such trivial ends. By allowing fur to be sold in our city we are participating in sickening abuse of animals.

In an age where science is showing us that animals have complex emotional lives, we cannot allow them to be tortured and killed solely to become a fashion item. Especially when we have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city.
I urge you to please vote yes for a Fur Free LA.
Thank you.

Sincerely,

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,

Regarding fur ban

1 message

From: Angelia Chun <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 8:11 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink. Fur is only a narcissistic expression of one's wealth. We are more evolved than years ago and there is no excuse for people to be involved in this industry. It's time people who are in this industry to move one. It's slowly dying and cities and governments should not try to prop it up.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

LA fur manufacture and sale ban

1 message

From: Saniye Bavbekova <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 8:03 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,

Adriana Patron

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

Alexander DeSantiago

This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

Billie Pellegrini

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,

LA FUR BAN

100 messages

From: Heather Hernandez <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 4:49 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,
Mrs.Heather Hernandez Aleman

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,

Angie Delgado

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Sincerely,

Jennifer Taylor

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Sincerely,

Suzanna Rubio

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Sincerely,

Theresa Vitorelo

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,

We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Sincerely,
Andrea Osorio

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

At: Wed, Aug 29, 2018 at 6:48 PM

Michael Espinosa,

Dear Los Angeles City Council Members (especially Ryu, my councilman):

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. Los Angeles must take the lead and show there is no support in today's world for such barbaric practices. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry. Let be an example for the world!

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,
Leslie Sloan

MAKE LA FUR FREE

1 message

From: Alexis Bandhy <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 6:48 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,
A concerned individual

Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

Jane Mumford

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

Sandy Loney

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,

Vincent Sena

To: Michael Espinosa <michael.espinosa@lacity.org>
At: Wed, Aug 29, 2018 at 12:50 PM

##- Please type your reply above this line -##

Thanks for reaching out to Action Network support! Please read this email carefully to get your question answered.

DO YOU NEED TECH SUPPORT FROM ACTION NETWORK?

If you're emailing with questions about using Action Network's toolset, bugs, problems, or other similar things, we've put answers to some commonly asked questions at the bottom of this email. Please read those now to see if they answer your question.

If those don't answer your question, please check out our help documents: https://help.actionnetwork.org/hc/en-us/categories/200280489-Action-Network-Help

In the help section we have tutorial videos about each section of the site, and a search bar in the lower right.

If you've read the help documents and haven't gotten an answer to your question, reply to this email and we'll reply back to you as soon as we can. (We generally work normal business hours, but we try to reply as quickly as possible.)

You must reply to this email to have your questions answered. If you do not, your question will not be answered.

Please make sure to email us links to the things you have questions about so we can answer your question more quickly. For example, if you're having trouble with a group, send us the link to the group. If you're having trouble with an action, send us the link to the action. You can reply to this email with those links so we have them.

ARE YOU INTERESTED IN BECOMING AN ACTION NETWORK PARTNER?

If you're emailing about partnerships, please send your request to partnerships@actionnetwork.org and be sure to include:

* Your name
* Your organization
* Your title
* Your average monthly email volume (total number of email sends per month)

And any other important details, like why you're interested in Action Network, what tools you currently use, and the structure of your organization

You can also check out https://actionnetwork.org/partnerships for more info about pricing and features.

FREQUENTLY ASKED QUESTIONS

I want to unsubscribe

If you're trying to unsubscribe, the best and only way to do so is to click the unsubscribe link in the footer of the email you've received and then confirm your unsubscription on that page.

I am trying to contact an event host or post on the discussion board

If you've RSVPed for an event and have questions for your host or if you're responding to a discussion board post, a link to the event details and discussion board for your event was included in the email you received. Click that event details or discussion board link to post on the discussion board and your host and others who've RSVPed will receive an email with your comment or question so they can reply.

I need to update my name or mailing address

You can update your name or address by clicking the unsubscribe link at the bottom of emails you receive and filling out the update form.

I need to reset my password

If you forgot your password, you can recover it and regain access to your account easily. Click the "Forgot your password?" link on the login page and enter the email address you used to sign up for your account. We'll send an email to that email address with a link to reset your password. Click that link and enter a new password to regain access to your account.

I want to cancel my recurring donation

You should be receiving an email regarding your contribution. There's a manage subscription button there where you can cancel your donation. If you can't find those emails, you'll need to reach out to the organization that you're giving to directly to cancel your donation.

I want to contact an organization using Action Network (about a refund, about their work, or really about anything)

Unfortunately, per our privacy policy, we cannot provide you contact information for them, nor can we forward your emails along.

Again, if you still have a question, you must reply to this email to get your question answered.

Thanks!

-- the Action Network team

LA FUR BAN

15 messages

From: Nancy Gregory <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 12:03 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

Please know that I am 100% in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. As a progressive city of animal lovers, we cannot support an industry that exploits animals and causes unnecessary suffering simply for the sake of fur.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is footage of these animals being skinned alive and remaining conscious for minutes after they are skinned, breathing and still able to blink their eyes.

There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty. By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices. This legislation is line with my values and this city's values. I urge you to vote yes on this ordinance.

Sincerely,

In an age where science is showing us that animals have complex emotional lives, we cannot allow them to be tortured and killed solely to become a fashion item. Especially when we have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles. I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from from sentient beings that suffer and experience pain. It is a product of suffering and we cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends. By allowing fur to be sold in our city we are a party to the cruelty.

Michael Espinosa,

Dear Los Angeles City Council Members:
The time for using the fur of live animals should be gone now forever but it's not.
It makes me physically ill to think these poor animals are made to love in tiny cages until the day someone strips the fur from their bodies. We don't need fur from animals any longer. Manufacturers can now create life like fur now.
This is why I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles. I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from from sentient beings that suffer and experience pain. New LA movement

1 message

From: Nika de los Santos <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 12:48 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,

Nika

People don't need fur to live...animals do

1 message

From: Marni Montanez <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 12:33 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

The truth is that human beings don't need fur to live, but animals do.

