PLUM Committee Members,

I am writing urging you to oppose the unnecessary, damaging vacation rental ordinance. Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the ordinance and protect our housing.

It is unconscionable that you would even be considering this measure during a pandemic that has depressed tourism in LA. We currently have thousands of vacant hotel rooms. Why would we need to convert housing stock into rooms for out of town guests when hotels, many subsidized by public money, sit empty? We do not have a crisis of tourists with nowhere to sleep. We have a crisis of poor and working class residents struggling to keep shelter, hundreds of thousands on the brink of eviction and 4 people dying on our streets every day. Act with urgency to help them instead!

I am a renter in Los Angeles, and it frustrates me that so many units have already been removed from the housing market due to conversion and demolition. Now the council is proposing removing even more units so that individuals can enrich themselves, while the 35,000+ people experiencing homelessness and untold thousands (like me) pay rents that are inflated due to an artificial lack of housing. This is outrageous! Please vote no on this bill!

To: clerk.plumcommittee@lacity.org, clerk.cps@lacity.org
At: Wed, Nov 11, 2020 at 7:27 PM

PLUM Committee Members,

Hello,

As a tenant in a rent-controlled residence in Los Angeles, I firmly oppose any additional conversions of permanent housing into short-term vacation rentals. Los Angeles needs housing units desperately. Creating new incentives to take permanent housing off the market is wildly inappropriate at this time.

Please do NOT allow any more short-term rentals in Los Angeles. There should be no consideration of converting permanent housing into tourist traps until there are no unhoused individuals in Los Angeles & no families unable to afford housing.

Especially during a pandemic, the last thing we need is more people traveling here to bring additional COVID spread!

PLUM Committee Members,

The homelessness problem is out of control!
LA City Council and the Mayor's office have failed immeasurably. Lowering the number of normal rental units for Angelenos will up scarcity and prices even more. Affordable housing is the only way forward. Please stop the vacation rentals ordinance. Our homes and apartments should be for our neighbors, not turned into hotels.

PLUM Committee Members,

Please stop the vacation rentals ordinance. Our homes and apartments should be for our neighbors, not turned into hotels.

The housing crisis in Los Angeles is only getting worse, and taking available housing out of reach will not make things better. We have plenty of hotels standing empty in Los Angeles already; the answer is not to make more units available for this purpose.

Please, put people first. Keep housing within reach.

PLUM Committee Members,

Please provide the ability for Angelenos to have affordable housing before making homes and units available for services like Airbnb. I love using Airbnb, but there must be a limit which allows residents to be #1. Tourists cannot come Los Angeles if housing is so expensive and inaccessible in LA that those who provide all the services tourists enjoy can not afford to live here anymore. It is both not compassionate and not good cultural or economic policy to lose these homes to hotel-like rentals.

Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the vacation rentals ordinance.

PLUM Committee Members,

The time has come for the LA City Council to acknowledge their role in the moral and ethical identity of the city. Never before has there been an opportunity for you to choose the side of right. If you allow a loophole for wealthy constituents in the short term rental ordinance, you will show yourselves to be lowly and unworthy of representing Angelinos who have been BEGGING for your mercy. We all see you and will vote you out one by one if you refuse to get a grip on your priorities.

Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the vacation rentals ordinance! Do what is right.

Stop the Vacation Rentals Ordinance (CF #18-1246)

1 message

From: Tiffany Wong <twong@scopela.org>
To: clerk.plumcommittee@lacity.org, clerk.cps@lacity.org
At: Thu, Nov 12, 2020 at 8:57 AM

PLUM Committee Members,

I'm in strong opposition to the proposed Vacation Rental Ordinance CF 18-1246. Our homes and apartments should be for our neighbors, not turned into hotels.

The City should not be considering a vacation rental policy in the middle of a housing and homelessness crisis. The City has not been able to create housing fast enough. That is why it finds itself in legal trouble at every turn. We cannot risk incentivizing even more speculators to enter our real estate market and convert potential long-term housing units into vacation rentals. If there are units sitting empty in the City of Los Angeles, they should be used for housing, no exceptions.

This vacation rental policy erodes the very core of the protections ensured in the Home-Sharing ordinance that the city took 4 years to create. Why, in the midst of people suffering on the street, would you want to pass a law that serves only people wealthy enough to own multiple homes and platforms like Airbnb? We are having enough trouble with party homes and empty houses being used for tourists. Additionally empty units are slowly being put on Airbnb for long term renters. Instead of a vacation rental policy you should be adopting a vacancy tax policy!

Why would the City focus its time on helping turn single family homes into hotel rooms? The pandemic has destroyed the hospitality industry and hundreds and hundreds of people are out of work. If and when tourism picks back up, we should be helping these people get back to work, not creating alternate hotel rooms that help the wealthiest get wealthier.

I respectfully request that you reject the Vacation Rental Ordinance and do not recommend its approval, in any form, to the City Council. Thank you for your time and consideration.

At: Thu, Nov 12, 2020 at 8:41 AM

PLUM Committee Members,

This is going to be a cold, cold winter. Already this year more than 1000 people have died on the streets of LA. This is entirely preventable. We know that housing saves lives. We know that AirBnB raises rental prices in the area, causing displacement, and harms communities. You must act to stop this extraction from our communities and protect Angelenos.

Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the vacation rentals ordinance

Subject: Support vacation rentals in LA! City Clerk file: 18-1246
To: Clerk <CityClerk@lacity.org>

Hello City Clerk,

I am a constituent and an Airbnb host in Los Angeles. As you prepare to hear the proposed vacation rental ordinance, I'm emailing to ask you to support this ordinance and to consider increasing the cap on the number of nights we are able to host from 90 nights to 120.

Today, LA has no non-primary residence short term rentals, or vacation rentals. Los Angeles is a global destination, and it's important that we have a mix of accommodations for visitors. This proposed ordinance, provides balance between protecting neighborhoods and our housing while allowing LA to fully benefit economically from its visitor economy,

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses, especially in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

In addition, the Center for Disease Control (CDC) recently recognized short-term rentals offer a safer travel experience relative to hotels, without the risk of commons spaces like lobbies or dining halls. Now more than ever, guests are looking for the features that have made Airbnb unique – private homes beyond densely populated tourist and hotel districts with more space and more control over their environment. To prioritize the health and safety of communities, Airbnb developed a five-step enhanced cleaning process in consultation with former U.S. Surgeon General Dr. Vivek Murthy and informed by guidance from the CDC and World Health Organization (WHO).

Because these rentals are used intermittently by their owners, they are not part of the long-term housing stock, and as the Planning Department's report notes, this will not have an adverse impact on long term housing. At the same time, increasing the cap incrementally from 90 to 120 nights will generate millions of dollars in additional tax revenue for the City.

PLEASE support vacation rentals, increase the cap and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards, Chelsea Jenkins

Dear City Clerk,

My name is Todd and I have a vacation rental in Mid City. I have been an LA Airbnb host for Just under 5 years. I'm emailing to ask that you support the vacation rental ordinance with the changes recommended by the City Planning Commission and schedule the next hearing as soon as possible.

Thank you for working towards allowing us to host. However, as written, the proposed ordinance removes the ability for LA residents like myself to utilize short-term rentals as a crucial economic lifeline, and instead benefits big hotels. Paying a $850 permit fee to operate a vacation rental for 90 days a year would be particularly harmful to me. I cant afford to live in my house without it because of the pandemic I have lost my business cant find work the only thing I have left is airbnb .I put my room in craigslist rented to 1 person who was selling drugs out of my unit he stopped paying rent and I couldn't evict him because of the new laws. I finally got him to leave my place was destroyed his $500 security deposit didn't cover the top of the damage. I have been a host for almost 5 years never once have I had a bad experience. Please let me keep hosting.
Thank you
Todd Barrie

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

I love our community and want to see my city thrive by supporting local travel and small businesses without overly restrictive regulations. Vacation rentals have been a part of LA for decades, and they make it possible for many families to visit the city affordably.

PLEASE schedule the next hearing for vacation rentals, support the planning commission's recommendations and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards,
Todd Barrie

Dear City Clerk,

My name is Livinio and I have a vacation rental in Los Feliz. I have been an LA Airbnb host for 4 years. I'm emailing to ask that you support the vacation rental ordinance with the changes recommended by the City Planning Commission.

Thank you for working towards allowing us to host. However, as written, the proposed ordinance removes the ability for LA residents like myself to utilize short-term rentals as a crucial economic lifeline, and instead benefits big hotels Severely restricting the total number of vacation rentals permitted in each neighborhood would be particularly harmful to me. My house falls under the rent Stabilization Ordinance (RSO) and I was declined a permit to continue to operate under the new STR City Ordinance.

I am a small landlord and rey on this income to pay the mortgage of my house. Without this and switching to traditional long term rental I could never afford to cover the mortgage costs.

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

I love our community and want to see my city thrive by supporting local travel and small businesses without overly restrictive regulations. Vacation rentals have been a part of LA for decades, and they make it possible for many families to visit the city affordably.

