Comments for Public Posting: The Injustice of the Innocent & Voiceless! All animals deserve lives free from human-inflicted suffering. As the highest created being, humans have a moral obligation to be wise stewards of animals. Just because we happen to be the most powerful species on earth, we humans have the ability, but not the right, to abuse the so-called lower animals. The ends do NOT justify the means! We all know that there is something seriously wrong with a food system where the best day of an animals' life is the day that it is finally over! Every Living Creature deserves the Right to Live as Nature has intended! Not only do animal victims deserve to be free from abuse and neglect, but numerous studies show a correlation between animal cruelty and violence toward people—animal cruelty impacts community safety. If you have men who will exclude any of God's creatures from the shelter of compassion and pity, you will have men who will deal likewise with their fellow men.

Comments for Public Posting: STOP THE DOG AND CAT MEAT TRADE..... STOP IT, GET RID OF IT, END IT, MAKE IT PAST PAST PAST PAST HISTORY... STOP AND END IT ALL THE DOG CAT MEAT TRADE IN COURTIERS China, Vietnam, South Korea, Cambodia, and Indonesia and PARTS OF AFRICA AND OTHER COUNTRIES WHERE THEY HAVE DOG CAT MEAT TRADE AS THERE CULTURE... in such a cruel barbaric savage way.. NOT AS A COMPANION AND FRIEND.... This is so long over due... decades and decades and decades of dog cat meat trade... the savagery and barbaric consumption by this human element.. dogs and cats bodies physically torn apart and cooked alive and slaughtered alive and other animals seeing this happen right in front of there face see and hearing the screaming/screeching of torture ... END THIS DOG CAT MEAT TRADE.... ITS TIME FOR SURE !!!! These humans will SURVIVE SURVIVE WITHOUT EATING DOG CAT MEAT.... FOR SURE... YOU WILL SURVIVE .. I truly believe that the slaughtered tortured process of evil/cruelty/savagery/ is what these humans thrive off of... in the dog cat meat trade !!!!

Comments for Public Posting: I am writing about resolution 19-0002-S101. This is a request for the governments of China, Vietnam, South Korea, Cambodia, and Indonesia to ban the sale of dog meat and to create new animal protection laws and enforce existing ones. Dog meat consumption is sickening. Dogs do not deserve the cruel treatment where they are raised in sub-humane conditions and then tortured and slaughtered. Please work to make the world a more humane place and support the animal welfare groups in Asian countries working to rid their countries of this cruelty.

Comments for Public Posting: To the South Korean Government, My letter to you today is of great importance. I urge you please to ban the dog and cat meat trade and bring into your country animal cruelty rights for all animals. I urge you also to help China, Vietnam, Cambodia and Indonesia to do the same. Please, we cannot stand to watch any more barbaric cruelty to these loving and innocent animals any longer. There is a strong outcry in the rest of the world about this so horrific cruelty that these beautiful animals go through and suffer horrendously. No living being should ever go through such barbarism. We pleade with you to put yourselves in the animals positions... Believe me, after learning that these animals are boiled alive, I have difficulties when boiling food for myself and my family... No human has the right to torment and exploit any animal like this. PLEASE, show us that your country cares, we are counting on you and so are all these most beautiful, loving and compassionate animals. Mans' heart cannot be called human if he does not have a place for all animals in it... I thank you sincerely for your time and we applaud you in advance for this wonderful decision that we know you will make: To end the dog and cat meat trade forever! The world is waiting for this victorious day and we assure you that the world will look upon your nation with respect and honour! Thanking you once again. With respect, V.C

Comments for Public Posting: I am writing as part of the international effort to end the dog meat & cat meat trades in Asia. I am particularly interested in actions in the US because of the twinning/sister city links with South Korea, a country that is failing to educate many of its citizens to overcome their superstitious belief in the use of dogmeat to help humans during the hottest part of the year. To make things worse, you will know already that it is believed that the more the animal suffers the better its meat will be. This leads to gross acts of barbarism which any civilised country should be ashamed of. Unfortunately there are no serious attempts by the S Korean authorities to uphold their own laws re. dog meat farms. Others will have supplied you with more detailed information which I need not repeat, but please take all possible steps to reinforce the disgust felt by people around the world at the inhumane and mindless slaughter of millions of cats and dogs. This has nothing to do with culture or tradition as something to be venerated: we have kept quiet for too long about too many things, being afraid of being called cultural imperialists. This has no value if the tradition is not underpinned by genuine ethics which uphold the positive aspects of a community. Cruelty and superstition are negative and stop human progress. Asian countries that wish to carry on trading with other parts of the world should know that their country's name is blackened by association with cruelty, animal or human, and they face boycotts of their products, be it on a large scale or personal level. Thank you for your time.

Comments for Public Posting: Please support City Council Resolution CF-19-0002-S101, urging the governments of China, Vietnam, South Korea, Cambodia, and Indonesia to ban the sale of dog meat and to enact and enforce animal cruelty laws. These trusting and defenseless animals suffer extreme cruelty and torture until they eventually are killed in the most heart wrenching and sickening display of depraved human behavior towards animals. Please, these animals are our most loyal and loving companions and protectors. They provide us humans immeasurable benefits. They are partners to our military, first responders, search and rescue and law enforcement. Therapy dogs provide emotional and physical assistance to our disabled and our veterans. This is NOT the way to repay them. These animals feel pain, fear and suffering just like people. Last September the US House of Representatives passed HRes 401, a similar Resolution. It is well past time to put an end to this uncivilized atrocity. Thank you.

Comments for Public Posting: Please stop capturing, torturing and killing defenceless dogs who are sentient beings like you. They feel fear, pain and distress and the practice of stuffing dogs into tiny wire cages where they cannot breathe, move and are deprived of food and water while travelling is appalling. You then torture them to death. I have never heard of something so sickening and barbaric. You brutalise animals in order to tenderise meat by causing them immense fear and pain. This is inhumane behaviour, I urge you to stop and think about the suffering you are causing...how would you feel if it was you?.

Comments for Public Posting: Dear City Council Members, Hello. I hope this message finds you well. I am writing to encourage you to pass resolution 19-0002-S101 and help end the industrial-level brutality of the dog meat trade throughout asia. The scale and depth of suffering of theses animals cannot be overexagerated; millions of dogs (and cats) living daily in filth and then horrifically killed in front of other, waiting animals. The lucky ones die before they are cooked but many are not so fortunate as boiling or burning alive are not uncommon and is thought to enhance the "medicinal quality" of the meat. Please find it in your hearts to pass this resolution and take a major step towards ending this horrific cycle of cruelty. Thak youu for your time and consideration. Sincerely, Robert Stroud Perrysburg, Ohio

Comments for Public Posting: Please pass this resolution to end what is the most debased and inhuman acts that should make every human ashamed and horrified. As a person who has owned several dogs I am amazed at their ability to protect, serve, and love their human companions and families. They are intelligent creatures who know how to love. They provide lifesaving skills to those who cannot do on their own (e.g. for the blind, handicap, and those with other crippling diseases). They go to war and fight battles side by side by their human counterparts. They fight and help to capture criminals and protect the officers who protect us all. It is a travesty and horrific act of malice by humans to kill them in such barbaric ways for economic wealth through the dog meat trade. How can humans be so inhumane? It is absolutely disgusting, sickening, and heartbreaking to see the photos of their demise.