The fur industry is going to paint a picture of kindness and great care for these animals that it sounds like the animals are glad to die and offer their skin for this industry.
But Imagine being put in cages that are sometimes rusty and sometimes cut your feet, but there is no relief; there is no medical help and you sit in the corner of your cage waiting and terrorized. You are so hungry and so thirsty but again no relief. You hear all around you daily, the sounds of other animals who are being tortured. their skin pulled off their bodies that sometimes remain alive for 10 more minutes. Someone grabs you and sticks something in your rear end. You scream out but they don't stop. Or imagine some person uses some kind of object and hits you over and over until you die.
Where did we get the right to do this to another living being. People talk about harmony and love, but this fur industry is brutal, sadistic and inhumane.

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

LA Fur ban !

1 message

From: Brittany Lilos <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 12:32 PM

Michael Espinosa,

Dear LA Counsel members:

I am unsure why I am writing this letter...or rather, why I have to. It amazes me that we still live in a world where some forms of cruelty are legal.

On all levels, this is wrong and you know it. If someone decided they wanted to wear your skin would you be okay with that? Not just that, but keep you in a tiny cage your whole life specifically for that purpose? My guess would be no. I lived in South Korea for 2 years where I would hear dogs crying out in pain every morning outside my window somewhere for either their meat or skin. Dispicable.

PLEASE consider banning fur items in LA!

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 12:16 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

Los Angeles has always been a leader when it comes to human rights -- I have never been more proud to be a member of this city than over the last two years. Let's do the right thing and STOP the suffering of those who don't have a voice!

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,
Kari Stringham

Fur needs no explanation

1 message

From: Angela Amirkhanian <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 12:14 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

Fur needs no explanation. Voiceless animals are inhumanely killed and skinned for humans to wear and feel some sort of prestige. Fur is cruel, unfair, inhumane and honestly ugly.

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. We as Angelenos should not allow cruelty and death to walk to be sold on our streets. We are better, kinder and more compassionate than that.

I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Please ban fur in Los Angeles!

1 message

From: Aylam Orian <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 12:05 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was very excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry, and I urge you to see it through until it becomes law!

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." In fact, there is nothing "humane" in this industry! Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. The, they are electrocuted or many times SKINNED ALIVE, to produce their fur. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death. There is no excuse for this, not for the sake of fashion, or any other reason!

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

Aylam Orian

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,

Binh Nguyen

- **Upcoming Events**

Blumenfield Pushes to Cut Back on Wasteful Plastic with 'Utensil-On-Request' Ordinance

Councilmember Bob Blumenfield introduced legislation that would pave the way for a new 'Plastic Utensils-On-Request' ordinance in the City of Los Angeles. In conjunction with the pending 'Straws-On-Request' ordinance, Blumenfield is seeking to curtail the impact that plastic utensils are having on the environment and reduce trash in local communities.

"Now more than ever, Los Angeles needs to lead strong environmental efforts and I believe that as the second largest City in the nation, we can make a big ecological difference by thinking twice about how much we need wasteful plastics, such as utensils," said Blumenfield. "Many people have that one drawer in the kitchen packed to the brim with extra forks and knives from takeout or delivery and I believe it makes sense to ask consumers if they really need more."

With over 8.8 billion metric tons of plastic in the ocean and over 90% of plastic not being recycled, Blumenfield believes that Los Angeles must continue to curb the use of plastics and incentivize responsible disposal. Cities such as Seattle and San Francisco have passed full plastic straw bans and many other municipalities are adopting new environmental standards to combat similar waste. Companies like Starbucks, American Airlines, Hyatt and the Walt Disney Company have all announced efforts to stop offering plastic straws as well.

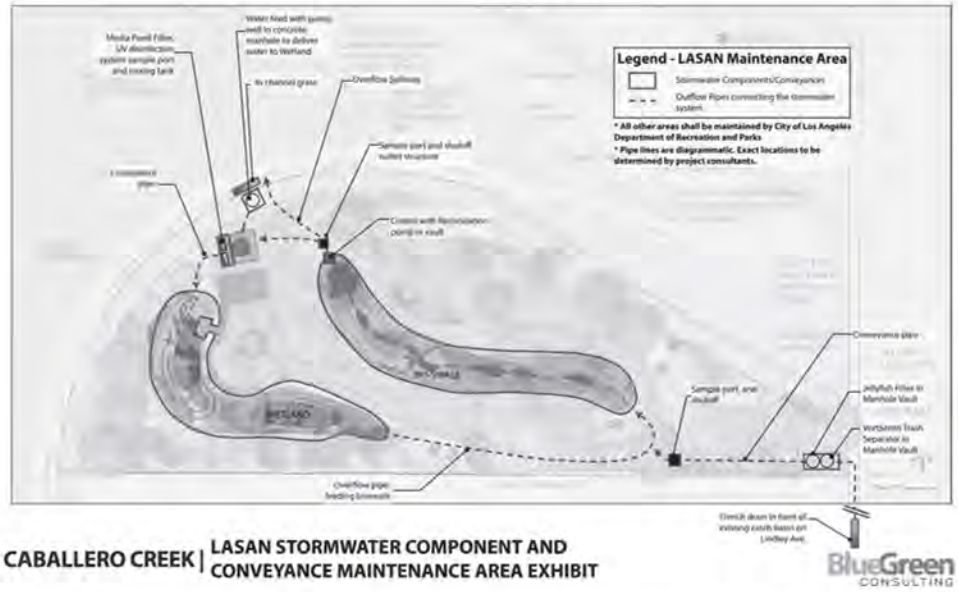
LAPD Topanga Division and Blumenfield Launch New Volunteer Patrol Program

In August, Councilmember Blumenfield joined the new LAPD Deputy Chief for the Valley Kris Pitcher, and Captains Maureen Ryan and Paul Vernon to launch the LAPD Topanga Division Volunteer Program. This program, which has already begun at the West Valley and Devonshire stations, will educate, train and offer resources to community members to patrol their neighborhoods and communicate with LAPD about potential criminal activity.