PLEASE support the planning commission's recommendations and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards,
Livinio Sanchez

To: Clerk <cityclerk@lacity.org>

Dear City Clerk,

My name is Megan and I have a vacation rental in Highland Park.

There are almost no hotels in the area, so when people want to be near their family and friends or experience this part of the city, the best and sometimes only option is AirBnB.. I have been an LA Airbnb host for Over 2 years, and I really love it!. I'm emailing to ask that you support the vacation rental ordinance with the changes recommended by the City Planning Commission.

Thank you for working towards allowing us to host. However, as written, the proposed ordinance removes the ability for LA residents like myself to utilize short-term rentals as a crucial economic lifeline, and instead benefits big hotels Severely restricting the total number of vacation rentals permitted in each neighborhood would be particularly harmful to me. It's been much more difficult to cover the costs of my mortgage with the reduced number of rental days. I work hard like many in this expensive city to make ends meet and renting my place helps me pay the bills. Without it, I would not be able to afford my home and would be forced to sell and leave the city.

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

I love our community and want to see my city thrive by supporting local travel and small businesses without overly restrictive regulations. Vacation rentals have been a part of LA for decades, and they make it possible for many families to visit the city affordably.

PLEASE support the planning commission's recommendations and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Dear City Clerk,

My name is Azin and I have a vacation rental in Lake Balboa/Van Nuys. I have been an LA Airbnb host for Since February 2020. I'm emailing to ask that you support the vacation rental ordinance with the changes recommended by the City Planning Commission and schedule the next hearing as soon as possible.

Thank you for working towards allowing us to host. However, as written, the proposed ordinance removes the ability for LA residents like myself to utilize short-term rentals as a crucial economic lifeline, and instead benefits big hotels. Severely restricting the total number of vacation rentals permitted in each neighborhood would be particularly harmful to me. My husband and I work as youth pastors at our local church here in LA. We recently bought a house in Van Nuys where we live with our two daughters. We rent out a room on Airbnb which has given us the ability to afford to live here while working to serve our community and the youth. The income we get through Airbnb allows us the to do the work we feel called to do but to also be able to afford to own a home in a market where ownership is nearly impossible for people like us. If the ban is put into place it will take a huge toll on our finances and our ability to afford living in LA. I'm asking that this ban please be reconsidered.

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

I love our community and want to see my city thrive by supporting local travel and small businesses without overly restrictive regulations. Vacation rentals have been a part of LA for decades, and they make it possible for many families to visit the city affordably.

PLEASE schedule the next hearing for vacation rentals, support the planning commission's recommendations and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards,
Azin Jarrett

To: councilmember.harris-dawson@lacity.org <councilmember.harris-dawson@lacity.org>, Councilmember Bob Blumenfield <councilmember.blumenfield@lacity.org>, <gilbert.cedillo@lacity.org>, Councilmember Curren D. Price Jr <councilmember.price@lacity.org>, Councilmember John Lee <councilmember.Lee@lacity.org>, Councilmember Nury Martinez <councilmember.martinez@lacity.org>, Mayor Eric Garcetti <Mayor.garcetti@lacity.org>, <CityClerk@lacity.org>, Homeshare Alliance Los Angeles <info@homeshareallianceloangeles.org>

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never

return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat

dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

Heather Carson

Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell,

a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like

HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

HALA Member

Dear PLUM Committee, Council President and Mayor Garcetti -

I am a constituent in the 13th district!

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence. We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning. 1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO). The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners. 2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year. These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community. 3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this. By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? 4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting. The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants. 5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely. Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the

owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year? 6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence. There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair. 7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one. By allowing two bookings per night, the host can actually have more guest quality control. 8) HALA asks PLUM to recommend stronger protections for neighborhoods. a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host. b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host’s “superhost” status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community. 9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue. This would protect the tenant community from "bad actor" Hosts. 10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft. Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting. 11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee. The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees. These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners. Thank you for your consideration and thank you for all the service you do for our great city. Sincerely, HALA Member

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell,

a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like

HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit

vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be

given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the

owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night

booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

Kari, HALA Member

Dear PLUM Committee, Council President and Mayor Garcetti -

My name is Salim Mhunzi and I am resident of District 10, this is an area that I am proud to live in as a third generation Angeleno with my great grandfather dating back to 1920.

I live in a 1925 home and am asking you to provide me with the same rights that new residents and homes have when it comes to short term rentals. There should not be double standards or different rules for more affluent communities.

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts.

We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford

a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings

continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit

vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit

vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be

given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

HALA Member

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit

vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be

given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

HALA Member

Dear PLUM Committee, Council President and Mayor

My name is Andrew Pifko. Coming out of this pandemic, I am struggling to cover the cost of my home.

Please set the maximum fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 disproportionately affects lower priced short term rentals and beyond the 14% TOT and 895/yr extended home share fee, overburdens people's homes instead of large hotel chains.

Thank you for your consideration.

Sincerely
Andrew Pifko

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It’s an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner’s ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit

vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be

given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,
Victoria Byers

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit

vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be

given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,
Victoria Byers

Dear PLUM Committee, LA County officials and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never

return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. Subject: Support vacation rentals in LA
To: Clerk <cityclerk@lacity.org>

Dear City Clerk,

My name is Sarah and I have a vacation rental. My home is located in South Los Angeles. I have been an LA Airbnb host since 2018 (before that in NYC since 2016). I'm emailing to ask that you support the vacation rental ordinance with the changes recommended by the City Planning Commission and schedule the next hearing as soon as possible.

Thank you for working towards allowing us to host. However, as written, the proposed ordinance removes the ability for LA residents like myself to utilize short-term rentals as a crucial economic lifeline, and instead benefits big hotels. Severely restricting the total number of vacation rentals permitted in each neighborhood would be particularly harmful to me. I host a part of my home to visitors coming to Los Angeles. I rely on its income greatly. My neighborhood benefits too from the money spent locally.
I have to have this income otherwise I will not be able to make ends meet. I am now anxious that the restrictions will be too severe and without merit. I work very hard to be an ambassador for Los Angeles and love what I do. It is a unique experience to be hosted in someone's home. One that people really enjoy! I am responsible and show the utmost respect to my neighbors. This home sharing platform is the only one that suits what I have to offer. I cannot "rent" out a room in my house in any other way.

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

I love our community and want to see my city thrive by supporting local travel and small businesses without overly restrictive regulations. Vacation rentals have been a part of LA for decades, and they make it possible for many families to visit the city affordably.

PLEASE schedule the next hearing for vacation rentals, support the planning commission's recommendations and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards,
Sarah Robertson

Subject: Support vacation rentals in LA
To: Clerk <cityclerk@lacity.org>

Dear City Clerk,

My name is Bonaventure and I have a vacation rental in Los Angeles. I have been an LA Airbnb host for 5 years. I'm emailing to ask that you support the vacation rental ordinance with the changes recommended by the City Planning Commission.

Thank you for working towards allowing us to host. However, as written, the proposed ordinance removes the ability for LA residents like myself to utilize short-term rentals as a crucial economic lifeline, and instead benefits big hotels Paying a $850 permit fee to operate a vacation rental for 90 days a year would be particularly harmful to me. It will kill my business

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

I love our community and want to see my city thrive by supporting local travel and small businesses without overly restrictive regulations. Vacation rentals have been a part of LA for decades, and they make it possible for many families to visit the city affordably.

PLEASE support the planning commission's recommendations and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards,
Bonaventure ugonwa

Subject: SUPPORT the Vacation Rental Ordinance WITH amendments
To: <councilmember.harris-dawson@lacity.org>, <councilmember.blumenfield@lacity.org>, <gilbert.cedillo@lacity.org>, <councilmember.price@lacity.org>, <councilmember.Lee@lacity.org>, <Councilmember.martinez@lacity.org>, <mayor.garcetti@lacity.org>, <CityClerk@lacity.org>, <info@homeshareallliancelosangeles.org>

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit

vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be

given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

Fwd: SUPPORT the Vacation Rental Ordinance WITH amendments

Dear City Clerk,

My name is Can and I have a vacation rental in Marina del Rey. I have been an LA Airbnb host for 3 years. I'm emailing to ask that you support the vacation rental ordinance with the changes recommended by the City Planning Commission and schedule the next hearing as soon as possible.

Thank you for working towards allowing us to host. However, as written, the proposed ordinance removes the ability for LA residents like myself to utilize short-term rentals as a crucial economic lifeline, and instead benefits big hotels. Only allowing 1 vacation rental per person would be particularly harmful to me. Really bad

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

I love our community and want to see my city thrive by supporting local travel and small businesses without overly restrictive regulations. Vacation rentals have been a part of LA for decades, and they make it possible for many families to visit the city affordably.

