Subject: Vaccine Passports HR 4980
To: cityclerk@lacity.org <cityclerk@lacity.org>

Dear Holly Wolcott,

I have written a number of letters to your office on different issues. I have always received acknowledgement about my concerns from your office, thank you.

This particular concern in my eyes dwarfs all of the others. The requirement of a vaccine passport, to go to the store or restaurant or go into businesses and government buildings etc. I understand that the concept of this law has been passed, but the actual mandate has not yet been written or passed.

I myself have had many vaccinations and am not an anti vaxxer. The ones I had were proven safe and effective. These I had when traveling to a 3rd world Country Africa when I was a teenager. I strongly oppose this mandate which allows the government to inject a non proven harmful substance into your body. If you do not comply you are denied all basic human rights of a Free Society.

Please stop or curtail this mandate as the future of America rests upon this major decision.

Your Constituent Stella Rowe (wife, mother, artist.)

P.S. We are being pressured in various ways to get injected which violates medical ethics and the foundation of a democratic society.