"I am proud to help launch and financially support the Volunteer Patrol Program at the LAPD Topanga Station," said Councilmember Blumenfield. "Now all three divisions in my district have more eyes and ears in the community, folks who are empowered and trained to help our law enforcement and report crime on our streets."

If you are interested in joining this new volunteer program, please contact Blumenfield's office at (818) 774-4330 or the Topanga Division directly at (818) 756-3180.

New Park Coming to the West Valley



CABALLERO CREEK | LASAN STORMWATER COMPONENT AND CONVEYANCE MAINTENANCE AREA EXHIBIT

BlueGreen CONSULTING

In June, Councilmember Bob Blumenfield announced a huge step forward in creating the Caballero Creek Park, converting a 1.6-acre underutilized site into a multiple-benefit park, located at the convergence of the Los Angeles River and Caballero Creek near Victory Blvd. and Lindley Ave. in Tarzana.

"I am proud that we are on the verge of creating a brand new park that the West Valley can be proud of," said Blumenfield. "This park is not only an investment in our community and watershed, but also in the health, wellbeing and future of the LA River."

The Mountains Recreation and Conservation Authority (MRCA), Department of Recreation and Parks, Bureau of Sanitation, and General Services, and the County have joined forces to design and complete the Caballero Creek Park. Blumenfield has also partnered with Reseda High School to utilize the new space as an outdoor classroom. The design includes s innovative methods for watershed protection, including a bioswale and a wetland component for storm water treatment. In 2016-17, Blumenfield secured $750,000 in City funding for the Caballero Creek Park Project. After months of collaboration between Blumenfield, his staff and the City and County family, the project is ready to move forward.

This park will mark the third new City park that Blumenfield has helped create following the Costanso Fire Station Park in Woodland Hills and the LA River and Aliso Creek Confluence Park in Reseda. He also worked closely on the new and improved Woodland Hills Rec Center that reopened in August 2017 as well as many renovations at various parks throughout his community. He strongly believes that public parks and open space are critical for good quality of life for residents.

Blumenfield Leads Celebration of New Engine Company at Reseda's Fire Station 73

Councilmember Bob Blumenfield, Los Angeles Fire Department Assistant Bureau Commander John Drake, local youth, community members, and the entire team at Reseda's Fire Station 73 welcomed and celebrated the new full engine company in the West Valley. During the Great Recession there were deep cuts to many local services. Once Blumenfield was elected to the City Council, he promised to restore a full engine company to FS 73. He is thrilled that, after years of hard work, budget debates and pursuing funding opportunities, the station is back at full capacity.

The City received $15.5 million from the Federal Emergency Management Agency's (FEMA) Staffing for Adequate Fire and Emergency Response (SAFER) grant and the City Council has committed another $10 million over the next three years. This has allowed the LAFD to hire an additional 48 firefighters enabling the Department to staff new fire engines at stations in Reseda, Lincoln Heights, Echo Park, and Mission Hills.

Try the New County Homeless Reporting System 'LA-Hop'

Recently Los Angeles County and LAHSA launched an innovative new online homeless outreach portal called LA-Hop. Here Angelenos can help direct intervention workers to locations where we see homeless people in need all around LA County. Via a simple online form, that request will go in the queue and county staff will go out as soon as they can. Please go to LA-Hop.org to learn more and help get service workers to those in need.

Metro and Blumenfield Kick Off New Warner Center Shuttle

In June, Councilmember Blumenfield helped launch the new Metro Warner Center Shuttle and joined in its inaugural ride. Replacing the single Orange Line Stop at Warner Center Station, this new line connects riders to 10 new stops including Westfield Topanga & the Village, Warner Center Corporate Park, Kaiser Permanente and others. It will serve as a local circulator to make it easier for local residents and workers to get around without using their cars.

"Also, now Orange Line riders and locals can link up and have easy access to major amenities of Warner Center," said Blumenfield. "My staff and I vetted many options on how to best add more mobility and mass transit through our downtown area and this new line is easy and efficient and doesn't add cost to an Orange Line rider." It will run continuously and wait times are less than 10 minutes.

To learn more about the new Warner Center Metro Line, please click here.

Blumenfield Opens New Improvements at Warner Ranch Park

In June, Councilmember Blumenfield was joined by Parks Commissioner Sylvia Patsaouras, Rec and Park staff, Diana Williams and Paul Lawler from the West Valley Warner Center Chamber of Commerce, and community members to open new amenities and major improvements at the Warner Ranch Park. This included brand new exercise equipment, a dozen permanent picnic tables, and a mile-long walking path.

"This is an enormously positive improvement in one of our most utilized community parks," said Blumenfield. "I am proud to fund the addition of all this equipment and invest in the future and health of our parks and community."

Note From Councilmember Blumenfield- Neighborhood Watches Help Prevent Crime and Bring Communities Closer, But Please Be Careful With Posting Signs Around the Community

I proudly support our many neighborhood watch groups in the West Valley and meet with them regularly. They serve an invaluable role on our streets helping prevent crime, adding visibility for law enforcement, and serving as the eyes and ears in our community. Recently I have heard from some constituents that after they posted signs in their community promoting their watch group, Los Angeles Department of Transportation (LADOT) had taken them down because they were put up 'illegally' in the public right-of-way. I understand the irony of a sign meant to be a deterrent for crime being called 'illegal' but like any sign posted in public, there are rules that must be followed in accordance with our local and State laws. The State sets much of the rules around signs in the public right-of-way.