Comments for Public Posting: Barbaric sickening cruelty of a despicable level in a world evolving.. if china and asia wish to trade with the western world they should become the sophisticated nations that they appear to be, in the world of technology. How can such a fast developing continent still practice such cruel atrocities.. and be so ignorant and backward when it comes to living creatures with real feelings.. It makes me sick to my stomach that this backward practices still take place.. Use the trading power of America and England to stop this EVER happening again. Use trade sanctioning power to stop this awful disgusting inhuman practice. In an educated world it unbelievable beyond reason that this is still happening..

Comments for Public Posting: My comments concern Resolution 19-0002-S101, petitioning the countries of Southeast Asia to ban the sale of dog meat and enforce their animal cruelty laws. We all should be very proud of the South Korean activists who have taken the lead on this issue, and Los Angeles can take particular pride in the fact that its Councilmember David Ryu is not only South Korean but, as one of the most influential Korean American office holders in the country, is a firm supporter of the proposed resolution. His support is important and will not go unnoticed in South Korea. His fellow countrymen will know that he is sharing American values with them and that they can trust the merits of the resolution presented to them. The kindness and humanity of these South Korean activists to man's best friend puts the people of South Korea in a whole new and more favorable light which breaks down barriers between our countries, and the proposed resolution is an opportunity for Los Angeles to support these efforts both abroad and at home and, in doing so, to bring us closer to each other across the continents and unite us as we fight world-wide for a kinder, gentler world for companion animals who are so helpless, so loyal to us, serve us so well, and trust us so implicitly. Los Angeles is fortunate to have such a broad consensus of support across its Valley Alliance of Neighborhood Councils in support of this resolution and also to have such outstanding Councilmembers as Mr. Ryu and also Mr. Bob Blumenfield. Mr. Blumenfield, by the way, is gaining recognition across all 50 states among those of us fighting for animal rights. The dog meat markets are horrifying and need to be shut down, and our country's historic ties with South Korea are strong enough and carry enough respect that there is good hope for a favorable response, which will put South Korea in the lead on this issue. Of all cities in our country, none enjoy better ties with South Korea than does Los Angeles, in terms of trade, tourism, and sister cities and sister rivers, and having a thriving South Korea community as so honorably exemplified by Councilmember Ryu. Los Angeles is ideally positioned to take the lead here in America on this important issue. This is not a controversial issue, certainly not here in America, and the tide is turning in Southeast Asia as well, but no where more so than in South Korea. The timing of the proposed resolution could not be better, and it presents an

excellent opportunity for Los Angeles to speak for American values. Many people both here and the world over have worked very hard for a very long time to bring the matter to this turning point, and they now lay all their hard work at the feet of the Los Angeles city council, with a request to carry it over the goal line. Please, listen to your VANC communities and to your fellow Councilmembers and unanimously PASS Resolution 19-0002-S101. Kathleen Konicki

Comments for Public Posting: Please help end this cruel and evil practice. Man's best friends don't deserve this brutal horror inflicted on them by those they trust and treat with unconditional love. No animals deserve to live and die under such unspeakable cruelty, especially the animals that have been serving the human race for thousands of years and are serving us today in the military, as service dogs for the disabled, veterans with PTSD, sick children in hospitals, as earthquake and other natural disaster rescue team members, as invaluable partners to our peace officers and ,of course, as loving family members to millions of families around the world. They deserve our compassion and protection. Please help put an end to the ultimate betrayal of these amazing innocent beings! Thank you for being their voice!

Comments for Public Posting: The intentional and intense torture of dogs before or during a prolonged process of their slaughter in the dog meat industry is, by far, the most troubling issue that concerns me. Accordingly, I strongly support the resolution 19-0002-S101 asking the governments of China, Vietnam, South Korea, Cambodia, and Indonesia to ban the sale of dog meat and to enforce their animal protection laws. I hope you will also consider adding Laos and the Philippines to your list of animal torturers. Please accept my heartfelt gratitude for working to stop this cruelty!

Comments for Public Posting: I am writing to let you know that I am in complete support of the City Council Resolution CF 19-0002-S101 which calls upon the government's of China, Vietnam, South Korea, Indonesia and Cambodia to ban the sale of dog meat (hopefully cat meat too) and to enforce their animal cruelty laws. I have been fighting against this abhorrent trade for years and have gone to Washington DC numerous times to speak with Congress members to support a similar Resolution introduced by Congressman Hastings which urges all dog and cat meat eating nations to ban their trade and to enforce existing laws against the trade. It passed in September 2018. This trade has received worldwide condemnation. Its not only a crime against humanity but an abomination to all. We must use every avenue we have to abolish this barbarism once and for all.

Comments for Public Posting: Please pass the Resolution introduced by Bob Blumenfield to end the horrific dog meat trade in South Korea, China, and all Asian Countries. Dogs are loyal, trusting animals that only want to be loved. These companion animals suffer a desperate, sad, lonely, tortuous life from the moment they are born until they are killed in a most sadistic, barbaric way. They live in fear, pain and suffering all of the time. The dog and cat meat trades are horrifically abusive. The animals are literally tortured to death. They are often blow-torched, boiled alive and even skinned alive. The suffering these animals have to endure is beyond comprehension. We must do all we can to help end this atrocity. Thank you !!!

Comments for Public Posting: I live in UK ????, I am begging you to please STOP this barbaric cruel torture of these innocent dogs , it's horrific cruelty and it's heartbreaking ????, dogs are pets , man domesticated dogs centuries ago and brought them into our homes and they become part of your family , iv watched all the graphic videos of the sadistic cruelty these dogs suffer !!!! It's evil and it HURTS my heart and soul so much ,it is traumatic !!! i pray every night especially when South Korea has the dog yulin festival,it's not a "FESTIVAL" it's is sadistic!!! How can torture like that make r nation happy !! Festival is ment to be a happy time ! , but to millions of people all over the world it's horrific Cruelty,!!! It doesn't look good on South Korea ???? or its people !! I'm just a woman who has so much love and compassion for dogs but I'm still ASKING/BEGGING you to LISTEN to my voice (dogs don't have a voice but just look into there eyes and see the suffering that your people inflict on these innocent souls) and PLEASE STOP/BAN this horrific cruel trade ! , thank you ????