PLEASE schedule the next hearing for vacation rentals, support the planning commission's recommendations and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards,
Can Gozubuyuk

Dear PLUM Committee, Council President and Mayor Garcetti -

I am a homeowner and constituent in cd -11.
Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the

owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night

booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

HALA Member

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never

return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never

return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat

dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? 4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting. The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants. 5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely. Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year? 6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the

existing hosts with a secondary residence. There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair. 7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one. By allowing two bookings per night, the host can actually have more guest quality control. 8) HALA asks PLUM to recommend stronger protections for neighborhoods. a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host. b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community. 9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue. This would protect the tenant community from "bad actor" Hosts. 10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft. Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting. 11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee. The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees. These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners. Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,
Jay Aaron

Subject: SUPPORT the Vacation Rental Ordinance WITH amendments
To: <councilmember.harris-dawson@lacity.org>, <councilmember.blumenfield@lacity.org>, <gilbert.cedillo@lacity.org>, <councilmember.price@lacity.org>, <councilmember.Lee@lacity.org>, <councilmember.martinez@lacity.org>, <Mayor.garcetti@lacity.org>, <CityClerk@lacity.org>, <info@homesharealliancelosangeles.org>

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit

vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be

given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

HALA Member

At: Thu, Nov 12, 2020 at 4:40 AM

PLUM Committee Members,

Thousands of units have been lost to short-term rentals.

I remember all the concern expressed by Councilmembers about how the recall and retention of hotel workers would "burden" small hotel businesses, and now those same council members are going to hammer hotel businesses by allowing 14,000+ new tourism units undermine them at the BEGINNING of a recovery?? How is this not hypocrisy?

The truth is workers and renters have to be constantly fighting to be heard at the LA Council, and wealthy homeowners and big business have far too much power there.

Thank you for your consideration,

PLUM Committee Members,

To Whom It May Concern,
I'm writing to ask that you please stop the vacation rentals ordinance. Our homes and apartments should be for our neighbors, not turned into hotels.

This is especially the case with evictions on the rise, a pandemic underway and and increasing divide between those who have well paying jobs, housing security and discretionary income — and those who are barely scraping by.

I stay in Airbnbs but would happily pay more to stay in a hotel to stop policies like these that will hurt people who are already in pain.

Please stop it.

Thanks,
Hannah

PLUM Committee Members,

There is a housing crisis.

We have all watched the homeless population grow as rents rise.

Legislation consistently favors those who want the ability to increase their already established wealth.

I am a renter. Living in CA with my career... I probably always will be. I've made peace with that. But all I ask is that we not exacerbate an already CRITICAL shortage of available housing, which will inevitably lead to the ceaseless increase of rents.

Rich get richer. Poor stay poor.

Who elected you? What do you represent? The stability of the working poor, or the exponential growth of a thin layer of wealth at the top of this population?

America is broken. Bleeding. Please help me. Please help my 2 yr old son.

Please stop the vacation rentals ordinance. Our homes and apartments should be for our neighbors, not turned into hotels.

PLUM Committee Members,

Please stop the vacation rentals ordinance. Our homes and apartments should be for our neighbors, not turned into hotels.

Worst yet when you allow these vacation rentals I have experienced repeated weekends of loud and obnoxious behavior because these renters are on "Vacation" we end up struggling for parking when they invite extra people to stay.

Please do not do this!

PLUM Committee Members,

Please stop the vacation rentals ordinance. Our homes and apartments should be for our neighbors, not turned into hotels. We're in the middle of a pandemic!!!!!! People are laid off & desperately need access to affordable housing. If we want to boost the tourism industry in LA right now there are SO many vacant LEGAL hotel rooms to fill! Bring occupancy back to hotels before worrying about STRs.

People should not have to face displacement or be forced to leave their homes. It is marginalizing to do so.
Adding hotels only encourages more tourism and more gentrification and rent spikes.

PLUM Committee Members,

Please stop the vacation rentals ordinance. This seems particularly irrelevant when we're in the midst of a pandemic when tourism is both discouraged and basically non-existent. And even further into the future, we're constantly facing an affordable housing shortage, and this does the

opposite of addressing that in necessary ways. Our homes and apartments should be for our neighbors, not turned into hotels.

PLUM Committee Members,

Please stop the vacation rentals ordinance. Our homes and apartments should be for our neighbors, not turned into hotels. We are facing the worst truly affordable housing crisis and thousands of people will be facing eviction due to a Global pandemic that we are not responsible for. Removing homes from the housing stock for vacation rentals or hotel rooms is cruel and only serves the wealthy and corporate landlords. Do not support this ordinance... your constituents will not forget who contributed to the homelessness situation that has devastated our city. Have a heart.

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

HALA Member

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

Mercedes Abuela

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification

and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. To: Clerk <cityclerk@lacity.org>
At: Thu, Nov 12, 2020 at 1:10 AM

Dear City Clerk,

My name is Can and I have a vacation rental in Marina del Rey. I have been an LA Airbnb host for 3 years. I'm emailing to ask that you support the vacation rental ordinance with the changes recommended by the City Planning Commission and schedule the next hearing as soon as possible.

Thank you for working towards allowing us to host. However, as written, the proposed ordinance removes the ability for LA residents like myself to utilize short-term rentals as a crucial economic lifeline, and instead benefits big hotels. Only allowing 1 vacation rental per person would be particularly harmful to me. Really bad

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

I love our community and want to see my city thrive by supporting local travel and small businesses without overly restrictive regulations. Vacation rentals have been a part of LA for decades, and they make it possible for many families to visit the city affordably.

PLEASE schedule the next hearing for vacation rentals, support the planning commission's recommendations and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards,
Can Gozubuyuk

Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

HALA Member

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

Support vacation rentals in LA

Dear City Clerk,

My name is Bonaventure and I have a vacation rental in Los Angeles. I have been an LA Airbnb host for 5 years. I'm emailing to ask that you support the vacation rental ordinance with the changes recommended by the City Planning Commission.

Thank you for working towards allowing us to host. However, as written, the proposed ordinance removes the ability for LA residents like myself to utilize short-term rentals as a crucial economic lifeline, and instead benefits big hotels Paying a $850 permit fee to operate a vacation rental for 90 days a year would be particularly harmful to me. It will kill my business

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

I love our community and want to see my city thrive by supporting local travel and small businesses without overly restrictive regulations. Vacation rentals have been a part of LA for decades, and they make it possible for many families to visit the city affordably.

PLEASE support the planning commission's recommendations and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards,
Bonaventure ugonwa

Dear City Clerk,

My name is Sarah and I have a vacation rental. My home is located in South Los Angeles. I have been an LA Airbnb host since 2018 (before that in NYC since 2016). I'm emailing to ask that you support the vacation rental ordinance with the changes recommended by the City Planning Commission and schedule the next hearing as soon as possible.

Thank you for working towards allowing us to host. However, as written, the proposed ordinance removes the ability for LA residents like myself to utilize short-term rentals as a crucial economic lifeline, and instead benefits big hotels. Severely restricting the total number of vacation rentals permitted in each neighborhood would be particularly harmful to me. I host a part of my home to visitors coming to Los Angeles. I rely on its income greatly. My neighborhood benefits too from the money spent locally.
I have to have this income otherwise I will not be able to make ends meet. I am now anxious that the restrictions will be too severe and without merit. I work very hard to be an ambassador for Los Angeles and love what I do. It is a unique experience to be hosted in someone's home. One that people really enjoy! I am responsible and show the utmost respect to my neighbors. This home sharing platform is the only one that suits what I have to offer. I cannot "rent" out a room in my house in any other way.

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

I love our community and want to see my city thrive by supporting local travel and small businesses without overly restrictive regulations. Vacation rentals have been a part of LA for decades, and they make it possible for many families to visit the city affordably.

PLEASE schedule the next hearing for vacation rentals, support the planning commission's recommendations and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards,
Sarah Robertson

PLUM Committee Members,

I am writing urging you to oppose the unnecessary, damaging vacation rental ordinance. Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the ordinance and protect our housing.

It is unconscionable that you would even be considering this measure during a pandemic that has depressed tourism in LA. We currently have thousands of vacant hotel rooms. Why would we need to convert housing stock into rooms for out of town guests when hotels, many subsidized by public money, sit empty? We do not have a crisis of tourists with nowhere to sleep. We have a crisis of poor and working class residents struggling to keep shelter, hundreds of thousands on the brink of eviction and 4 people dying on our streets every day. Act with urgency to help them instead!

The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the ordinance and protect our housing.

I am a renter in Los Angeles, and it frustrates me that so many units have already been removed from the housing market due to conversion and demolition. Now the council is proposing removing even more units so that individuals can enrich themselves, while the 35,000+ people experiencing homelessness and untold thousands (like me) pay rents that are inflated due to an artificial lack of housing. This is outrageous! Please vote no on this bill!

PLUM Committee Members,

Hello,

As a tenant in a rent-controlled residence in Los Angeles, I firmly oppose any additional conversions of permanent housing into short-term vacation rentals. Los Angeles needs housing units desperately. Creating new incentives to take permanent housing off the market is wildly inappropriate at this time.

Please do NOT allow any more short-term rentals in Los Angeles. There should be no consideration of converting permanent housing into tourist traps until there are no unhoused individuals in Los Angeles & no families unable to afford housing.