If your watch group had posted signs removed or you are interested in putting up neighborhood watch signs, please call my office at 818.774.4330 or email me at councilmember.blumenfield@lacity.org because I am here to help. You can also learn more about this issue by reading a recent editorial I wrote at http://blumenfield.lacity.org/neighborhood_watches_help_prevent_crime_and_bring_communities_closer. I encourage all of our neighborhood watch groups

to have a visible presence in our community and I want to help them follow the City and state code so their signs can be a permanent fixture in our neighborhoods.

West Valley Animal Shelter Pets of the Month

Amber "A1786450"- Amber is calm, easy-going and undemanding -- excellent for a quiet household. She gets along very nicely with other cats so whether she is sharing your lap and love with a cat-buddy, or as your only cat, she will do great. Amber is 6, already spayed, and ready to bring her gentle, peaceful and so-soothing sweetness to you! Please, Amber needs to remain an indoor-only cat, to stay safe

Dylan "A1792644"-Dylan is a darling Lhasa Apso who beams the happiest smile when he sees you, and when you give him pets and love! Little Dylan has a warm, welcoming and delightfully friendly temperament and moderate energy level -- he is perfect for any dog-loving home. He is a sweet and well-behaved little boy, 9 years, weighing a lap-size 18 pounds. He behaves well and walks very nicely on his leash. Dylan gets along great with his little dog kennel-mates too, so he will be a fantastic family member if you already have a dog needing a little buddy, or to be the only dog snuggling on your lap and sharing your life with you

Bring home forever love, smiles, purrs and wags -- come adopt a shelter pet today! Dogs, cats, puppies, kittens, bunnies, all sizes, types and fur lengths, from playful youngsters to gentle, loving seniors -- they are waiting for you at your local CD 3 Animal Shelter! Come fall in love at the West Valley (L.A. city) Animal Shelter at 20655 Plummer St., Chatsworth, (818) 756-9325. See all the L.A. City Shelter animals at http://www.laanimalservices.com/.

Around Town

On August 14th, Councilmember Blumenfield co-hosted the first community open house with local residents about the proposed 'Bridge Housing' site in Canoga Park. In addition to Blumenfield, the event was led by the Office of Supervisor Sheila Kuehl, the United Way of Greater Los Angeles, LAHSA, and LA Family Housing.

This open house was an important first step for this proposal and there will be plenty more opportunities for community members to join the conservation and be a part of the process. In June, the County approved a motion to negotiate the purchase of the old mental health building in Canoga Park. If this proposal moves forward, Blumenfield would prioritize Bridge Housing funds to assist with the build-out to get the site retrofitted for temporary housing.

"Thanks Supervisor Sheila Kuehl for your leadership and partnership on this important supportive housing proposal in the West Valley. This proposal would prioritize people who are homeless in proximity to the property, thereby helping residents and local businesses by having cleaner streets," said Blumenfield. "It was heartening to meet and speak with so many Canoga Park folks who have a wide range of views and opinions on the proposal but, at the end of the day, care so much about our community and everyone in it."

Blumenfield met up with Greg Spotts from the Bureau of Street Services, Tim Tyson from Urban Forestry Division and City crews as they were trimming trees in the West Valley.

During the recent Recession, UFD's budget was cut by 80% and it hadn't been substantially increased until this year when Blumenfield fought and restored much of their slashed budget. He is proud to say the third Council District has already seen fantastic results with over 1,220 trees trimmed since July 1st.

Blumenfield was joined by dozens of volunteers at a recent tree planting in Winnetka. Other sponsors included, City Plants LA, LA Conservation Corps, Johnny Pacific's restaurant, Christ Community Church and DC Collective.

Blumenfield visited the Woodland Hills Library to join almost 30,000 Angelenos in signing up for the Summer Reading Challenge. Learn more about this program and other great resources offered by our local libraries here: https://www.lapl.org/summer.

Blumenfield celebrated the 10th year of Summer Night Lights at Lanark Park, providing local youth with great resources & bringing the community together.

Blumenfield celebrated National Night Out with Captain Maureen Ryan, the LAPD Topanga Police and constituents at the Guadalupe Center in Canoga Park. For 35 years this event has brought residents and law enforcement together through festivals and local activities, continuing to grow a positive bond in our communities.

Upcoming Event

- **September 1- Jump Starting Reseda**
- **September 29- The Reseda ArtWalk and Night Market**

Fur

1 message

From: Kirsten Lancashire <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Fri, Aug 31, 2018 at 11:38 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

Kirsten Lancashire

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,
Shellie Jones

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,

Michael DiDiego

How Pesticide Misuse Is Killing Africa's Wildlife

It's almost impossible to list all of the affected animals that the misuse of pesticides kills in Africa every day. Farmers and herders use this poison, made of carbofuran or carbosulfan, as a weapon in order to protect their crops and as retaliation against predators. In this animated video, we explain the reasons behind this practice and how big the collateral damage is.

Experience Medieval Art and Architecture in Picturesque Brugge

A few years ago, when a friend suggested that on our vacation to northern France, we should fly into Belgium and visit Brugge, my first reaction was, "What's that?" I had never heard of this city. But it turned into one of our most memorable visits in Europe. Its medieval architecture survived war and economic downturns, and is very well-preserved. And its canals rival Amsterdam and Venice for a pleasurable boat ride to appreciate the scenery.

Fur Ban for Los Angeles

1 message

From: Randall Mello <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Fri, Aug 31, 2018 at 5:27 PM

Michael Espinosa,

Dear Los Angeles City Councilmembers,

As a proud resident of Los Angeles county, I want to thank you all for allowing myself to write to you to urge a yes vote to ban fur in Los Angeles. I wanted to take the time to discuss the ethical dilemmas regarding the dog and cat fur trade and its dealings in the horrific fur industry.
China is one of the largest exporters of fur to Los Angeles. According to the documentary "Cry of the Innocent" over 2 million domestic dogs and cats are killed in China every year for their fur. Majority are stolen pets with collars still attached and homeless strays.
It is common practice to mislabel fur and hide that they came from companion animals. Experts from museums and top universities agree that once fur is mislabeled, it is impossible to determine the species.
A fur trader in China also stated "if dog and cat garments don't sell within a few months, I change the label to say mink."
Even though fur labels in Los Angeles may say they are not from domestic dogs and cats, it is impossible to know for sure. This includes faux fur. Do you really want to be wearing someone's best friend who was stolen from their family, tortured and skinned alive for their fur?
I have always been proud of Los Angeles for being a progressive city. Now is the perfect time to ban fur within the city and set an example that is guaranteed to make a difference around the world. When there is no demand for fur, the killing will stop. Tradition is no excuse for animal abuse.