Comments for Public Posting: PLEASE END THE DOG & CAT MEAT TRADES This atrocity has gone on for too long. Please stop this cruelty. Lead the way for others to follow suit. Dogs are family not food. Dogs and cats are helpers not food. Many have the mentality of toddler children. Please stop this. We pray everyday for change, please be the change this cause so desperately needs.

Comments for Public Posting: I pray God's blessing on all the members of the Los Angeles City Council for their hearts of compassion and mercy. Your construction of resolution 19-0002-S101, calling for an end to all the barbaric, atrocious, ungodly torture and consumption of dogs and cats, is a true work of love. I strongly back resolution 19-0002-S101 and join my voice to yours to force an end to the dog, cat and horse meat trade around the world. As a vegetarian, I abhor the consumption of another living being, any living being. Mankind has NO RIGHT to horrendously abuse any living creature, even those barbarically seed into this world only to die. Further more, it is nothing less than barbaric and ungodly to cruelly and perversely torture those living beings while killing them with a great deal of unnecessary violent savagery. Their lives are made a pure hell until the day they are butchered even those barbarically seeded into this world only to die. And for what — to satisfy vile lustful appetites, financial gain, perverted pleasure or tradition. The need to eat docile, loyal dogs, cats and horses goes beyond reprehensible. What is being done to these beautiful animals is atrocious and must be stopped NOW, once and for all - world wide. Again, I strongly support the resolution 19-0002-S101 asking the governments of China, Vietnam, South Korea, Cambodia, and Indonesia to ban the sale of dog meat and to enforce their animal protection laws. Thank you for working to stop this cruelty!

Comments for Public Posting: I am an animal advocate and support the resolution asking the governments of China, Vietnam, South Korea, Cambodia, and Indonesia to ban the sale of dog meat and to enforce their animal cruelty laws. This is the most inhumane cruelty I know of due to the torture of these animals. I have given to a lot of organizations to stop this atrocity and part of the problem is the culture we are dealing with as well as the fact that a lot of these people are starving. I support anything that can be done to change this practice and did not even know they had animal cruelty laws. Are the dogs and cat listed as livestock and therefore seen as food sources? The torture of them before and during their slaughter is appalling. Please support this resolution as this cultural belief has gone on too long and these animals have suffered enough. Their laws must change for a new generation to know that this is wrong to do this to any animal.

Comments for Public Posting: Sincere thanks to those on the LA Council who assisted in bringing this vile industry to the world's attention. We in Australia are also pressing for these barbaric and uncivilised countries to heed the demand to join the 21st century. Some traditions simply MUST be outlawed - we don't feed Christians to the lions anymore! China, in particular, is particularly unpalatable in the fact that it employs no animal welfare laws at all. The fact that we have to implore these primitive countries to stop this brutal torture is appalling. We purchase the cars and white goods they manufacture for us yet they kill our pets. Thank you again to the LA Council for passing this motion. We will never stop protesting this abominable cruelty, which brings such unparalleled sorrow to so many of the world's citizens.

Comments for Public Posting: I support the resolution asking the governments of China, Vietnam, South Korea, Cambodia, and Indonesia to ban the sale of dog meat and to enforce their animal cruelty laws. I am an animal advocate and give to a lot of organizations to stop this inhumane torture and consumption of animals. The culture must be addressed that it is no longer okay to eat these animals; and the conditions and torture that these animals have to endure is the most appalling I have ever seen and totally unnecessary. The laws need to change if these animals dogs and cats are listed as livestock and therefore considered a food source. I did not even know that they had animal cruelty laws and why these animals are not part of this law means they don't follow their laws and statutes for dogs and cats. The new generation must change the ways of the culture and that takes time. The quickest way is to change the laws and apply political pressure on them to stop. I applaud your efforts.

Comments for Public Posting: Please do everything in your power to stop this annual atrocity. I've been monitoring this issue for years and signing petitions, and I'm hoping next year this time, that I can finally breath a sigh of relief for these poor animals that are stolen from their homes and off the streets. Innocent, loving creatures that were put on this earth to love us, have been deceived and tortured by the same people they're supposed to show unconditional love to. Please do everything you can.

Comments for Public Posting: I would like to see an end to the barbaric dog meat trade, it is appalling that these poor animals are treated in this horrendous way, we are living in the 21st century for goodness sake not the medieval times when there was ignorance to understanding that these poor animals have feelings and suffer pain the same as human beings do. Dogs are used by humans the world over to help us, with there help the blind can see, the deaf can here, they find the lost or the trapped after natural disasters, they detect land mines and bombs, they stop drugs entering borders, they catch felons, they detect diseases, there help to us is endless, they are our hero's and as such should be treated with love, respect, kindness and gratitude, not cruelty pain and suffering. Please end it now. Regards, Jo Hammond

Comments for Public Posting: This pending City Council resolution grew out of a resolution passed by the Valley Alliance of Neighborhood Councils (VANC), which consists of representatives of all 34 Neighborhood Councils in the San Fernando Valley. The VANC resolution has additional information regarding the dog meat trade, including links to videos showing what happens to these poor dogs. (See addendum below for more information regarding the VANC Resolution. Warning: The videos are very graphic and disturbing.) The VANC resolution is focused on the South Korean dog meat trade because I think South Korea, which is a close friend and ally of the United States, will be most receptive to our pleas to save these dogs. South Korea has very close ties to Los Angeles – there is a tremendous amount of trade and tourism between Los Angeles and South Korea; we have a sister city, Busan, and even a sister river, the Cheonggyecheon; and South Korea is a democracy that will listen to its citizens who are animal rights advocates. And we have Councilmember Ryu supporting this. In fact, South Korea's National Assembly (legislature) is currently considering this matter. South Korea can be the leader in abolishing the dog meat trade in Asia. As stated in the VANC Resolution: “The United States is spending billions of dollars, and our military personnel are putting their lives on the line, to assist our ally South Korea in deterring invasion or nuclear attack from the North. Tens of thousands of Americans died in the Korean War, and tens of thousands were wounded, protecting South Korea. Dogs serve in our armed forces and alongside our First Responders. Dogs are instrumental in working with returning Veterans with PTSD. We respectfully request that our ally South Korea stop killing and torturing dogs, a practice which is abhorrent to the vast majority of Americans.” Please see VANC Letters and Resolution here.