Especially during a pandemic, the last thing we need is more people traveling here to bring additional COVID spread!

PLUM Committee Members,

Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the vacation rentals ordinance. This City needs to put it's people above the profits of land lords and tourism. It's a shame that our unhoused veterans are living in tents while thousands of vacation rentals sit empty just because the city council doesn't have the guts to do whats right. Shame.

PLUM Committee Members,

Please provide the ability for Angelenos to have affordable housing before making homes and units available for services like Airbnb. I love using Airbnb, but there must be a limit which allows residents to be #1. Tourists cannot come Los Angeles if housing is so expensive and inaccessible in LA that those who provide all the services tourists enjoy can not afford to live here anymore. It is both not compassionate and not good cultural or economic policy to lose these homes to hotel-like rentals.

Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the vacation rentals ordinance.

PLUM Committee Members,

The time has come for the LA City Council to acknowledge their role in the moral and ethical identity of the city. Never before has there been an opportunity for you to choose the side of right. If you allow a loophole for wealthy constituents in the short term rental ordinance, you will show yourselves to be lowly and unworthy of representing Angelinos who have been BEGGING for your mercy. We all see you and will vote you out one by one if you refuse to get a grip on your priorities.

Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the vacation rentals ordinance! Do what is right.

PLUM Committee Members,

Please stop the vacation rentals ordinance. Our homes and apartments should be for our neighbors, not turned into hotels.

The housing crisis in Los Angeles is only getting worse, and taking available housing out of reach will not make things better. We have plenty of hotels standing empty in Los Angeles already; the answer is not to make more units available for this purpose.

Please, put people first. Keep housing within reach.

PLUM Committee Members,

The homelessness problem is out of control!
LA City Council and the Mayor's office have failed immeasurably. Lowering the number of normal rental units for Angelenos will up scarcity and prices even more. Affordable housing is the only way forward. Please stop the vacation rentals ordinance. Our homes and apartments should be for our neighbors, not turned into hotels.

PLUM Committee Members,

Please stop the vacation rentals ordinance. Our homes and apartments should be for our neighbors, not turned into hotels.

The housing crisis in Los Angeles is only getting worse, and taking available housing out of reach will not make things better. We have plenty of hotels standing empty in Los Angeles already; the answer is not to make more units available for this purpose.

Please, put people first. Keep housing within reach.

PLUM Committee Members,

Please stop the vacation rentals ordinance.

In the midst of Los Angeles' homelessness crisis and housing shortage, we need to preserve the existing housing stock for residents and keep costs more affordable. AirBNB and other home sharing puts increased pressure on our already exhausted housing stock. Our homes and apartments should be for our neighbors, not turned into hotels.

I urge you to stop the vacation rentals ordinance and put residents first.

Thank you for your consideration.

PLUM Committee Members,

I am asking you to please stop the vacation rentals ordinance. Our homes and apartments should be for our neighbors, not turned into hotels. This community wants our local government to consider the many people without homes or any form of shelter. It is imperative that we prioritize those who are struggling, especially in our community, rather than appeasing the likes of profit-oriented tourists and government officials.

PLUM Committee Members,

Please provide the ability for Angelenos to have affordable housing before making homes and units available for services like Airbnb. I love using Airbnb, but there must be a limit which allows residents to be #1. Tourists cannot come Los Angeles if housing is so expensive and inaccessible in LA that those who provide all the services tourists enjoy can not afford to live here anymore. It is both not compassionate and not good cultural or economic policy to lose these homes to hotel-like rentals.

Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the vacation rentals ordinance.

PLUM Committee Members,

The time has come for the LA City Council to acknowledge their role in the moral and ethical identity of the city. Never before has there been an opportunity for you to choose the side of right. If you allow a loophole for wealthy constituents in the short term rental ordinance, you will show yourselves to be lowly and unworthy of representing Angelinos who have been BEGGING for your mercy. We all see you and will vote you out one by one if you refuse to get a grip on your priorities.

Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the vacation rentals ordinance! Do what is right.

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the

owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night

booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

HALA Member

If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the

owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night

booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

HALA Member

Protect Our Housing / Vacation Rentals Ordinance (CF #18-1246)

PLUM Committee Members,

I am writing urging you to oppose the unnecessary, damaging vacation rental ordinance. Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the ordinance and protect our housing.

It is unconscionable that you would even be considering this measure during a pandemic that has depressed tourism in LA. We currently have thousands of vacant hotel rooms. Why would we need to convert housing stock into rooms for out of town guests when hotels, many subsidized by public money, sit empty? We do not have a crisis of tourists with nowhere to sleep. We have a crisis of poor and working class residents struggling to keep shelter, hundreds of thousands on the brink of eviction and 4 people dying on our streets every day. Act with urgency to help them instead!

I am a renter in Los Angeles, and it frustrates me that so many units have already been removed from the housing market due to conversion and demolition. Now the council is proposing removing even more units so that individuals can enrich themselves, while the 35,000+ people experiencing homelessness and untold thousands (like me) pay rents that are inflated due to an artificial lack of housing. This is outrageous! Please vote no on this bill!

PLUM Committee Members,

Hello,

As a tenant in a rent-controlled residence in Los Angeles, I firmly oppose any additional conversions of permanent housing into short-term vacation rentals. Los Angeles needs housing units desperately. Creating new incentives to take permanent housing off the market is wildly inappropriate at this time.

Please do NOT allow any more short-term rentals in Los Angeles. There should be no consideration of converting permanent housing into tourist traps until there are no unhoused individuals in Los Angeles & no families unable to afford housing.

Especially during a pandemic, the last thing we need is more people traveling here to bring additional COVID spread!

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. **Please consider recommending our changes to the CPC's Report.**

I'm a constituent of the 1st district and I'm really concerned about having to pay high fees only to rent out an additional space for the whole year, as well as other parts of the ordinance that seem to advantage wealthier owners and really do nothing to solve the homelessness problem in LA.

Sincerely, and hopefully

Viviana Baldarelli

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit

vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be

given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

HALA Member
Marva Fucci

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the

owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night

booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Subject: Support vacation rentals in LA
To: Clerk <cityclerk@lacity.org>

Dear City Clerk,

My name is Jeffrey and my wife and I use part of our home as a vacation rental (in West Los Angeles). We have been LA Airbnb hosts for going on 3 years. I'm emailing to ask that you support the vacation rental ordinance with the changes recommended by the City Planning Commission and schedule the next hearing as soon as possible.

Thank you for working towards allowing us to host. However, as written, the proposed ordinance removes the ability for LA residents like myself to utilize short-term rentals as a crucial economic lifeline, and instead benefits big hotels. Paying a $850 permit fee to operate a vacation rental for only 90 days a year would be particularly harmful to me. The current rules restrictions work in a fair and reasonable manner and should not be drastically changed,

We host both younger and senior adult guests who can not afford the extremely high rates charged by area hotels. We welcome people to L.A. and provide them with our suggestions for the best of our neighborhood and the city. We make sure our guests are respectful of our neighborhood -- we haven't had a single complaint by any of our neighbors.

I love our community and want to see my city thrive by supporting local travel and small businesses without overly restrictive regulations. Vacation rentals have been a part of LA for decades, and they make it possible for many families to visit the city affordably.

PLEASE schedule the next hearing for vacation rentals, support the planning commission's recommendations and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards,
Jeffrey Ellis

given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

HALA Member

PLUM Committee Members,

Thousands of units have been lost to short-term rentals. The city already substantially lacks affordable housing, and housing will only become more unstable as the COVID-19 pandemic continues. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve and risk removing nearly 15,000 from the rental market at a time when people need homes, not AirBNBs. Please stop the vacation rentals ordinance and preserve LA housing.

Subject: Support vacation rentals in LA
To: Clerk <cityclerk@lacity.org>

Dear City Clerk,

My name is Akhilesh and I have a vacation rental in Woodland Hills. I have been an LA Airbnb host for Yes. I'm emailing to ask that you support the vacation rental ordinance with the changes recommended by the City Planning Commission and schedule the next hearing as soon as possible.

Thank you for working towards allowing us to host. However, as written, the proposed ordinance removes the ability for LA residents like myself to utilize short-term rentals as a crucial economic lifeline, and instead benefits big hotels. Paying a $850 permit fee to operate a vacation rental for 90 days a year would be particularly harmful to me. No

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

I love our community and want to see my city thrive by supporting local travel and small businesses without overly restrictive regulations. Vacation rentals have been a part of LA for decades, and they make it possible for many families to visit the city affordably.

PLEASE schedule the next hearing for vacation rentals, support the planning commission's recommendations and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards,
Akhilesh Jha

PLUM Committee Members,

Please do not approve this proposed ordinance. After passing a strong ordinance to restrict the use of housing for short-term rentals, why open up this loophole? L.A. needs permanent housing, not housing for short-term rentals.