Thank you,
Randall Mello

Hear their cries

1 message

From: Cait Larratt-Smith <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Fri, Aug 31, 2018 at 2:02 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

Animals have a universal language. If we would only listen, we would hear their voice. We would hear their cries, their pain, terror, anguish, broken hearts, and shocked souls. All their excruciating unendurable suffering.

Sadly, for so many years, so many generations, and so many millions of tortured animals, most of us did not know the truth. That the animals suffer. That they endure extreme torture for humans to wear their fur as fashionable symbols of prestige and wealth. Most of us did not see the garbage fed to them. The filthy cages they spend their unnaturally confined, cut-short lives in from birth. The callous and calculated exposure to extreme temperatures for a thicker fur coat. Their ultimate end in a gas chamber where they die from carbon dioxide burning their eyes, tongues, mouths, throats and lungs. Or how their heads are bludgeoned with a hammer, or their necks broken, or crushed by a boot to suffocate them to death. And most of us never saw how so many pay the ultimate price, being skinned alive, sentient, fully conscious, and left to die in a bloody pile gasping for their last breath.

The past three years has seen a growth trend in fur usage by haute couture brands, as well as street fashion houses, making fur affordable for all. So many people are willing to look away, and not think, or even give a damn about the origin of a fur trinket, fur trim, a fur jacket, a fur hat, or fur boots; to consider the suffering of a helpless, betrayed soul, for stubborn greed and human vanity.

But today, through social media many of us now see the horrific truth about the fur trade exposed. We now know, beyond a doubt. And those of us who have seen, who will not look away, come before the Los Angeles City Council to plead the case of the animals, for mercy and compassion. It is a moral imperative to stop this inexcusable cruelty and torture.

I profoundly trust, that if the majority of Americans, were fully aware of the inhumane crimes against animals in the global fur trade, they would be shocked, and in an uproar. The darkness has been hidden so long, and we have been intentionally deceived by the industry for too long. The time to stop this deception, denial and cruelty has arrived.

If we are, in all honesty and integrity, to consider ourselves a civilized society, we cannot allow this brutal exploitation and unnecessary suffering of fur animals to continue. We can do better than this.

We plead for the Los Angeles City Council to send a message to the world, that the time for humane change is now. That this city stands for mercy and compassion.

I beg you to vote YES for the LA Fur Ban. Please hear the animals' voices, and stand up for them.

My deepest gratitude for all of your consideration,

Cait Larratt-Smith
Director, Coalition Uproar,

a coalition of 12 humane organizations including Last Chance For Animals (LCA), Animal Hope and Wellness (AH&W), In Defense of Animals (IDA), I Stand With My Pack (ISWMP), People for the Ethical Treatment of Animals (PETA), and Social Compassion In Legislation (SCIL).

BAN FUR!

1 message

From: Jennifer Peralta <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Fri, Aug 31, 2018 at 1:55 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

No more torture to these innocent animals.

Sincerely,

Jennifer Peralta

At: Fri, Aug 31, 2018 at 1:40 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,

Giovanna Traconis

From: Suzi Rhodes <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Fri, Aug 31, 2018 at 1:46 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

In regards to making LA fur free...

1 message

From: Gavin Santillan <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Fri, Aug 31, 2018 at 1:39 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,

At: Thu, Aug 30, 2018 at 7:42 AM

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

Ethan Decaprio

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.
I realise I don't live in your city or even country but by you leading the way hopefully many more cities an countries will follow.
It would be so nice to see a world without cruelty.

Sincerely,
Sue

Ban Fur in Los Angels!!!

1 message

From: Deanna Holt <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 5:25 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,
Deanna Holt

Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

Francesmar Torres

Suffering

1 message

From: Katie Haldeman <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 4:54 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,

Katie Haldeman

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

LA FUR BAN

100 messages

From: Lynn Vaughan <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 12:53 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

I used to be a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. As a progressive city of animal lovers, you should not support an industry that exploits animals and causes unnecessary suffering simply for the sake of fur.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is footage of these animals being skinned alive and remaining conscious for minutes after they are skinned, breathing and still able to blink their eyes.

There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty. By putting an end to the sale of fur in your city, you would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices. This legislation is line with my values and this city's values. I urge you to vote yes on this ordinance.

Sincerely,

Lynn Vaughan

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles. I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from from sentient beings that suffer and experience pain. It is a product of suffering and we cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends. By allowing fur to be sold in our city we are a party to the cruelty.

In an age where science is showing us that animals have complex emotional lives, we cannot allow them to be tortured and killed solely to become a fashion item. Especially when we have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Sincerely,

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. As a progressive city of animal lovers, we cannot support an industry that exploits animals and causes unnecessary suffering simply for the sake of fur.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is footage of these animals being skinned alive and remaining conscious for minutes after they are skinned, breathing and still able to blink their eyes.

There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty. By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices. This legislation is line with my values and this city's values. I urge you to vote yes on this ordinance.

Sincerely,

Kelly Pantaleoni

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles. I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from from sentient beings that suffer and experience pain. It is a product of suffering and we cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends. By allowing fur to be sold in our city we are a party to the cruelty.

