Council File No: 18-1246

Comments for Public Posting: It is imperative that the safety of all residents of Los Angeles be considered in ruling on home sharing and short term rentals. I am outraged that the Sunset Doheny area is being considered dispensable in your hearing, particularly the comments of Gil Cedillo that this "would not cause problems in my area" so he agreed to advance the motion to City Council for approval. Mr. Cedillo, you are a public servant and even though you do not represent our "area" you are responsible to the taxpayers. The city doesn't have enough staff to oversee enforcement of a widespread home sharing ordinance. This ordinance should be reconsidered with the objections of the residents taken in to account and there were many objections voiced at this hearing.