To: councilmember.harris-dawson@lacity.org <councilmember.harris-dawson@lacity.org>, councilmember.blumenfield@lacity.org <councilmember.blumenfield@lacity.org>, gilbert.cedillo@lacity.org <gilbert.cedillo@lacity.org>, councilmember.price@lacity.org <councilmember.price@lacity.org>, councilmember.Lee@lacity.org <councilmember.Lee@lacity.org>, councilmember.martinez@lacity.org <councilmember.martinez@lacity.org>, Mayor.garcetti@lacity.org <Mayor.garcetti@lacity.org>, CityClerk@lacity.org <CityClerk@lacity.org>

Dear PLUM Committee, Council President and Mayor Garcetti -

I was a short-term host, forced out of the market by your current ordinance.

I ask that the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Short Term Rentals.
Tenants in RSO units should be able to rent out their homes when they are out of town, the same way tenants in non-RSO units are allowed to. 85% of all rental units in LA are RSO. Your law privileges owners and non-RSO tenants, discriminating against all others. If you are serious about maintaining housing stock in LA, before you allow any owners with *second* homes to rent out as short term hosts, you must allow tenants in RSO units to be able to host short term in their primary homes when they are away, or a second bedroom if they wish while home.

Hosts already pay 12% city taxes on our rentals, which is what major hotel chains pay. Mom and Pop hosts should not be asked to pay a penny more than big corporations.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

Kat Smith

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit

vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be

given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

Jaime Geaga

The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair. 7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one. By allowing two bookings per night, the host can actually have more guest quality control. 8) HALA asks PLUM to recommend stronger protections for neighborhoods. a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host. b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community. 9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue. This would protect the tenant community from "bad actor" Hosts. 10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft. Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting. 11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee. The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees. These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners. Thank you for your consideration and thank you for all the service you do for our great city. Sincerely, HALA Member

No to the Vacation Rental Ordinance (CF #18-1246) , We need Housing

PLUM Committee Members,

Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve, and in this moment where so many face housing insecurity, I ask you to please stop the vacation rentals ordinance.

PLUM Committee Members,

I strongly urge that you put pressure on homeowners to keep homes open for longterm housing. Letting homeowners rent short-term severely limits housing in a time when we need it most. We need to protect housing protections, in order to stop the scourge of our housing shortage. A vacation rental ordinance is the last thing our residents need right now. Please stop the ordinance and protect our housing.

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class

Support vacation rentals in LA! City Clerk file: 18-1246

1 message

From: Adriana Roberts <a@bootiemashup.com>
To: Clerk <CityClerk@lacity.org>
At: Thu, Nov 12, 2020 at 1:05 PM

Hello City Clerk,

I am a constituent and an Airbnb host in Los Angeles. As you prepare to hear the proposed vacation rental ordinance, I'm emailing to ask you to support this ordinance and to consider increasing the cap on the number of nights we are able to host from 90 nights to 120.

Today, LA has no non-primary residence short term rentals, or vacation rentals. Los Angeles is a global destination, and it's important that we have a mix of accommodations for visitors. This proposed ordinance, provides balance between protecting neighborhoods and our housing while allowing LA to fully benefit economically from its visitor economy,

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses, especially in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

In addition, the Center for Disease Control (CDC) recently recognized short-term rentals offer a safer travel experience relative to hotels, without the risk of commons spaces like lobbies or dining halls. Now more than ever, guests are looking for the features that have made Airbnb unique – private homes beyond densely populated tourist and hotel districts with more space and more control over their environment. To prioritize the health and safety of communities, Airbnb developed a five-step enhanced cleaning process in consultation with former U.S. Surgeon General Dr. Vivek Murthy and informed by guidance from the CDC and World Health Organization (WHO).

Because these rentals are used intermittently by their owners, they are not part of the long-term housing stock, and as the Planning Department's report notes, this will not have an adverse impact on long term housing. At the same time, increasing the cap incrementally from 90 to 120 nights will generate millions of dollars in additional tax revenue for the City.

PLEASE support vacation rentals, increase the cap and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards, Adriana Roberts

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a

Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It’s an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner’s ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood

and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

HALA Member

If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

HALA Member

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. **Please consider recommending our changes to the CPC's Report.**

I'm a constituent of the 1st district and I'm really concerned about having to pay high fees only to rent out an additional space for the whole year, as well as other parts of the ordinance that seem to advantage wealthier owners and really do nothing to solve the homelessness problem in LA.

Sincerely, and hopefully

Viviana Baldarelli

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

HALA Member

Robert Lee

Dear City Clerk,

My name is Jeffrey and my wife and I use part of our home as a vacation rental (in West Los Angeles). We have been LA Airbnb hosts for going on 3 years. I'm emailing to ask that you support the vacation rental ordinance with the changes recommended by the City Planning Commission and schedule the next hearing as soon as possible.

Thank you for working towards allowing us to host. However, as written, the proposed ordinance removes the ability for LA residents like myself to utilize short-term rentals as a crucial economic lifeline, and instead benefits big hotels. Paying a $850 permit fee to operate a vacation rental for only 90 days a year would be particularly harmful to me. The current rules restrictions work in a fair and reasonable manner and should not be drastically changed,

We host both younger and senior adult guests who can not afford the extremely high rates charged by area hotels. We welcome people to L.A. and provide them with our suggestions for the best of our neighborhood and the city. We make sure our guests are respectful of our neighborhood -- we haven't had a single complaint by any of our neighbors.

I love our community and want to see my city thrive by supporting local travel and small businesses without overly restrictive regulations. Vacation rentals have been a part of LA for decades, and they make it possible for many families to visit the city affordably.

PLEASE schedule the next hearing for vacation rentals, support the planning commission's recommendations and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards,
Jeffrey Ellis

Dear City Clerk,

My name is Akhilesh and I have a vacation rental in Woodland Hills. I have been an LA Airbnb host for Yes. I'm emailing to ask that you support the vacation rental ordinance with the changes recommended by the City Planning Commission and schedule the next hearing as soon as possible.

Thank you for working towards allowing us to host. However, as written, the proposed ordinance removes the ability for LA residents like myself to utilize short-term rentals as a crucial economic lifeline, and instead benefits big hotels. Paying a $850 permit fee to operate a vacation rental for 90 days a year would be particularly harmful to me. No

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

I love our community and want to see my city thrive by supporting local travel and small businesses without overly restrictive regulations. Vacation rentals have been a part of LA for decades, and they make it possible for many families to visit the city affordably.

PLEASE schedule the next hearing for vacation rentals, support the planning commission's recommendations and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Dear PLUM Committee, Council President and Mayor Garcetti -

I was a short-term host, forced out of the market by your current ordinance.

I ask that the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Short Term Rentals.
Tenants in RSO units should be able to rent out their homes when they are out of town, the same way tenants in non-RSO units are allowed to. 85% of all rental units in LA are RSO. Your law privileges owners and non-RSO tenants, discriminating against all others. If you are serious about maintaining housing stock in LA, before you allow any owners with *second* homes to rent out as short term hosts, you must allow tenants in RSO units to be able to host short term in their primary homes when they are away, or a second bedroom if they wish while home.

Hosts already pay 12% city taxes on our rentals, which is what major hotel chains pay. Mom and Pop hosts should not be asked to pay a penny more than big corporations.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

Kat Smith

Dear PLUM Committee, Council President and Mayor Garcetti - Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence. We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning. 1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO). The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners. 2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year. These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community. 3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this. By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? 4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting. The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants. 5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely. Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year? 6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence. There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair. 7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one. By allowing two bookings per night, the host can actually have more guest quality control. 8) HALA asks PLUM to recommend stronger protections for neighborhoods. a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host. b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost"

status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community. 9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue. This would protect the tenant community from "bad actor" Hosts. 10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft. Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting. 11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee. The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees. These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners. Thank you for your consideration and thank you for all the service you do for our great city. Sincerely, HALA Member

Protect Our Housing / Vacation Rentals Ordinance (CF #18-1246)

1 message

From: Chelsea Evans <cevans3@oxy.edu>
To: clerk.plumcommittee@lacity.org, clerk.cps@lacity.org
At: Thu, Nov 12, 2020 at 2:02 PM

PLUM Committee Members,

I am writing urging you to oppose the unnecessary, damaging vacation rental ordinance. Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the ordinance and protect our housing.

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit

vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be

given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit

vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be

given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

HALA Member

Subject: Support vacation rentals in LA! City Clerk file: 18-1246
To: Clerk <CityClerk@lacity.org>

Hello City Clerk,

I am a constituent and an Airbnb host in Los Angeles. As you prepare to hear the proposed vacation rental ordinance, I'm emailing to ask you to support this ordinance and to consider increasing the cap on the number of nights we are able to host from 90 nights to 120.

Today, LA has no non-primary residence short term rentals, or vacation rentals. Los Angeles is a global destination, and it's important that we have a mix of accommodations for visitors. This proposed ordinance, provides balance between protecting neighborhoods and our housing while allowing LA to fully benefit economically from its visitor economy,

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses, especially in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

In addition, the Center for Disease Control (CDC) recently recognized short-term rentals offer a safer travel experience relative to hotels, without the risk of commons spaces like lobbies or dining halls. Now more than ever, guests are looking for the features that have made Airbnb unique – private homes beyond densely populated tourist and hotel districts with more space and more control over their environment. To prioritize the health and safety of communities, Airbnb developed a five-step enhanced cleaning process in consultation with former U.S. Surgeon General Dr. Vivek Murthy and informed by guidance from the CDC and World Health Organization (WHO).