<https://fightdogmeat.com/videos-south-korea-graphic/> Thank you to VANC Chair and Founder Jill Banks Barad, the entire Executive Board of VANC, and VANC representatives for their strong support of this resolution. The resolution passed almost unanimously, with only one negative vote and one abstention. What can we do now to help stop the dog meat trade? This is the easiest and least time-consuming thing to do now to help stop the dog meat trade: Submit comments in support of the City Council

Resolution. The easiest way to do this is by going to this website. The website contains a form which allows you to type your comments to the City Council, which are then posted in the City Council File. The Council File number for this resolution is 19-0002-S101; make sure you include the Council File number when you fill out the on-line form. I support the resolution asking the governments of China, Vietnam, South Korea, Cambodia, and Indonesia to ban the sale of dog meat and to enforce their animal cruelty laws. Submitting a comment on this website is the easiest way to convey your support of this resolution to all City Council Members. Thank you for your time and consideration.

December 14, 2018

Honorable Bob Blumenfield, Los Angeles City Councilmember
Los Angeles City Hall, 200 North Spring Street, Los Angeles CA 90012

Re: South Korean Dog Meat Trade

Dear Councilmember Blumenfield:

As you know, the Valley Alliance of Neighborhood Councils (VANC) consists of representatives of all 34 Neighborhood Councils in the San Fernando Valley, including Neighborhood Councils in your district. At its monthly meeting on August 9, 2018, VANC passed a resolution regarding the following:

Approximately one to two million dogs are killed for food every year in South Korea. Prior to their deaths, these dogs endure a lifetime of abuse and are often slaughtered in a completely inhumane and brutal manner. As stated by the Animal Welfare Institute: "From birth to slaughter, these dogs are kept in cramped, rusty cages stacked on top of each other. The method of slaughter is usually extremely (and even intentionally) brutal, and the dogs are often butchered in full view of the others."

"Most horrifically—due to a traditional belief that high adrenaline levels will produce tender meat and increase the supposed health benefits—dogs who are killed may be intentionally subjected to extreme fear and suffering and be killed via bludgeoning, hanging, or electrocution. At the open-air markets, dogs are often electrocuted and their necks are broken—all in plain sight to passers-by and the other dogs." Additional information regarding the South Korean Dog Meat Trade is attached.

The United States is spending billions of dollars, and our military personnel are putting their lives on the line, to assist our ally South Korea in deterring invasion or nuclear attack from the North. Tens of thousands of Americans died in the Korean War, and tens of thousands were wounded, protecting South Korea. Dogs serve in our armed forces and alongside our First Responders. Dogs are instrumental in working with returning Veterans with PTSD. We respectfully request that our ally South Korea stop killing and torturing dogs, a practice which is abhorrent to the vast majority of Americans.

Therefore, at its regular public monthly meeting on August 9, 2018, the Valley Alliance of Neighborhood Councils passed a Resolution requesting that you and the other San Fernando Valley Councilmembers introduce a motion in the Los Angeles City Council opposing the South Korean dog meat trade and asking the South Korean government to ban the dog meat trade and enforce South Korea's animal cruelty laws.

Sincerely, Jeffrey Mausner, VANC Liaison to L.A. Animal Services

Re: South Korean Dog Meat Trade

Dear Councilmember Koretz:

As you know, the Valley Alliance of Neighborhood Councils (VANC) consists of representatives of all 34 Neighborhood Councils in the San Fernando Valley, including Neighborhood Councils in your district. At its monthly meeting on August 9, 2018, VANC passed a resolution regarding the following:

Approximately one to two million dogs are killed for food every year in South Korea. Prior to their deaths, these dogs endure a lifetime of abuse and are often slaughtered in a completely inhumane and brutal manner. As stated by the Animal Welfare Institute: "From birth to slaughter, these dogs are kept in cramped, rusty cages stacked on top of each other. The method of slaughter is usually extremely (and even intentionally) brutal, and the dogs are often butchered in full view of the others."

"Most horrifically—due to a traditional belief that high adrenaline levels will produce tender meat and increase the supposed health benefits—dogs who are killed may be intentionally subjected to extreme fear and suffering and be killed via bludgeoning, hanging, or electrocution. At the open-air markets, dogs are often electrocuted and their necks are broken—all in plain sight to passers-by and the other dogs." Additional information regarding the South Korean Dog Meat Trade is attached.

The United States is spending billions of dollars, and our military personnel are putting their lives on the line, to assist our ally South Korea in deterring invasion or nuclear attack from the North. Tens of thousands of Americans died in the Korean War, and tens of thousands were wounded, protecting South Korea. Dogs serve in our armed forces and alongside our First Responders. Dogs are instrumental in working with returning Veterans with PTSD. We respectfully request that our ally South Korea stop killing and torturing dogs, a practice which is abhorrent to the vast majority of Americans.

Therefore, at its regular public monthly meeting on August 9, 2018, the Valley Alliance of Neighborhood Councils passed a Resolution requesting that you and the other San Fernando Valley Councilmembers introduce a motion in the Los Angeles City Council opposing the South Korean dog meat trade and asking the South Korean government to ban the dog meat trade and enforce South Korea's animal cruelty laws.

Sincerely, Jeffrey Mausner, VANC Liaison to L.A. Animal Services

Information Regarding the South Korean Dog Meat Trade

According to the Animal Welfare Institute (AWI) and other sources, approximately one to two million dogs are killed for food every year in South Korea. Prior to their deaths, these dogs endure a lifetime of abuse and are often slaughtered in a completely inhumane and brutal manner. As stated by AWI: “From birth to slaughter, these dogs are kept in cramped, rusty cages stacked on top of each other. The method of slaughter is usually extremely (and even intentionally) brutal, and the dogs are often butchered in full view of the others.”

“Most horrifically—due to a traditional belief that high adrenaline levels will produce tender meat and increase the supposed health benefits—dogs who are killed may be intentionally subjected to extreme fear and suffering and be killed via bludgeoning, hanging, or electrocution. At the open-air markets, dogs are often electrocuted and their necks are broken—all in plain sight to passers-by and the other dogs.”

Comments for Public Posting: I strongly support the Resolution by the City of Los Angeles Council regarding dog meat and animal cruelty in S. Korea, China , Vietnam, Indonesia and Cambodia. Dog and cat meat in these Countries are the most disturbing and cruel, because these poor animals are tortured before being brutally killed. Dogs and cats are the man's best friends and loyal, intelligent companion and should never be considered as meat for human consumption. This unspeakable horror must end.

Comments for Public Posting: 07/01/2019 I support the resolution of the Mayor of Los Angeles and the City Council to request that South Korea, China and other Asian countries stop torturing dogs and cats for food. Why? Dogs are companions to people. Dogs visit sick people in hospitals. Dogs help walk blind people. Dogs help the military and law enforcement. Dogs feel pain and dream in their sleep. Dogs are NOT food.

