**Council File No:** 18-1246

**Comments for Public Posting:** I'm in strong opposition to the proposed Vacation Rental Ordinance CF 18-1246. At a time when Los Angeles is in the midst of an affordable housing crisis and one of the worst humanitarian homeless problems in the world, how can the City even contemplate a vacation rental ordinance? We cannot risk incentivizing even more speculators to enter our real estate market and convert potential long-term housing units into vacation rentals.