Because these rentals are used intermittently by their owners, they are not part of the long-term housing stock, and as the Planning Department's report notes, this will not have an adverse impact on long term housing. At the same time, increasing the cap incrementally from 90 to 120 nights will generate millions of dollars in additional tax revenue for the City.

PLEASE support vacation rentals, increase the cap and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards, Adriana Roberts

Fwd: SUPPORT the Vacation Rental Ordinance WITH amendments

Subject: SUPPORT the Vacation Rental Ordinance WITH amendments
To: <councilmember.harris-dawson@lacity.org>, <councilmember.blumenfield@lacity.org>, <gilbert.cedillo@lacity.org>, <councilmember.price@lacity.org>, <councilmember.Lee@lacity.org>, <councilmember.martinez@lacity.org>, <Mayor.garcetti@lacity.org>, <CityClerk@lacity.org>, Homeshare Alliance Los Angeles <info@homeshareallianceloangeles.org>

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences

and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It’s an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner’s ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you

do for our great city.

Sincerely,

HALA Member

PLUM Committee Members,

Please provide the ability for Angelenos to have affordable housing before making homes and units available for services like Airbnb. I love using Airbnb, but there must be a limit which allows residents to be #1. Tourists cannot come Los Angeles if housing is so expensive and inaccessible in LA that those who provide all the services tourists enjoy can not afford to live here anymore. It is both not compassionate and not good cultural or economic policy to lose these homes to hotel-like rentals.

PLUM Committee Members,

The time has come for the LA City Council to acknowledge their role in the moral and ethical identity of the city. Never before has there been an opportunity for you to choose the side of right. If you allow a loophole for wealthy constituents in the short term rental ordinance, you will show yourselves to be lowly and unworthy of representing Angelinos who have been BEGGING for your mercy. We all see you and will vote you out one by one if you refuse to get a grip on your priorities.

Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the vacation rentals ordinance! Do what is right.

PLUM Committee Members,

Please stop the vacation rentals ordinance. Our homes and apartments should be for our neighbors, not turned into hotels.

The housing crisis in Los Angeles is only getting worse, and taking available housing out of reach will not make things better. We have plenty of hotels standing empty in Los Angeles already; the answer is not to make more units available for this purpose.

Please, put people first. Keep housing within reach.

At: Thu, Nov 12, 2020 at 10:22 AM

PLUM Committee Members,

Please stop the vacation rentals ordinance.

In the midst of Los Angeles' homelessness crisis and housing shortage, we need to preserve the existing housing stock for residents and keep costs more affordable. AirBNB and other home sharing puts increased pressure on our already exhausted housing stock. Our homes and apartments should be for our neighbors, not turned into hotels.

I urge you to stop the vacation rentals ordinance and put residents first.

Thank you for your consideration.

PLUM Committee Members,

Please stop the vacation rentals ordinance. Our homes and apartments should be for our neighbors, not turned into hotels. Short term rentals disrupt neighborhoods and take homes off the housing market, exacerbating LA's housing crisis even further.

At: Thu, Nov 12, 2020 at 2:47 PM

Hello City Clerk,

I am a constituent and an Airbnb host in Los Angeles. As you prepare to hear the proposed vacation rental ordinance, I'm emailing to ask you to support this ordinance and to consider increasing the cap on the number of nights we are able to host from 90 nights to 120.

Today, LA has no non-primary residence short term rentals, or vacation rentals. Los Angeles is a global destination, and it's important that we have a mix of accommodations for visitors. This proposed ordinance, provides balance between protecting neighborhoods and our housing while allowing LA to fully benefit economically from its visitor economy,

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses, especially in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

In addition, the Center for Disease Control (CDC) recently recognized short-term rentals offer a safer travel experience relative to hotels, without the risk of commons spaces like lobbies or dining halls. Now more than ever, guests are looking for the features that have made Airbnb unique – private homes beyond densely populated tourist and hotel districts with more space and more control over their environment. To prioritize the health and safety of communities, Airbnb developed a five-step enhanced cleaning process in consultation with former U.S. Surgeon General Dr. Vivek Murthy and informed by guidance from the CDC and World Health Organization (WHO).

Because these rentals are used intermittently by their owners, they are not part of the long-term housing stock, and as the Planning Department's report notes, this will not have an adverse impact on long term housing. At the same time, increasing the cap incrementally from 90 to 120 nights will generate millions of dollars in additional tax revenue for the City.

PLEASE support vacation rentals, increase the cap and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards, Lilly Zabat

Dear City Clerk,

My name is Odile and I have a vacation rental in Mar Vista. I have been an LA Airbnb host for Since 2017. I'm emailing to ask that you support the vacation rental ordinance with the changes recommended by the City Planning Commission and schedule the next hearing as soon as possible.

Thank you for working towards allowing us to host. However, as written, the proposed ordinance removes the ability for LA residents like myself to utilize short-term rentals as a crucial economic lifeline, and instead benefits big hotels. Paying a $850 permit fee to operate a vacation rental for 90 days a year would be particularly harmful to me. It's my leaving

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

I love our community and want to see my city thrive by supporting local travel and small businesses without overly restrictive regulations. Vacation rentals have been a part of LA for decades, and they make it possible for many families to visit the city affordably.

PLEASE schedule the next hearing for vacation rentals, support the planning commission's recommendations and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards,
Odile Everaert

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

HALA Member

PLUM Committee Members,

Please stop the vacation rentals ordinance. Our homes and apartments should be for our neighbors, not turned into hotels.

The housing crisis in Los Angeles is only getting worse, and taking available housing out of reach will not make things better. We have plenty of hotels standing empty in Los Angeles already; the answer is not to make more units available for this purpose.

Please, put people first. Keep housing within reach.

At: Thu, Nov 12, 2020 at 10:22 AM

PLUM Committee Members,

Please stop the vacation rentals ordinance.

In the midst of Los Angeles' homelessness crisis and housing shortage, we need to preserve the existing housing stock for residents and keep costs more affordable. AirBNB and other home sharing puts increased pressure on our already exhausted housing stock. Our homes and apartments should be for our neighbors, not turned into hotels.

I urge you to stop the vacation rentals ordinance and put residents first.

Thank you for your consideration.

PLUM Committee Members,

I am asking you to please stop the vacation rentals ordinance. Our homes and apartments should be for our neighbors, not turned into hotels. This community wants our local government to consider the many people without homes or any form of shelter. It is imperative that we prioritize those who are struggling, especially in our community, rather than appeasing the likes of profit-oriented tourists and government officials.

PLUM Committee Members,

I am writing urging you to oppose the unnecessary, damaging vacation rental ordinance. Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the ordinance and protect our housing.

It is unconscionable that you would even be considering this measure during a pandemic that has depressed tourism in LA. We currently have thousands of vacant hotel rooms. Why would we need to convert housing stock into rooms for out of town guests when hotels, many subsidized by public money, sit empty? We do not have a crisis of tourists with nowhere to sleep. We have a crisis of poor and working class residents struggling to keep shelter, hundreds of thousands on the brink of eviction and 4 people dying on our streets every day. Act with urgency to help them instead!

I am a renter in Los Angeles, and it frustrates me that so many units have already been removed from the housing market due to conversion and demolition. Now the council is proposing removing even more units so that individuals can enrich themselves, while the 35,000+ people experiencing homelessness and untold thousands (like me) pay rents that are inflated due to an artificial lack of housing. This is outrageous! Please vote no on this bill!

PLUM Committee Members,

Hello,

As a tenant in a rent-controlled residence in Los Angeles, I firmly oppose any additional conversions of permanent housing into short-term vacation rentals. Los Angeles needs housing units desperately. Creating new incentives to take permanent housing off the market is wildly inappropriate at this time.

Please do NOT allow any more short-term rentals in Los Angeles. There should be no consideration of converting permanent housing into tourist traps until there are no unhoused individuals in Los Angeles & no families unable to afford housing.

Especially during a pandemic, the last thing we need is more people traveling here to bring additional COVID spread!

PLUM Committee Members,

I am writing urging you to oppose the unnecessary, damaging vacation rental ordinance. Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the ordinance and protect our housing.

PLUM Committee Members,

I am writing urging you to oppose the unnecessary, damaging vacation rental ordinance. To consider any ordinance that would draw down the number or available rental units in favor of vacation rentals, especially I. This current moment, borders on cruel.

Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the ordinance and protect our housing.

PLUM Committee Members,

Dear Mayor Garcetti,

I am writing urging you to oppose the unnecessary, damaging vacation rental ordinance. Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the ordinance and protect our housing.

As we enter a season of extraordinary risk for housing instability for Angelinos and Californians more broadly, it is unconscionable that we would so significantly reduce the supply of potential long term rentals. Please support the health and welfare of everyday Angelinos by halting the ordinance.