Comments for Public Posting: Dear Council Members, I know you must be busy voting on all sorts of various things but please find it in your hearts to take this seriously and to do something to combat the dog and cat meat trade in various Asian countries. Millions of dogs and cats are tortured profanely before they are killed for a meal every year across Asia. They are blow-torched, limbs cut off whilst still alive, they are impaled... every barbaric form of torture is introduced because those involved claim that the fear and adrenaline makes the meat tastier. Citizens pets are even stolen right out from under them to be doomed to this fate also. Imagine if this happened to your beloved family pet. This kind of cruel and inhumane treatment to animals is something right out of a hellish nightmare, and it sickens and astonishes me that it is allowed to be practiced and continued. I've seen the pictures and video footage and it haunts me. This should not be happening in our modern world today. It makes Humanity look like nothing more than a race of monsters if we don't do something to stop this. Sincerely and Thank You, Melissa Vitale

Comments for Public Posting: The dog meat trade adopts cruel, abhorrent torture methods that no animal should endure. Imagine if it were your dog, cat or child being treated like this, put through excruciating torture before being consumed. It is only through international intervention, placing pressure on Chinese, Vietnamese, South Korean, Cambodian and Indonesian governments and educating them that change will ever become a realistic prospect.

Comments for Public Posting: I strongly support the resolution 19-0002-S101 asking the governments of China, Vietnam, South Korea, Cambodia, and Indonesia to ban the sale of dog meat and to enforce their animal protection laws. Please, please, please stop this inhumane, horrific, disgusting, despicable act against innocent animals. This is barbaric beyond words. No living creature should be subjected to such pain and suffering, especially dogs, with whom we have had a bond since the beginning of life. They are, and always have been, part of our human family and they feel fear and pain just like humans. Dogs deserve our love, devotion and gratitude. They are loyal to us and all they want is to love and be loved by humans. People who perform this horror upon dogs and cats are monsters and are devoid of compassion and kindness. This whole dog meat things is sickening beyond description and needs to stop NOW!! Not one more precious, helpless dog should be sacrificed for this disgusting practice.

Comments for Public Posting: I grew up in Santa Monica, went to UCLA, and spent my working career at the LA Times, California Sports and SportsWorks. My wife and I now live in the country in Kansas, frequently traveling bakck to LA to spend time with family. As submitting this comment shows, I hope, we continue to care about and support the city and metro area. Farming dogs and cats for meat is evil. If we wish to make a positive impact on Earth, we must do what we can to act. This is an important opportunity for the City Council to show that Americans truly are good; that we have strong moral values; and to transcend short-term considerations and set a precedent for moral conduct. I urge council members to pass 19-0002-S101 asking China, Vietnam, both Koreas, Cambodia and Indonesia, as well as the rest of the world, to ban dog and cat farming and the sale of their meat. Thank you for considering my comment. Steve Hohensee

Comments for Public Posting: I support the Resolution to Urge South Korea, China, Cambodia, Indonesia and all Other Nations to Ban the Dog Cat Meat Trade and Enforce their own Animal Cruelty Laws. The dog/cat meat trade continues to cause a social media firestorm (and global outrage), as new videos emerge daily of cruelty (and thuggery) against our dearest companion animals. The dog/cat meat trade should not have a legal pass or economic gain, with it's trade of barbaric torture and trafficking (of cats and dogs), most who are stolen pets. The dogs and cats are dismembered, cooked-alive, skinned-alive, blow-torched, drowned, boiled-alive and beaten to death. No trade (in the world) should be allowed to put any sentient being, through so much agony. The dog cat meat trade, has brought a community of individuals (from around the world), to work as one force, to a be a voice for the (countless) animals who suffer and die everyday. It's time for this atrocity to end! I myself have a petition, with 123k signatures, (from people around the world), who agree.
<https://www.thepetitionsite.com/300/276/965/ban-blowtorch-use-on-animals-in-china/>

Comments for Public Posting: Los Angeles City Council urging the governments of China, Vietnam, S. Korea, Cambodia, and Indonesia to ban the sale of dog meat and to enforce their animal cruelty laws. I urge you to support the resolution (CF: 19-0002-S101). The dog meat trade is horrific and needs to end. Each year, around 30 million dogs are slaughtered and eaten in Asia, including Korea, China, Indonesia and Vietnam. In South Korea alone, it is estimated that, annually, 2.5 million dogs and thousands of cats are brutally slaughtered and eaten.

Comments for Public Posting: Please pass the resolution asking Asian countries to ban the sale of dog and cat meat and to enforce animal cruelty laws. Millions of helpless dogs and cats are tortured ruthlessly as a form of entertainment before they're killed and eaten. If we don't speak out against that, then what can we speak out against. If you become aware of evil and do nothing, then you become part of the evil and support it. We must speak out in defense of those helpless, voiceless souls suffering mercilessly.

Comments for Public Posting: According to the Animal Welfare Institute and other sources, one to two million dogs are killed for food every year in South Korea. Prior to their deaths, these dogs endure a lifetime of abuse and are often slaughtered in a completely inhumane and brutal manner. As stated by AWI "From birth to slaughter, these dogs are kept in cramped, rush, cages stacked on top of each other. The method of slaughter is usually extremely brutal, and the dogs (and cats) are often butchered in full view of the others. "Most horrifically--due to a traditional belief that high adrenaline levels will produce tender meat and increase the supposed health benefits--dogs who are killed intentionally subjected to extreme fear and suffering and be killed via bludgeoning, hanging, or electrocution. At the open-air markets, dogs are often electrocuted and their necks are broken--all in plain sight to passers-by and the other dogs." I support the resolution asking the governments of China, Vietman, South Korea, Cambodia, and Indonesia to ban the sale of dog and cat meat and to enforce their animal cruelty laws.

Comments for Public Posting: I am writing to you today on behalf of animal lovers who are against animal suffering, and to take a stand for the millions of dogs and cats who are victims of the dog and cat meat trade. For a safer society we all have a duty to bring to an end human activities which encourage indifference to suffering, in industries such as the dog meat trade. Ending animal cruelty is about the values we cherish and want to instill in our children, for future generations. I respectfully asks you to implement and enforce animal protection laws, and bring a total ban to it's dog and cat meat trade. For no living being on this earth deserves an existence of torture. Forced to endure extreme deprivation and unimaginable torment, from the day of their birth to the day of their death. These suffering dogs and cats are entitled to a decent and peaceful end of life just like any other species.

