Dear Mr. Lid,

As a Los Angeles resident, I want to register my full support for Council File 18-0538 to ban the sale and manufacture of fur products in Los Angeles. Long past time this horrific practice was ended. I understand the fur trade lobby is busy trying to get this stopped. I hope the City will stand firm for what is right and end this abusive and cruel business. That's the city that I want to be part of.

Thank you,

Sam Butler
