Clerk of Council and Public Services,

Dear Councilmember Price,

At SAJE we have been supporting the sensible regulation of home-sharing for many years. During a time of crisis we should not be removing desperately needed housing units from the housing market, or creating incentives for wealthy owners of vacation homes to leave their "spare" housing vacant. Please support the continued sensible regulation of home-sharing in Los Angeles. Council members spent a great deal of time studying this issue and making sure it was fair to all when the original HSO was passed, and it should not be undermined now.

Clerk of Council and Public Services,

Councilmembers are considering a loophole to allow the ultra-wealthy buy second homes and then list them as vacation rentals instead of housing. That would cost Los Angeles an estimated 14,740 housing units. Thousands of housing units have already been lost to short-term rentals. It should be illegal to convert housing into a de-facto hotel. How can you say you are fighting homelessness but then give away thousands of units of housing to wealthy property owners?

I urge you to reject the Vacation Rental Ordinance, Council File Number: 18-1246, to allow second homes to be used as short-term rentals and listed on platforms like Airbnb and VRBO. We need more aggressive enforcement of the current home-sharing ordinance, not more loopholes that convert affordable housing into illegal hotels in our neighborhoods.

Thank you

Clerk of Council and Public Services,

A 2019 report found that 7,289 units of housing around Los Angeles, much of it rent-stabilized or affordable housing, had been lost to short-term rentals. There are already too many illegal short-term rentals in our neighborhoods, making housing more expensive and displacing long-time residents. Please don't let short-term rentals crowd out affordable housing in our city.

We face evictions, homelessness, and rising rents. LA has a housing crisis.