Comments for Public Posting: Dear Korean Government Officials: As an American citizen, I am angry and appalled over the torture and consumption of companion animals in South Korea. Every day on social media we are hearing of horrific abuse and seeing shocking images and videos of innocent dogs being tortured and killed in your country. Even though Korea has an Animal Protection Law for companion animals, it is meaningless as the Korean government does not enforce it. As consequence dogs are still beaten, hung, electrocuted, and brutally treated by farmers and slaughterers. In addition, both dogs and cats are still being boiled alive for so-called elixirs having no medical properties except in the minds of gullible customers. These practices have no place in the modern world. Yet, all this goes on in the open and the Korean government does nothing to stop it. Why? Other Asian countries have banned the eating of dog meat and the cruel industry that promotes it. Why not Korea? It is the responsibility of the Korean government to end the abhorrently cruel dog meat and cat medicine industries in Korea and start taking animal welfare seriously. This means educating its citizens about the importance of spaying and neutering, about not abandoning pets, and about treating animals humanely. Until these things are done Korea's reputation in the international community will deservedly suffer. Americans love their companion animals, dogs and cats alike. But it is not only for that reason we feel a special obligation to speak out on this issue. It is also that we remember well our many loved ones whose lives were sacrificed in your country ensuring your freedom and are mindful of the considerable treasure our country continues to spend for that same purpose. We can only pray that so much sacrifice has been worth the cost. Until the illegal dog meat and cat medicine industries have been finally abolished in Korea, I will boycott all Korean products and companies. I also intend to urge everyone I know to urge everyone they know, etc. to do the same. In addition, I will unceasingly lobby our own government to do whatever is within its power to persuade Korea to join the civilized nations of the world with respect to its treatment of companion animals. Thank you for your time. The favor of your reply is requested. Sincerely, Afsaneh Rahmani

Comments for Public Posting: Please, end the brutality and superstitious belief that bludgeoned dog meat gives some form of ludicrous strength & power. This is the 21st century and we do not want our youth learning, being exposed to and apart of inhumane, barbaric acts of cruelty towards animals that we have grown up loving and pampering, some as children (for those of us who don't have) it is inhumane & the World is watching. We will not continue to tolerate such primitive ways of thinking & barbaric acts of cruelty towards dogs & cats. I implore you to see the horror in what is happening & put a stop to the dog meat trade & all its festivals once & for all!

Comments for Public Posting: I strongly endorse Council File Number 19-0002-S101 urging S. Korea, China, & other nations to ban the sale of dog meat. While I have no desire to dictate how other nations handle their internal affairs, nor do I overlook the many issues of animal welfare in the United States, I believe that we have a moral imperative to prevent egregious and excessive suffering not just of other humans but animals as well. In the case of dogs (and other domestic and wild animals), consciousness and the awareness of pain and suffering is well documented. Sadly, the attitude toward animal suffering in many countries is primitive and takes no heed to the pain inflicted, often for unfounded, outdated or purely non-existent benefits. Again, I strongly endorse the goals of Council File number 19-0002-S101. Thank you.

Comments for Public Posting: Hello, I support the below resolution introduced by the Los Angeles City Council on 6/5 asking the governments of China, Vietnam, S. Korea, Cambodia & Indonesia to Ban the Sale Of Dog Meat & To Enforce Existing Animal Cruelty Laws:
http://clkrep.lacity.org/onlinedocs/2019/19-0002-S101_reso_06-05-2019.pdf
Millions of Dogs are killed in these countries each year for Human Consumption. Many are intentionally tortured and many are stolen pets. As I write this China's YULIN Dog Eating Festival is occurring. During the 10 Days alone approximately 10,000 dogs (and Cats) will be killed for Human Consumption. While the practice of eating dogs goes back in Chinese history the festival itself was started in 2010 to increase dying sales of dog meat and is therefore Not Culture. I hope you will support this important resolution. Thank you, Angela Willmes Sent from my iPhone

Council File No: 19-0002-S101

Comments for Public Posting: I strongly support resolution 19-0002-S101, which demands the governments of China, Vietnam, South Korea, Cambodia and Indonesia ban the sale of dog meat and enforce animal protection and anti-cruelty laws. My understanding is similar practices are condoned and commonly take place in Bali and the Philippines. I would also like to suggest that your resolution include a ban on the sale of cat meat in these nations as well. Like dogs, cats in the above-mentioned countries are callously and brutally tortured and murdered for food. Most of the cats captured are companion animals who end up in Asian food markets due to a lack of governmental protection and oversight. The time for Asian countries to eliminate the torture and killing of domesticated animals in the name of "culture" and "tradition" is LONG OVERDUE. Thank you for your leadership on this issue. Please continue working diligently to bring a permanent end to the consumption of companion animals in nations across the world.
Sincerely, Michelle Sabinovic

Comments for Public Posting: Dear Madam, dear Sir, Thank you so much for asking the governments of China, Vietnam, South Korea, Cambodia, and Indonesia to ban the sale of dog meat and to enforce their animal cruelty laws (or rather to implement any!)! The dog and cat meat trade, that shame for mankind, that crime against humanity, cannot be tolerated, there is so much pain and agony inflicted on those poor animals, that every decent human being has to stand up against it! Thank you for joining the band of thousands of animal rights activists from all over the world trying to put an end to that brutal murdering of defenseless victims! For all animals! Yours faithfully, Barbara Schwarz from Germany PS: Perhaps you might also like to support this animal welfare petition addressed to the United Nations or make its aims your own? <https://www.change.org/p/the-united-nations-is-to-outlaw-crimes-against-humanity>

Comments for Public Posting: YES!!!! I SOOOO support the resolution asking the governments of China, Vietnam, South Korea, Cambodia and Indonesia to BAN the sale of dog meat and to ENFORCE their animal cruelty laws. YESYESYES!!!! Lets PROGRESS shall we to a kinder and more empathetic and compassionate world where the lives with the purest souls (animals, dogs) are not treated like evil creatures from hell but are actually respected more so and treated BETTER then the human garbage that fill our prisons such as rapists, murderers and serial killers. Why does human garbage get more respect in their prison cell then these innocent dogs whose only crime was in being BORN???? Can somebody answer that for me??? Why isn't the torture and brutal killing of these millions of helpless dogs considered MURDER??? And why is no one ACCOUNTABLE???? WHYWHYWHY????? What do these millions of dogs do every year to deserve such extreme and horrific disrespect????? Dogs are HEROES, they are POLICE, they SAVE LIVES!!!! They are companion animals for people with emotional disorders and the BLIND!!!! They were at 9-11 at the search and rescue for months trying to sniff out remains!!! They are highly intelligent, sensitive, devoted, unconditionally loving, they fear, they feel, they are warm blooded beings that bleed red just like humans, they are BEAUTIFUL and PRECIOUS creatures from God!! They are FAMILY and THIS woman's bestfriend and I would die for my dog!!!! And I'm not alone!!! Many dog owners adore and spoil their dogs rotten!! They buy the most expensive food, they take them to doggy day care or doggy spas, they exercise them daily to keep them happy and fit, they treat them like family as it should be when you love your dog. I think Gandhi said it best," The greatness of a nation and its moral progress can be judged by the way its animals are treated". I don't know how these horrible humans sleep at night with all that blood on their hands, the bloody memories, the brutality of it all, the animal suffering, those terrified dog eyes staring at them, I mean, are they not human?? No conscience?? Its a pay check?? Its a sick pleasure?? This is their job 5 days a week ?? Good lord I better end now. I SUPPORT THE RESOLUTION!!!!