Regards,
Erin Arendse

Subject: Support vacation rentals in LA! City Clerk file: 18-1246
To: Clerk <CityClerk@lacity.org>

Hello City Clerk,

I am a constituent and an Airbnb host in Los Angeles. As you prepare to hear the proposed vacation rental ordinance, I'm emailing to ask you to support this ordinance and to consider increasing the cap on the number of nights we are able to host from 90 nights to 120.

Today, LA has no non-primary residence short term rentals, or vacation rentals. Los Angeles is a global destination, and it's important that we have a mix of accommodations for visitors. This proposed ordinance, provides balance between protecting neighborhoods and our housing while allowing LA to fully benefit economically from its visitor economy,

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses, especially in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

In addition, the Center for Disease Control (CDC) recently recognized short-term rentals offer a safer travel experience relative to hotels, without the risk of commons spaces like lobbies or dining halls. Now more than ever, guests are looking for the features that have made Airbnb unique – private homes beyond densely populated tourist and hotel districts with more space and more control over their environment. To prioritize the health and safety of communities, Airbnb developed a five-step enhanced cleaning process in consultation with former U.S. Surgeon General Dr. Vivek Murthy and informed by guidance from the CDC and World Health Organization (WHO).

Because these rentals are used intermittently by their owners, they are not part of the long-term housing stock, and as the Planning Department's report notes, this will not have an adverse impact on long term housing. At the same time, increasing the cap incrementally from 90 to 120 nights will generate millions of dollars in additional tax revenue for the City.

PLEASE support vacation rentals, increase the cap and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards, Lilly Zabat

PLUM Committee Members,

Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the vacation rentals ordinance. This City needs to put it's people above the profits of land lords and tourism. It's a shame that our unhoused veterans are living in tents while thousands of vacation rentals sit empty just because the city council doesn't have the guts to do whats right. Shame.

PLUM Committee Members,

Please provide the ability for Angelenos to have affordable housing before making homes and units available for services like Airbnb. I love using Airbnb, but there must be a limit which allows residents to be #1. Tourists cannot come Los Angeles if housing is so expensive and inaccessible in LA that those who provide all the services tourists enjoy can not afford to live here anymore. It is both not compassionate and not good cultural or economic policy to lose these homes to hotel-like rentals.

Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the vacation rentals ordinance.

PLUM Committee Members,

The time has come for the LA City Council to acknowledge their role in the moral and ethical identity of the city. Never before has there been an opportunity for you to choose the side of right. If you allow a loophole for wealthy constituents in the short term rental ordinance, you will show yourselves to be lowly and unworthy of representing Angelinos who have been BEGGING for your mercy. We all see you and will vote you out one by one if you refuse to get a grip on your priorities.

Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the vacation rentals ordinance! Do what is right.

Fwd: Support affordable accommodations in LA

1 message

From: Izabella Hovhanisian <izabella.hovhanisian@lacity.org>
To: City Clerk Council and Public Services <clerk.cps@lacity.org>, Clerk-PLUM-Committee <clerk.plumcommittee@lacity.org>
At: Thu, Nov 12, 2020 at 2:12 PM

---------- Forwarded message ---------
From: **Odile Everaert** <odile_everaert@hotmail.com>
Date: Thu, Nov 12, 2020 at 2:13 PM
Subject: Support affordable accommodations in LA
To: Clerk <cityclerk@lacity.org>

Dear City Clerk,

My name is Odile and I have a vacation rental in Mar Vista. I have been an LA Airbnb host for Since 2017. I'm emailing to ask that you support the vacation rental ordinance with the changes recommended by the City Planning Commission and schedule the next hearing as soon as possible.

Thank you for working towards allowing us to host. However, as written, the proposed ordinance removes the ability for LA residents like myself to utilize short-term rentals as a crucial economic lifeline, and instead benefits big hotels. Paying a $850 permit fee to operate a vacation rental for 90 days a year would be particularly harmful to me. It's my leaving

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

I love our community and want to see my city thrive by supporting local travel and small businesses without overly restrictive regulations. Vacation rentals have been a part of LA for decades, and they make it possible for many families to visit the city affordably.

PLEASE schedule the next hearing for vacation rentals, support the planning commission's recommendations and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards,
Odile Everaert

PLUM Committee Members,

Please provide the ability for Angelenos to have affordable housing before making homes and units available for services like Airbnb. I love using Airbnb, but there must be a limit which allows residents to be #1. Tourists cannot come Los Angeles if housing is so expensive and inaccessible in LA that those who provide all the services tourists enjoy can not afford to live here anymore. It is both not compassionate and not good cultural or economic policy to lose these homes to hotel-like rentals.

Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the vacation rentals ordinance.

PLUM Committee Members,

Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the vacation rentals ordinance. As we remain trapped in a pandemic, we need to use every available tool to keep people in housing and offer them housing units, we cannot afford to let people turn their housing into party houses that just spread COVID-19. We need permanent supportive housing and we need it now!

PLUM Committee Members,

The time has come for the LA City Council to acknowledge their role in the moral and ethical identity of the city. Never before has there been an opportunity for you to choose the side of right. If you allow a loophole for wealthy constituents in the short term rental ordinance, you will show yourselves to be lowly and unworthy of representing Angelinos who have been BEGGING

for your mercy. We all see you and will vote you out one by one if you refuse to get a grip on your priorities.

Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the vacation rentals ordinance! Do what is right.

From: Jennifer White <andreacalish1@gmail.com>
To: Clerk <cityclerk@lacity.org>
At: Thu, Nov 12, 2020 at 7:16 PM

Dear City Clerk,

My name is Jennifer and I have a vacation rental in H. I have been an LA Airbnb host for 6 years. I'm emailing to ask that you support the vacation rental ordinance with the changes recommended by the City Planning Commission.

Thank you for working towards allowing us to host. However, as written, the proposed ordinance removes the ability for LA residents like myself to utilize short-term rentals as a crucial economic lifeline, and instead benefits big hotels Paying a $850 permit fee to operate a vacation rental for 90 days a year would be particularly harmful to me. Yes, it was our only income. Me and my family will bankruptcy soon.

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

I love our community and want to see my city thrive by supporting local travel and small businesses without overly restrictive regulations. Vacation rentals have been a part of LA for decades, and they make it possible for many families to visit the city affordably.

PLEASE support the planning commission's recommendations and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards,
Jennifer White

Dear City Clerk,

My name is Samantha and I have a vacation rental in Venice beach.. I have been an LA Airbnb host for about 3 years now.. I'm emailing to ask that you support the vacation rental ordinance with the changes recommended by the City Planning Commission and schedule the next hearing as soon as possible.

Thank you for working towards allowing us to host. However, as written, the proposed ordinance removes the ability for LA residents like myself to utilize short-term rentals as a crucial economic lifeline, and instead benefits big hotels. Paying a $850 permit fee to operate a vacation rental for 90 days a year would be particularly harmful to me. It has impacted my income from my vacation rental massively as I can only do long term stays due to my building being under rent control, not only is it hard to find someone that wants to stay over a month but it's hard to reason a good price with renters due to the huge city tax that is added on to monthly price because it is done by percentage of what the renter is paying. Even if I could stick to doing monthly rentals I could make ends meet if I must but if I could only rent my place 90 days out of the year I would have to stop hosting completely and possible go into foreclosure because I won't be able to keep up with the bills and no one is long term renting right now due to the pandemic. Almost everyone on my street has already moved out. Not only that but I'm already getting fewer and fewer renters interested in my place because of the pandemic travel bans and I am located right by the beach in Venice and the homeless population and crime rate rises every single day, travelers are starting to catch on to how unsafe you let the conditions of our city get and pretty soon we will have no travelers in Venice or Santa Monica and all your tax payers will leave as well, most of them already have.

Airbnb hosts help support LA's tourism industry and generate critical economic activity. Visitors that stay at Airbnb listings help support small businesses in neighborhoods that have not traditionally benefited from the city's tourism economy, many of whom have been severely impacted by the pandemic.

I love our community and want to see my city thrive by supporting local travel and small businesses without overly restrictive regulations. Vacation rentals have been a part of LA for decades, and they make it possible for many families to visit the city affordably.

PLEASE schedule the next hearing for vacation rentals, support the planning commission's recommendations and work WITH us to develop sensible, balanced solutions that allow residents to share their vacation homes, protect the integrity of neighborhoods, and ensure hosts, guests, and communities across LA continue to receive the full economic benefits of short-term rentals.

Regards,
Samantha Santiago

At: Thu, Nov 12, 2020 at 6:45 PM

Dear PLUM Committee, Council President and Mayor Garcetti -

Please help me save my home. I am a part of an organization called Homeshare Alliance Los Angeles (HALA) that fights for fair regulation for the working-class mom and pop short term rental hosts. We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,
Alejandro Moreno
HALA Member

We are volunteer-based, grassroots, not affiliated or funded by any booking platforms and we desperately depend on the supplemental income from short term renting one secondary residence.