In an age where science is showing us that animals have complex emotional lives, we cannot allow them to be tortured and killed solely to become a fashion item. Especially when we have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Sincerely,

Shaqira Wyer

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. As a progressive city of animal lovers, we cannot support an industry that exploits animals and causes unnecessary suffering simply for the sake of fur.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is footage of these animals being skinned alive and remaining conscious for minutes after they are skinned, breathing and still able to blink their eyes.

There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty. By putting an end to the sale of fur in our city, we would encourage

creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices. This legislation is line with my values and this city's values. I urge you to vote yes on this ordinance.

Sincerely,

Jenny Wolfe

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles. I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from from sentient beings that suffer and experience pain. It is a product of suffering and we cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends. By allowing fur to be sold in our city we are a party to the cruelty.

In an age where science is showing us that animals have complex emotional lives, we cannot allow them to be tortured and killed solely to become a fashion item. Especially when we have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

I would also like to add, that I am NOT an animal rights extremist. I am simply a compassionate person, who sees an area where humanity can easily improve. To ban fur is no great sacrifice to humanity. Those that profit from the industry will recover and the WORLD will be better for your action to ban fur. This is one small step towards a more civilized and humane world.

I am in Los Angeles frequently, for business. In my own show of support for this ban, I will no longer visit until the ban passes. Further to that, I will exert my efforts towards encouraging others not to go or support the economy in LA.

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,

Nicole Lamotte

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot

continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Sincerely,
Jill Artsis

Please do not make us equal to those leaders in China or Korea or Cambodia whose leadership lacks the strength to regulate and enforce a zero tolerance for animal cruelty policy. We are better, we can do better and we need to start as soon as possible. Fur banning is one step of the many we need to take as a community and global society to instill compassion and mercy in our nation and create responsible markets who value life and creativity for the use of alternative resources.

Whole heartedly,
Mirian Arteaga

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in Los Angeles, a city looked to for it's progressive nature, it's admirable tolerance, and a haven for both dreamers and doers. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry, one that, I truly believe, does not represent this city's respect of a sustainable, environmentally-sound future. If we consider Los Angeles a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. It doesn't matter where I belong. What matters is, we all are humans and are trying to change the world for a better future. Although I am a resident of India, being a human I do not support the fur industry, no matter how 'humane' it claims to be. Killing a life for fashion is not true fashion. Wearing something that has caused pain and an innocent being has lost a life due to it, is not acceptable. Every animal has a birth right to life just as a human.

Michael Espinosa,

Dear Los Angeles City
It's crazy that we are in 2018 and still using what cave man used. It's a matter of humanity, when you choose normal clothes with no SUFFERING INVOLVED. More than absurd, it's completely devastating that it's legal to kill millions of animals just for some people to "feel nice". Not only they are killed, but they suffer during their short life electrocution hunger fear pain and cruelty. They don't deserve this, please you have the power to make a POSITIVE CHANGE in this world!!!!! Animals have no malice in them, they don't deserve to be treated the way humans treat them. Please have kindness and compassion in you, and once and for all, BAN FUR!

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Sincerely,

Hayley Clifford

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

At: Wed, Aug 29, 2018 at 4:48 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Vote YES to BANNING FUR

1 message

From: Adriana Hernandez <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Thu, Aug 30, 2018 at 6:53 AM

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in the city of Los Angeles. First and foremost, my entire argument could be that animals need their skin and fur, WE do not. However, I will go on. Fur products, whether from animals on fur farms or those trapped in the wild are a result of an unnecessary, cruel, and evil industry. If we consider ourselves a progressive society, we cannot support the merciless actions made by those who have no compassion for other sentient beings like ourselves. We cannot be that kind of people. This legislation is in line with my values and the city's values.

For decades, investigators have documented the EXTREME suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. I recently came across footage of an animal who had been skinned completely, but he or she was still alive, and crying out in agonizing pain. Can you imagine?There is NO acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty for the sake of fashion. Turning living beings into inanimate things is wrong.

By putting an end to the sale of fur in this city, we would encourage creativity and alternatives for many! Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace. The animals share this Earth with us, they have their own rights as well.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely, Adriana Hernandez

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,
Isabella

An End to LA Fur

1 message

From: Elizabeth Meza <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Thu, Aug 30, 2018 at 6:40 AM

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,

Elizabeth Meza

LA FUR BAN

100 messages

From: Lesley Denman <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 10:41 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Sincerely,

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,

We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Sincerely,

Stephanie Flores

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,

Callum Deacy

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Michael Espinosa,

Dear Los Angeles City Council Members:

I implore you to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood. This has also recently been debated by a UK select committee who have revommended a public consultation on the banning of fur after seeing harrowing & upsetting footage of inhumane conditions for foxes, minks, raccoons & coyotes from the Humane Society.

None of us should tolerate an industry that profits off such blatant animal cruelty, for such trivial items as fur trims, and heartless accessories. In an era where science is showing us that animals have complex emotional lives, they deserve better.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a groundbreaking statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. I therefore urge you to vote yes for a Fur Free LA.

With kindest regards

Julie Lloyd & family

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Sincerely,

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even

for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,

Andrew Jackson

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Sincerely,

Demi Quirolo-Simpkins.

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

As a citizen of London, UK, I was shocked to hear that there are fur farms in LA.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within your city comes from sentient beings who suffer and experience pain. We, as 'Human' beings, cannot continue to tolerate an industry that profits off this appalling cruelty in an era where science is showing us that animals have complex emotional lives. It is time for all of us to open our hearts and minds to the other creatures who live on our planet.

Nowadays it is possible to make a wide variety of alternatives to fur and leather, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing of innocent animals for fur will not be tolerated. The fur industry has no place in your city. I therefore urge you to vote yes for a Fur Free LA- and send a positive message for compassion which ripples round the world.

Michael Espinosa,

Dear Los Angeles City Council Members:

I was a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur

products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,

Mariana Nohra

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Sincerely,

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Sincerely,

Idarose Huf

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,

Let's Work Together To End This Torture

1 message

From: Gabriel Avila Jr. <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Thu, Aug 30, 2018 at 5:02 AM

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,

Gabriel Avila Jr.

