PLUM Committee Members,

I am writing urging you to oppose the unnecessary, damaging vacation rental ordinance. Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the ordinance and protect our housing.

PLUM Committee Members,

Hello Councilmember Ryu,

I am a resident of your district, CD4 writing to urge you to please stop the vacation rentals ordinance. I cannot continue to walk down sunset and look at empty luxury apartments on one side of the street and a homeless encampment on the other. We must begin to correct course and start divesting from big real estate money and start taking care of our citizens.

Thank you and have a good day.

Robert Svetlik

PLUM Committee Members,

Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the vacation rentals ordinance. As a renter, I know the struggles of being overburdened with increasing rents, and allowing even more units to be taken off the market for tourists will raise prices even more.

It is absurd to be removing homes from normal renters during this time of crisis. Housing is a human right and LA has far too many unhoused residents.

PLUM Committee Members,

I am skeptical of the benefits of short term housing, particularly at a time where hotels are particularly vacant, and in a city such as LA where housing is a critical issue. Something more helpful would be something targeting housing for Angelinos, like rezoning areas away from single family housing.

PLUM Committee Members,

Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the vacation rentals ordinance. Don't try to do this in the name of tourism. There's plenty of hotels and motels where tourists can stay. We have a housing crisis in Los Angeles; a yes vote is heartless and downright shameful.

PLUM Committee Members,

Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the vacation rentals ordinance.

It is incredibly hard to find affordable housing in LA and taking thousands of places of the market will make it even harder. We do not need homes to be more scarce than they already are.

PLUM Committee Members,

It is beyond belief that such an idea would even be proposed, let alone passed into law. Over 14,000 units removed from the long term rental market, most of them RSO.

Thousands of units have already been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing supply and protections that Angelenos fought years to achieve. We thought this was settled, and yet, here it is back. Enough! Please stop the vacation rentals ordinance once and for all. Or do you enjoy seeing tens of thousands of people in tents on the sidewalks?

**At:** Wed, Nov 11, 2020 at 5:56 PM

---

PLUM Committee Members,

During this eviction crisis, it is absolutely crucial that we protect Angelenos' ability to access housing. Voting yes on the vacation rentals ordinance could leave thousands of Angelenos homeless, at a time where California has one of the highest rates of homelessness in the country. Please stop the vacation rentals ordinance.

PLUM Committee Members,

I am writing urging you to protect property rights of owners. They in no way are obligated to be told how to rent their property. If they want to use airbnb the city should in now way go against that. It is not the government's right to force people to rent to anyone they dont want to. The housing crisis is not at the fault of home and property owners. It is at the negligence of our local government with endless taxes and government overreach. Our housing and homeless problem is at the fault of our local government. The last thing We need is for the government to get more involved. We need them to get less involved. The government has no right to interfere with the private sector which includes property rights.

The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the ordinance and protect our housing. There's plenty of people living on the streets instead of trying to help the people in this city our tax dollars are going to cater to the rich again over and over as children and people go hungry in this state! What the high taxes that every citizen pays in this state it is unfathomableHow still the people in the streets are being ignored honestly there should be a huge revolt in a protest against the robbery that is going on in California

PLUM Committee Members,

I am writing urging you to oppose the unnecessary, damaging vacation rental ordinance. Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the ordinance and protect our housing.

PLUM Committee Members,

This city is in a crisis of homelessness, housing inequality, disreputable landlords and irresponsible allocation of resources.

The people of this city have struggled to make ends meet while being pushed farther to the margins, away from the neighborhoods of their youth, of their families, to make way for real estate conglomerates to drive rents higher and evict those that cannot afford their new standard.

I am writing urging you to oppose the unnecessary, damaging vacation rental ordinance. Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the ordinance and protect our housing.

We must protect Angelenos and offer those in need the resources available for the sake of human kindness and integrity.

Thank you.

PLUM Committee Members,

I am writing urging you to oppose the unnecessary, damaging vacation rental ordinance. Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the ordinance and protect our housing.

PLUM Committee Members,

I am writing urging you to oppose the unnecessary, damaging vacation rental ordinance. Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the ordinance and protect our housing.

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a

Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood

and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to \$195/yr. The new per night booking fee of \$3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the \$850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of \$149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

HALA Member  
Heather Downey and Kevin Patton

A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of \$149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

HALA Member

---

Dear PLUM Committee, Council President and Mayor

My name is Andrew Pifko. Coming out of this pandemic, I am struggling to cover the cost of my home.

Please set the maximum fee of .5% per booked night and lowers the permitting fee to \$195/yr. The new per night booking fee of \$3.10 disproportionately affects lower priced short term rentals and beyond the 14% TOT and 895/yr extended home share fee, overburdens people's homes instead of large hotel chains.