Comments for Public Posting: How can anyone with a soul look into these poor animals eyes and do what they do? why torture them? Why so horrific? ... I don't know what's wrong with the world, we are killing the planet and slowly torturing everything on it , all for what? I understand hunger and the need to eat anything that maybe available to you. It's the horrific way they do it. What is the next generation that watch this going to be doing next? .. My heart feels heavy and I feel ashamed to be part of the human race at times. We can just hope and pray something will be done ??

Comments for Public Posting: I implore you to demand the governments of China, Vietnam, South Korea, Cambodia, and Indonesia to ban the sale of dog meat and to enforce their animal cruelty laws in support of Councilmember Bob Blumenfield and Councilmember David Ryu, one of the most influential Korean American office holders in the country." South Korea's "very close ties to Los Angeles" and the Los Angeles sister city - Busan. We have campaigned to urge Los Angeles to speak out against the cruelty of its sister city and other friendship cities in Korea. Click [HERE](#) to see our campaigns. According to the Animal Welfare Institute (AWI) and other sources, approximately one to two million dogs are killed for food every year in South Korea. Prior to their deaths, these dogs endure a lifetime of abuse and are often slaughtered in a completely inhumane and brutal manner. As stated by AWI: "From birth to slaughter, these dogs are kept in cramped, rusty cages stacked on top of each other. The method of slaughter is usually extremely (and even intentionally) brutal, and the dogs are often butchered in full view of the others." "Most horrifically—due to a traditional belief that high adrenaline levels will produce tender meat and increase the supposed health benefits—dogs who are killed may be intentionally subjected to extreme fear and suffering and be killed via bludgeoning, hanging, or electrocution. At the open-air markets, dogs are often electrocuted and their necks are broken—all in plain sight to passers-by and the other dogs."

Comments for Public Posting: Please help to stop the dog and cat meat trade! South Korea allows the torture of thousands of innocent dogs and cats in their dog and cat meat industry. Please, don't let the Koreans continue this vile and cruel practice. Photos show the dogs crushed into cages on their way to markets to be beaten and then cut open while alive is unthinkable and not worthy of human beings. The dogs eyes show hopelessness and their intelligence of what lies ahead. Pain and pain leading to death. They've only known subjugation and poor conditions. This is not how any animal should be treated let alone the intelligent, sensitive beings who most humans share their lives with, dogs and cats. "On June 5, a resolution was introduced in the Los Angeles City Council, asking the governments of China, Vietnam, South Korea, Cambodia, and Indonesia to ban the sale of dog meat and to enforce their animal cruelty laws. The resolution was introduced by Council member Bob Blumenfield, a very strong advocate for animal welfare, and seconded by Council member David Ryu, one of the most influential Korean American office holders in the country." Mr. Mausner reported that "This pending City Council resolution grew out of a resolution passed by the Valley Alliance of Neighborhood Councils (VANC), which consists of representatives of all 34 Neighborhood Councils in the San Fernando Valley." He also mentioned South Korea's "very close ties to Los Angeles" and the Los Angeles sister city - Busan. Please vote to stop this practice of dog and cat meat trades based in pain, suffering and horror for innocent animals. Francine Dolins, Ph.D. Ann Arbor, Michigan

Comments for Public Posting: I would like to express my wholehearted support for resolution CF 19-0002-S101 introduced by Council member Bob Blumenfield and seconded by Council member David Ryu. Los Angeles is in a unique position via its considerable ties with South Korea to bring about the end of the dog meat trade in the country. This will hopefully trigger societal change in surrounding countries (China, Vietnam, South Korea, Cambodia and Indonesia) that together brutally kill up to 28 million dogs a year for food. Even if these dogs are 'lucky' and are not killed by torture (blowtorch, hanging) in the belief that it makes their flesh more tender, the conditions they are kept in are hell on earth. In these sweltering countries they are crammed in cages that are thrown in and out of trucks with no regard for trapped limbs or space to move. Sometimes travelling for days at a time, their mouths are often taped shut so they effectively cook from the inside out - dying from heatstroke in transit - a painful but merciful release considering the alternative. If they make it to market they are either starved or if they are raised on a dog farm - fed diseased, rotten meat (sometimes via a tube forced down their throats) - depending on if they are sold by weight or not. This must end. As a close ally, South Korea is a key starting point. President Moon Jae In is already a dog lover. He owns a Pungsan named Maru and a rescue dog called Tori who was destined for the meat trade. As a democracy the more South Korean politicians, business leaders and citizens we can influence through raising the issue of dog meat, the more we can reduce demand - to a point where President Moon Jae can stand on an anti-dog meat platform in future elections without being ridiculed. During the Korean War dogs were instrumental on the battlefield as scouts and as sentries - detecting threats and protecting American bases. For example, the 26th Infantry Scout Dog Platoon, trained at the Fort Riley, Kansas, was cited in General Orders in 1953 for saving countless lives via early detection, whilst the presence of dogs at bases undoubtedly lifted the spirits of Americans fighting on behalf of South Korea. The dogs of South Korea are no different to the pet dogs we have at home - in fact across Asia many dogs that arrive at market are stolen pets that still have their collars on. Imagine their confusion and heartbreak at being utterly betrayed by the human race. We must stop this now and show our South Korean

friends and their neighbors that the dog meat trade is a cruel, backward and highly contentious issue whose existence will not be tolerated if we are to further strengthen our existing friendships.