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

Sophia C

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,
Anna Suszylo

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Fur is unethical

1 message

From: Vikki Loker <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Thu, Aug 30, 2018 at 1:33 AM

Michael Espinosa,

Dear Los Angeles City Council Members:

There is no need for animals to suffer for "fashion". It is outdated, as stated by many high end designers who have ditched fur because it is unethical. I understand those in the fur industry have hired lobbyists to mention how a ban of fur would threaten livelihoods... this is not a valid argument. Society has found many ways to make money ethically, and I believe in North America we are very fortunate to have so many opportunities. If some feel they lack any skills other than murdering animals, perhaps some assistance/ incentives may be offered for them to do the right thing. For example, assistance with education or learning other skills. As well, some time of transition would make the ban of fur sales realistic.

Much of the world's fur comes from China, where there are laws protecting animals. Animals are routinely skinned alive there for their fur. Even when animals are farmed in other countries, they still live in horrific, nightmare conditions. I know I'm Canada we have recently seen many Canadian mink fur farms exposed; the minks are clustered together with hardly any room to turn, living in tiny filthy wire cages (only this to walk on), in maggot-infested feces and urine, in the dark hidden away from society. This is not right.

As a college graduate and current university student, I like to keep informed on good business as well as policy practices. I have heard of many forward-thinking, admirable policy practices from California. I hope to hear LA ban the sale of fur; to do the right thing. I know this can work out as a win-win situation for everyone, including those currently worried about losing an income. The method of income is actually replaceable; we've seen it done many times as society has made progress. Lives and morals are not replaceable.

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

Jennifer Lieu

Ban the sale and manufacturing of fur

1 message

From: Cathy Kuellmer <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Thu, Aug 30, 2018 at 12:52 AM

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,

Cathy Kuellmer

BAN FUR IN LA // VOTE YES

1 message

From: Rachel Roll <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Thu, Aug 30, 2018 at 12:16 AM

Michael Espinosa,

Dear Los Angeles City Council Members:

This is the voice of the thousands of animals ignored & suffering. The voice of the animals that don't have a voice to be heard. These innocent creatures are forced through this unacceptable behavior of being used as apart of fashion. It's cruel & must come to an end. Now.

The fact that there is still the an abundant abuse of use of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There is many alternatives to this fur fashion, that are more affordable and also cruelty free. Faux fur is a great replacement for the use of real animal fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Thank you so much for your time & consideration.

Sincerely,

To: michael.espinosa@lacity.org
At: Thu, Aug 30, 2018 at 12:15 AM

Michael Espinosa,

Dear Los Angeles City Council Members:

I am hopeful that Los Angeles will be the city to set a precedent for many other cities and countries around the world. Oh my gosh. Imagine the impact!!!

I read in the LA Downtown News an article from 2009 that said that the fur capital of Los Angeles used to be at the Collection Building in the Fashion District of Downtown LA. There used to be over 100 furriers in the 1940s. That number dropped to 30 in the 1990s. Please reference the article here: http://www.ladowntownnews.com/news/the-secret-fur-business/article_c9cde7c4-ff4c-54d0-930e-006b2290d93f.html

The number is will only continue to drop, so why not get ahead of the game and set an example? Activists are not out to destroy people's livelihoods. We simply want to relieve suffering. We believe it's possible to even work together with these small businesses to help them transition to cruelty-free faux fur suppliers.

We cannot debate on the politics of an issue when animal rights or human rights are involved. And these furriers may wonder, "Well then? What about MY right and MY choice?" To which we reply that something ceases to become a choice when there is a victim at the other end who did not have a say in the matter.

Please vote yes on this fur ban!

Sincerely,
Ana Valverde

At: Wed, Aug 29, 2018 at 11:57 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

It's hard to process the fact that animals are still being used for fur fashion. No matter the location or the kind of animal, It's unacceptable and a completely barbaric practice.

The No Fur in LA ban gives us the much needed opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city. If anyone reading this is having a hard time deciding what do, please watch a video on fur farms to see how these poor animal are treated & killed. Also, please think of any pet you've ever had, and put them in these animals place. Surely, you would never want your best friend to feel this pain and suffering.

Thank you for your time and compassion,

Samantha Erickson

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,
Reyna

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,

Careen khachatoorian

At: Wed, Aug 29, 2018 at 11:07 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Sincerely,

Char

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,

At: Wed, Aug 29, 2018 at 12:02 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

I strongly urge the Los Angeles City Council to ban the manufacture and sale of fur in the City of Los Angeles. I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from from sentient beings that suffer and experience pain. It is a product of suffering and we cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends. By allowing fur to be sold in our city we are a party to the cruelty.

In an age where science is showing us that animals have complex emotional lives, we cannot allow them to be tortured and killed solely to become a fashion item. Especially when we have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our

city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

We will not accept animals cruelty, no animal should suffer because someone want to wear its beautiful fur as and accessory. Animals are not a thing, an object! They have feelings like any of us. How is this thing ? Keeping animals in cages, killing them and taking their skins off. Stop this suffering and cruelty, these poor animals don't have a voice, but their begging to stop this, and please do !. Money can be made of a difference way not this way, hurting and destroying something so beautiful.

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,
Sharon D. Cohen

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Sincerely,
Courtney Turk

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. This ban is ethical and timely, and iconic fashion brands such as Gucci and Versace have already determined that the use of fur in fashion is wrong and have stopped selling fur. It is time for Los Angeles to join this vanguard and end this practice. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

Michael Espinosa,

Dear Los Angeles City Council Members:
No matter what you are being told by lobbyists, the fur trade is incredibly inhumane, and no negotiations or regulations they claim to make result in a "humane" fur industry. There is no way to make that industry humane.
Animals are captured and taken out of their homes- they are scared, and they are torturously hurt simply for their fur. It is pure greed, and it is embarrassing!