Thank you for your consideration.

Sincerely  
Andrew Pifko

---

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to \$195/yr. The new per night booking fee of \$3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the \$850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of \$149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

HALA Member

**From:** Salim Mhunzi <salim@salim.cc>

**To:** councilmember.harris-dawson@lacity.org, councilmember.blumenfield@lacity.org, gilbert.cedillo@lacity.org, councilmember.price@lacity.org, councilmember.Lee@lacity.org, councilmember.martinez@lacity.org, Mayor.garcetti@lacity.org, CityClerk@lacity.org, info@homeshareallianceLosangeles.org

**At:** Wed, Nov 11, 2020 at 7:56 PM

---

Dear PLUM Committee, Council President and Mayor Garcetti -

My name is Salim Mhunzi and I am resident of District 10, this is an area that I am proud to live in as a third generation Angeleno with my great grandfather dating back to 1920.

I live in a 1925 home and am asking you to provide me with the same rights that new residents and homes have when it comes to short term rentals. There should not be double standards or different rules for more affluent communities.

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts.

We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the

unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to \$195/yr. The new per night booking fee of \$3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the \$850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of \$149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

HALA Member

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to \$195/yr. The new per night booking fee of \$3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the \$850 Extended Home Sharing fee.

The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental.

Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to \$195/yr. The new per night booking fee of \$3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the \$850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of \$149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

## SUPPORT the Vacation Rental Ordinance WITH amendments

1 message

**From:** Jeff Patterson <jeffdpaterson@gmail.com>

**To:** CityClerk@lacity.org, Mayor.garcetti@lacity.org, councilmember.Lee@lacity.org, councilmember.blumenfield@lacity.org, councilmember.harris-dawson@lacity.org, councilmember.martinez@lacity.org, councilmember.price@lacity.org, gilbert.cedillo@lacity.org, info@homesharealliancecelosangeles.org

**At:** Wed, Nov 11, 2020 at 7:36 PM

Dear PLUM Committee, Council President and Mayor Garcetti -

I am a constituent in the 13th district!

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence. We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning. 1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO). The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners. 2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year. These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community. 3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this. By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? 4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting. The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants. 5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely. Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year? 6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence. There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair. 7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one. By allowing two bookings per night, the host can actually have more guest quality control. 8) HALA asks PLUM to recommend stronger protections for neighborhoods. a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate

these city ordinances. This will help protect the neighborhood and host. b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community. 9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue. This would protect the tenant community from "bad actor" Hosts. 10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft. Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting. 11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to \$195/yr. The new per night booking fee of \$3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the \$850 Extended Home Sharing fee. The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of \$149 per RSO unit. City Planning should follow the same existing system of fees. These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners. Thank you for your consideration and thank you for all the service you do for our great city. Sincerely, HALA Member

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental.

Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to \$195/yr. Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification

and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to \$195/yr. The new per night booking fee of \$3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the \$850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of \$149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

Heather Carson

**From:** Azin Jarrett <azinjarrett@gmail.com>**To:** Clerk <cityclerk@lacity.org>**At:** Wed, Nov 11, 2020 at 5:31 PM

---

Dear City Clerk,

My name is Azin and I have a vacation rental in Lake Balboa/Van Nuys. I have been an LA Airbnb host for Since February 2020. I'm emailing to ask that you support the vacation rental ordinance with the changes recommended by the City Planning Commission and schedule the next hearing as soon as possible.

Thank you for working towards allowing us to host. However, as written, the proposed ordinance removes the ability for LA residents like myself to utilize short-term rentals as a crucial economic lifeline, and instead benefits big hotels. Severely restricting the total number of vacation rentals permitted in each neighborhood would be particularly harmful to me. My husband and I work as youth pastors at our local church here in LA. We recently bought a house in Van Nuys where we live with our two daughters. We rent out a room on Airbnb which has given us the ability to afford to live here while working to serve our community and the youth. The income we get through Airbnb allows us the to do the work we feel called to do but to also be able to afford to own a home in a market where ownership is nearly impossible for people like us. If the ban is put into place it will take a huge toll on our finances and our ability to afford living in LA. I'm asking that this ban please be reconsidered.

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

I love our community and want to see my city thrive by supporting local travel and small businesses without overly restrictive regulations. Vacation rentals have been a part of LA for decades, and they make it possible for many families to visit the city affordably.

PLEASE schedule the next hearing for vacation rentals, support the planning commission's recommendations and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards,  
Azin Jarrett

Dear City Clerk,

My name is Megan and I have a vacation rental in Highland Park.