We support the passage of a Vacation Rental Ordinance that works for working-class hosts. However, the current version will allow only the privileged few to obtain permits. If passed into law, this ordinance would force thousands of Los Angeles homeowners to sell their property. In an incredibly expensive city like Los Angeles, residential mom and pop property owners are desperate to stabilize their property. This is especially true with the COVID-19 pandemic having left so many unemployed. Short-term rental income is the only source many HALA hosts have for income in this current economic climate. Short term renting one secondary residence can save someone from selling or foreclosure. There are thousands of us. Please consider recommending our changes to the CPC's Report. Not only do we hope to protect working-class hosts with our changes, we also hope to protect our wonderful neighborhoods with insightful suggestions for City Planning.

1) HALA asks the CPC for an ordinance name change from the city's "Vacation Rental Ordinance" (VRO) to "Secondary Residence Rental Ordinance" (SRRO).

The city needs to change the name. Vacation Rental does not include all the other host scenarios such as ADU, Duplex, Triplex, Fourplex, Condo owners. "Vacation" implies a different economic category whereas "Secondary Residence" is inclusive to many working-class property owners.

2) HALA asks the CPC for the Booking Night Cap to be 305 instead of the city draft of only 30 nights for short term rental bookings per calendar year.

These secondary residences are not available for long term rentals as they are used by the owners at least 60 days out of the year. Allowing the 305 nights of bookings will ensure the usage of these residences and positive effects on the local community.

3) HALA asks the CPC for Secondary Residences Rentals that are RSO (Rent Stabilized Ordinance) to be eligible for short term renting if they exist on a parcel with 4 or fewer dwelling units. The city wants to make them all ineligible for Secondary Residence Short Term Rental. We need to change this.

By allowing RSO secondary residence rentals on parcels with four or fewer dwellings to short term rent, an owner can stabilize their residential property. Think of the homeowner who could not afford a Single Family Home, and could only afford a duplex. The unit is used intermittently for personal use and it is not available for long term renting. They should be able to short term rent that secondary residence. Think of the Fourplex owner who has two units rented far under market value. They need to be able to short term rent one secondary residence in order to stabilize their property. The city wants to hold on to their RSO units! If they do not give owners the ability to short term rent one of their secondary units, they will be forced to sell, a developer will come and Ellis Act all the RSO units, turn it into luxury unaffordable condos and those RSO units will never return to the housing market. These particular RSO units on parcels of four or fewer dwellings are used intermittently by the owner for personal use and are not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year?

4) HALA asks the CPC to allow an owner who Ellis Acted a unit on a parcel with four or fewer dwellings to short term rent the unit if no tenants were in residence at the time of Ellis Act Filing. The City draft makes Ellis Acted Units ineligible for short term renting.

The unit that was Ellis Acted is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the unit vacant for most of the calendar year? It's an arbitrary disqualification and an unintended consequence for working-class hosts that have not removed any existing tenants.

5) HALA asks the CPC to allow an ADU that has been permitted prior to January 1, 2020, to be utilized as a secondary residence rental. The City Draft disqualifies them entirely.

Allowing an owner to short term rent their ADU truly stabilizes a working-class homeowner's ability to keep their property. (Only working-class homeowners have an ADU) In addition, allowing ADU's permitted prior to Jan 1, 2020, to short term rent as a secondary residence follows the California Law regarding ADU usage. The ADU is used intermittently by the owner for personal use and is not available as a long term rental. Why penalize these property owners and leave the ADU vacant for most of the calendar year?

6) HALA asks the CPC to grandfather in the hosts that were home-sharing ONE secondary residence and then place a cap at 1%. The city has written in the first draft an unreasonable cap of under 4000 for the entire Los Angeles. We need the CPC to protect all the existing hosts with a secondary residence.

There cannot be picking and choosing of who "wins" and gets to continue hosting their one secondary residence. The city needs to know that grandfathering in hosts that were home-sharing is reasonable and fair.

7) HALA asks the CPC to allow hosts to book two groups at one time per night. The City Draft allows only one.

By allowing two bookings per night, the host can actually have more guest quality control.

8) HALA asks PLUM to recommend stronger protections for neighborhoods.

a) Booking platforms must inform guests clearly prior to booking of city fines and fees regarding noise violations, nuisance violations, smoking in fire hazard zones, occupancy, and parking. Booking platforms must support and collect charges to guests if guests violate these city ordinances. This will help protect the neighborhood and host.

b) Booking platforms must revoke a guest's ability to review a host if the guest has broken a house rule regarding noise amplification, nuisance, parking, occupancy, or smoking. There are scenarios where a host will feel uncomfortable telling a guest to stop breaking a house rule, fearing a guest may leave a "retribution review" thus jeopardizing a host's "superhost" status resulting in fewer bookings. By removing the guest's ability to review, the host will have the freedom to act confidently when protecting the property and the neighboring community. It is a crucial edit that will support everyone in the secondary residence rental community.

9) HALA asks PLUM to ensure a landlord's secondary residence which has had a no-fault eviction or a harassment citation by a tenant within the past three years is ineligible for short-term renting. The City Draft does not have any specifications regarding this issue.

This would protect the tenant community from "bad actor" Hosts.

10) HALA asks PLUM to ensure that only a person can short term rent a secondary residence rental and not a corporation. The city has no insurances regarding this issue in its first draft.

Los Angeles needs to protect its housing stock from large corporations purchasing whole single-family homes and multi-unit properties in high multiples for commercial purposes and keep working-class property owners hosting.

11) HALA asks PLUM to ensure that City Planning takes a fair and reasonable fee of .5% per booked night and lowers the permitting fee to $195/yr. The new per night booking fee of $3.10 and the recommendations to raise registration fees are overly high - especially given how badly Planning is currently handling registration resulting in Hosts having their listings continually blocked even after paying the $850 Extended Home Sharing fee.

The working class host cannot be left vulnerable to high permit fees and per night booking fee amount. We need the fees to be appropriate to the amount a host charges per night and the yearly permit should match that of a reasonable amount like HCIDLA. A host's per night booking amounts vary per neighborhood etc and the City per night booking fee cannot be a flat dollar amount, nor can they be overly high fees. It is inappropriate for the city to continue to tax hosts with high per night booking fees when these hosts are working class and need the necessary income to survive. City Planning should not be given the power to incur egregious fees from hosts. HCIDLA only requires a yearly fee of $149 per RSO unit. City Planning should follow the same existing system of fees.

These are our asks. These recommendations to the Draft will save lives and save thousands of working-class homeowners.

Thank you for your consideration and thank you for all the service you do for our great city.

Sincerely,

HALA Member

PLUM Committee Members,

I am writing urging you to oppose the unnecessary, damaging vacation rental ordinance. Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the ordinance and protect our housing.

It is unconscionable that you would even be considering this measure during a pandemic that has depressed tourism in LA. We currently have thousands of vacant hotel rooms. Why would we need to convert housing stock into rooms for out of town guests when hotels, many subsidized by public money, sit empty? We do not have a crisis of tourists with nowhere to sleep. We have a crisis of poor and working class residents struggling to keep shelter, hundreds of thousands on the brink of eviction and 4 people dying on our streets every day. Act with urgency to help them instead!

I am a renter in Los Angeles, and it frustrates me that so many units have already been removed from the housing market due to conversion and demolition. Now the council is proposing removing even more units so that individuals can enrich themselves, while the 35,000+ people experiencing homelessness and untold thousands (like me) pay rents that are inflated due to an artificial lack of housing. This is outrageous! Please vote no on this bill!

PLUM Committee Members,

Hello,

As a tenant in a rent-controlled residence in Los Angeles, I firmly oppose any additional conversions of permanent housing into short-term vacation rentals. Los Angeles needs housing units desperately. Creating new incentives to take permanent housing off the market is wildly inappropriate at this time.

Please do NOT allow any more short-term rentals in Los Angeles. There should be no consideration of converting permanent housing into tourist traps until there are no unhoused individuals in Los Angeles & no families unable to afford housing.

Especially during a pandemic, the last thing we need is more people traveling here to bring additional COVID spread!

PLUM Committee Members,

I am writing urging you to oppose the unnecessary, damaging vacation rental ordinance. Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the ordinance and protect our housing.

PLUM Committee Members,

Hello,

I am writing urging you to oppose the unnecessary, damaging vacation rental ordinance.

As you are aware, thousands of units have been lost to short-term rentals while the housing crisis skyrockets. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve, especially during such a critical time dealing with Covid-19.

Please stop this ordinance and protect our housing. Thank you for your time.

PLUM Committee Members,

Dear Mayor Garcetti,

I am writing urging you to oppose the unnecessary, damaging vacation rental ordinance. Thousands of units have been lost to short-term rentals. The vacation rentals ordinance will undermine critical housing protections that Angelenos fought years to achieve. Please stop the ordinance and protect our housing.

As we enter a season of extraordinary risk for housing instability for Angelinos and Californians more broadly, it is unconscionable that we would so significantly reduce the supply of potential long term rentals. Please support the health and welfare of everyday Angelinos by halting the ordinance.

Regards,
Erin Arendse