Please consider helping Los Angeles join the other forward thinking cities and ban fur altogether! This will be the way of the future- it would be wonderful if we were some of the ones paving the path.

Thank you for your care for all sentient beings.

Please see additional note below:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,
Maria Rivera

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Sincerely,
Daritza Gonzalez

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles. We should be a progressive society at this point. Fur is strictly fashion and I can't recall one time in my life that it's cool to skin an innocent animal for fashion. Have you ever been to a fur farm? Each and everyone of you should visit one and witness first hand animals skinned alive and barely conscious. When you see firsthand where your fur comes from, you're less likely to agree with and support the industry. It's 2018, please support compassion. Let's keep making California a progressive state that others want to follow.

Thank you.

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Sincerely,
Diane Roach

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,

Sofie Kupsch

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Sincerely,

Jacqueline Cormier

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in our beloved City of Los Angeles.

Animals kept to be killed for fur are treated inhumanly. The fur that is sold within our city comes from sentient beings who suffer and experience pain. Not only day to day in tiny, dirty cages, but

also the torture they undergo while being killed. Some aren't even dead when skinned.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

At: Wed, Aug 29, 2018 at 10:37 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

In this letter I ask that you support the ban on fur in Los Angeles. This industry is completely unnecessary. The sacrificing of sentient beings for fashion is simply cruel.

Animal welfare laws are just not enough. Please let Los Angeles serve as an example to other cities across our nation, and ban fur. This is the fashion district so this can have a great positive impact.

I appreciate your time and consideration.

Sincerely,

Yuri Olivas

From: Sin Yee Chan <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 10:37 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,
Chan Sin Yee

Ban of fur manufacture

1 message

From: Irina Medvednikova <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 10:34 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

Irina Medvednikova

LA FUR BAN TODAY!!!!

1 message

From: Khali B <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 10:34 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,

Khali B

Michael Espinosa,

Dear Los Angeles City Council Members:

How would you like to live your lives in cages only to be killed for your fur in cruel and inhumane way? Exploiting animals for our benefit, especially when it's something so unnecessary like fashion, is sick. We as humans need to stop these atrocities caused by other humans. We have laws punishing those for human murder, because we care about our species and fellow human, but it's out duty to care about all other species the same. PLEASE ban fur.!

It is simply to line their pockets. They claim it is threating their livley hood but in fact switching to faux fur would not only be more humane but cost effective for everyone.

Sincerely,
Chloe Wattles

Fur unnecessary

1 message

From: Vanessa Roy <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 9:27 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,

Vanessa Roy

Fur Ban Los Angeles and the world

1 message

From: Stefania Kotran <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 9:19 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing in support of the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry. I believe such a ban would set a powerful example of compassion and progress for other U.S. and global cities, and Los Angeles can continue to uphold its place at the forefront of the animal rights movement.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and suffer intense stress and trauma. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of anguish before they are shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest city yet to have such a ban in place. Moreover, the fashion industry has begun to embrace faux fur alternatives, and as a fashion city we would be setting an example to the other parts of the world that benefit from this industry. Frankly, animals to do not need to sacrifice their lives in service to human vanity.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

SUPPORT LA FUR BAN

1 message

From: Rene Ruston <info@sg.actionnetwork.org>
To: michael.espinosa@lacity.org
At: Wed, Aug 29, 2018 at 9:19 PM

Michael Espinosa,

Dear Los Angeles City Council Members:

As a resident and business owner of a fur free footwear company, in Los Angeles, I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

The fur that is sold within our city comes from sentient beings who suffer in agony in filthy cages on fur farms. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

My company, makes gorgeous faux fur boots. We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

My native home, Los Angeles, has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry is gratuitously cruel and has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Sincerely,

Rene Ruston

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

Animal Fur & The Disgusting Wearing Of

1 message

Bradley Rodgers <info@sg.actionnetwork.org> Sun, Sep 2, 2018 at 5:14 AM
Reply-To: bradrodgers1967@hotmail.com
To: michael.espinosa@lacity.org

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,

Bradley Rodgers.

P.S.- To still be wearing Furs from Once Living Animals, Once Living UNTIL the Fur Scraper Get Hold of these Poor Creatures is deplorable, and doesn't bode well for your city's image in the eyes of Many. I would say it fair to estimate that there are FAR MORE PEOPLE AGAINST Killing & Robbing an Animal of it's Fur, then there are for it. It is a Low Class thing to do.

Regards,

Bradley Rodgers.

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Keep the fur on the animal where it belongs. It is cruel to skin an an animal for it's skin and fur. We should have evolved from this by now.

LA FUR BAN

1 message

Carolyn Seeman <info@sg.actionnetwork.org> Tue, Sep 4, 2018 at 3:10 PM
Reply-To: nracms@aol.com
To: michael.espinosa@lacity.org

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,

Irina Geller

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,

Trina Jennings

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in LA. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If LA is considered a progressive city of animal lovers, you cannot support unnecessary suffering simply for the sake of fur. This legislation is line with my values and LA's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in your city, you would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,

Ronnie Steinau

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our country. I therefore urge you to vote yes for a Fur Free LA.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,

Antonio Delgado Fenoy

Michael Espinosa,

Dear Los Angeles City Council Members:

There is no need for fur in Los Angeles. It is absolutely unnecessary to put animals through pain and suffering for a garment that, realistically speaking, will be out of fashion in the next season.

Hundreds of animals (for one garment) spend their lives inside of cages that barely give them any room to stretch out their legs. Can you imagine living your entire life in such a confined space?

Now imagine that your existence in these conditions is so that you will die a premature death at the blade of a knife. NOW imagine that your suffering means that your skin will be worn for all of 5 minutes on a catwalk and discarded in the next fashion cycle.

I imagine that I wouldn't want to live that sort of a life.

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,
David Salazar

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

Helen Norris

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,

jessica Tarki