There are almost no hotels in the area, so when people want to be near their family and friends or experience this part of the city, the best and sometimes only option is AirBnB.. I have been an LA Airbnb host for Over 2 years, and I really love it!. I'm emailing to ask that you support the vacation rental ordinance with the changes recommended by the City Planning Commission.

Thank you for working towards allowing us to host. However, as written, the proposed ordinance removes the ability for LA residents like myself to utilize short-term rentals as a crucial economic lifeline, and instead benefits big hotels. Severely restricting the total number of vacation rentals permitted in each neighborhood would be particularly harmful to me. It's been much more difficult to cover the costs of my mortgage with the reduced number of rental days. I work hard like many in this expensive city to make ends meet and renting my place helps me pay the bills. Without it, I would not be able to afford my home and would be forced to sell and leave the city.

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

I love our community and want to see my city thrive by supporting local travel and small businesses without overly restrictive regulations. Vacation rentals have been a part of LA for decades, and they make it possible for many families to visit the city affordably.

PLEASE support the planning commission's recommendations and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards,

Dear City Clerk,

My name is Livinio and I have a vacation rental in Los Feliz. I have been an LA Airbnb host for 4 years. I'm emailing to ask that you support the vacation rental ordinance with the changes recommended by the City Planning Commission.

Thank you for working towards allowing us to host. However, as written, the proposed ordinance removes the ability for LA residents like myself to utilize short-term rentals as a crucial economic lifeline, and instead benefits big hotels. Severely restricting the total number of vacation rentals permitted in each neighborhood would be particularly harmful to me. My house falls under the rent Stabilization Ordinance (RSO) and I was declined a permit to continue to operate under the new STR City Ordinance.

I am a small landlord and rely on this income to pay the mortgage of my house. Without this and switching to traditional long term rental I could never afford to cover the mortgage costs.

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

I love our community and want to see my city thrive by supporting local travel and small businesses without overly restrictive regulations. Vacation rentals have been a part of LA for decades, and they make it possible for many families to visit the city affordably.

PLEASE support the planning commission's recommendations and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Dear City Clerk,

My name is Todd and I have a vacation rental in Mid City. I have been an LA Airbnb host for Just under 5 years. I'm emailing to ask that you support the vacation rental ordinance with the changes recommended by the City Planning Commission and schedule the next hearing as soon as possible.

Thank you for working towards allowing us to host. However, as written, the proposed ordinance removes the ability for LA residents like myself to utilize short-term rentals as a crucial economic lifeline, and instead benefits big hotels. Paying a \$850 permit fee to operate a vacation rental for 90 days a year would be particularly harmful to me. I cant afford to live in my house without it because of the pandemic I have lost my business cant find work the only thing I have left is airbnb .I put my room in craigslist rented to 1 person who was selling drugs out of my unit he stopped paying rent and I couldn't evict him because of the new laws. I finally got him to leave my place was destroyed his \$500 security deposit didn't cover the top of the damage. I have been a host for almost 5 years never once have I had a bad experience. Please let me keep hosting.

Thank you

Todd Barrie

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Hello City Clerk,

I am a constituent and an Airbnb host in Los Angeles. As you prepare to hear the proposed vacation rental ordinance, I'm emailing to ask you to support this ordinance and to consider increasing the cap on the number of nights we are able to host from 90 nights to 120.

Today, LA has no non-primary residence short term rentals, or vacation rentals. Los Angeles is a global destination, and it's important that we have a mix of accommodations for visitors. This proposed ordinance, provides balance between protecting neighborhoods and our housing while allowing LA to fully benefit economically from its visitor economy,

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses, especially in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

In addition, the Center for Disease Control (CDC) recently recognized short-term rentals offer a safer travel experience relative to hotels, without the risk of commons spaces like lobbies or dining halls. Now more than ever, guests are looking for the features that have made Airbnb unique – private homes beyond densely populated tourist and hotel districts with more space and more control over their environment. To prioritize the health and safety of communities, Airbnb developed a five-step enhanced cleaning process in consultation with former U.S. Surgeon General Dr. Vivek Murthy and informed by guidance from the CDC and World Health Organization (WHO).

Because these rentals are used intermittently by their owners, they are not part of the long-term housing stock, and as the Planning Department's report notes, this will not have an adverse impact on long term housing. At the same time, increasing the cap incrementally from 90 to 120 nights will generate millions of dollars in additional tax revenue for the City.

PLEASE support vacation rentals, increase the cap and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards, Heather Carson

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to \$195/yr. The new per night booking fee of \$3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the \$850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of \$149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

HALA Member

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to \$195/yr. The new per night booking fee of \$3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the \$850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of \$149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,  
Victoria Byers

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to \$195/yr. The new per night booking fee of \$3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the \$850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of \$149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,  
Victoria Byers