Comments for Public Posting: If you are a Neighborhood Council Board Member, please introduce a resolution for your neighborhood council to file a Community Impact Statement (CIS) in support of Council File 19-0002-S101. Or any stakeholder can ask their neighborhood council to pass a resolution for a CIS in support. Animal activists in South Korea have been organizing against the dog meat trade for several years and have succeeded in getting this issue before the South Korean National Assembly (legislature). I'm sure they would very much appreciate our support, expressed through their Consulate, our City Council, and our Neighborhood Councils. If you have limited time, please submit a comment on the City Council website, as set forth in paragraph 1 above; that will only take five minutes. Thank you on behalf of the millions of dogs who are tortured, killed, and eaten each year in these countries. Thank you to Councilmembers Blumenfield and Ryu for introducing this resolution. Thank you to John Popoch, CM Blumenfield's Deputy Chief of Staff, and the entire Blumenfield Team, for your work on this resolution! Thank you to all the animal activists who have been working to abolish the dog meat trade for years! Please forward this article to other people you know who care about dogs. This is taking place far away, but the number of dogs who are subjected to the dog meat trade, and the severe torture that they are subjected to, makes this so important to us here in Los Angeles. (For those of you who have been working on the LA City budget, note that this will not cost the City anything but can help save millions of dogs from terrible torture and death.) Please keep pushing on this, and let's get the dog meat trade abolished! Addendum: According to the Animal Welfare Institute (AWI) and other sources, approximately one to two million dogs are killed for food every year in South Korea. Prior to their deaths, these dogs endure a lifetime of abuse and are often slaughtered in a completely inhumane and brutal manner. As stated by AWI: "From birth to slaughter, these dogs are kept in cramped, rusty cages stacked on top of each other. The method of slaughter is usually extremely (and even intentionally) brutal, and the dogs are often butchered in full view of the others." "Most horrifically—due to a traditional belief that high adrenaline levels will produce tender meat and increase the supposed health benefits—dogs who are killed may be intentionally subjected to extreme fear and suffering and be killed via bludgeoning, hanging, or electrocution. At the open-air markets, dogs are often electrocuted and their necks are broken—all in plain sight to passers-by and the other dogs." Please see <https://awionline.org/dogmeat> (Animal Welfare Institute) Some videos of the dog meat trade in China, Vietnam, and South Korea (in increasing order of how graphic they are) are as follows: https://www.youtube.com/watch?v=goDx7_DdRiE <https://www.youtube.com/watch?v=cJnp87OSn58> <https://fightdogmeat.com/videos-south-korea-graphic/> <https://www.youtube.com/watch?v=RMAbbFUiuTo> (Lisa Vanderpump and Dr. John Sessa, who have been fighting against the dog meat trade for years) <https://www.youtube.com/watch?v=NjbWQAASPCs> (ABC News in China) <https://www.youtube.com/watch?v=iLlzdY33tZc> (Marc Ching, who has been fighting against the dog meat trade for years/LA Weekly) <https://www.youtube.com/watch?v=C406IVEPqF4&list=PLmrSN5nuJgSKE1RQzC2sjFKwggucMDnFF> (Last Chance for Animals and South Korean Animal Liberation Wave) <https://www.youtube.com/watch?v=GOMQf1nizSk> (Vietnamese Dog Slaughterhouse) <https://www.youtube.com/watch?v=Vc-Zo15BJFU> (Chinese Dog Slaughterhouse, Requires YouTube age verification to view) https://www.youtube.com/watch?v=_ZVQjgGb4RQ&has_verified=1 (South Korean Dog Meat Industry Part 1 of 2 – Requires YouTube age verification to view) <https://www.youtube.com/watch?v=ivHffcM5B6w> (South Korean Dog Meat Industry Part 2 of 2 – Requires YouTube age verification to view)

Dear Council members ----- Please, PLEASE!!!!!!! Vote in favor of the resolution to ban dog meat in the named countries!!!!!!!! DOGS DESERVE BETTER!!!! Dogs evolved with humans, and we would not be where we are today without them. I do understand that some countries have a dramatic dog overpopulation problem ----- but gruesome torture and death in slaughterhouses is NOT the way to fix it!!!! Thank you for your time and your attention on this matter. Sincerely, Phyllis Nunn

Comments for Public Posting: I have now spent years emailing, signing petitions, and sharing information to get people more interested in banning all dog meat farms. I am concluding that most Asian countries are allowing dog meat farms to continue even if there are laws against them but laws are not enforced. These ugly situations are extremely repugnant culturally to those of us who are horrified, and appalled involving those involved in these, ugly, horribly cruel, abusive, death causing businesses. Humans do not need to eat meat to be completely healthy people. there are no excuses for such abominable cruelty. I cannot respect a country that goes to such extreme cruelties. Of course I am one who fights desperately against all animal cruelties, but this is one of the ugliest issues ever. i can never travel to a country who does not work to appear with more dignity for animals. It really stinks.

Comments for Public Posting: I am respectfully asking for your support of City Council Resolution CF-19-0002-S101, urging the governments of China, Vietnam, South Korea, Cambodia, and Indonesia to ban the sale of dog meat and to enact and enforce animal anti-cruelty laws. These trusting and defenseless animals suffer extreme cruelty and torture until they eventually are killed in the most heart wrenching and sickening display of depraved human behavior towards animals. Please, these animals are our most loyal and loving companions and protectors. They provide us humans immeasurable benefits. They are partners to our military, first responders, search and rescue and law enforcement. Therapy dogs provide emotional and physical assistance to our disabled and our veterans. This is NOT the way to repay them. These animals feel pain, fear and suffering just like people. Last September the US House of Representatives passed HRes 401, a similar Resolution. It is well past time to put an end to this uncivilized atrocity. Thank you.

Comments for Public Posting: Dogs as one of our most loyal, dearest and intelligent animals must be taken cared of, not tortured, and for any animal in that matter. God has given us these creatures to be our companions, to live with us harmoniously, in healthy co-existence. We may kill them, yes, but when we do, as they willingly offer their lives to us for our needs, may we do it the littlest pain we can inflict them, in the process showing us, and teaching us what an unconditional pure love is. I am one of those who thinks that as humans, we are not just carnal mortals, who only responds and appeals to our five senses, but what especially separates us is our conscience where in it lies compassion and mercy...for even mythologic beasts feel pain and remorse. When we consume them, may we remember and see through the slaughterhouses and see and feel our animals agony and sorrows, for probably through this will we realize our every bite, our every little thing we possess came from them

Comments for Public Posting: In this beautiful country of Canada, we treat our dogs like family. We would never, ever consider torturing them, killing them and then eating their flesh. What you do to dogs is absolutely disgusting. They feel pain just as humans do and you treat them like they were unfeeling inanimate objects to be tortured, first of all by putting them in such cramped rusty cages and then skinning them (some of them still alive) and sometimes you do this on the streets so people can see. Millions and millions of dogs killed every single year. Forget your traditions and please stop this horrendous practice. This has to stop. Please. Dogs are to be treated humanely.

Comments for Public Posting: As a Los Angeles resident who cares about animal welfare, I have been deeply upset to learn about the animal cruelty inherent in the dog meat industry in China, Vietnam, South Korea, Cambodia, and Indonesia. I strongly support Resolution 19-0002-S101, which would ask the governments of these countries to ban the sale of dog meat and to enforce their animal protection laws. Thank you for working to help put an end to this cruelty.

Comments for Public Posting: The Injustice of the Innocent & Voiceless! All animals deserve lives free from human-inflicted suffering. As the highest created being, humans have a moral obligation to be wise stewards of animals. Just because we happen to be the most powerful species on earth, we humans have the ability, but not the right, to abuse the so-called lower animals. The ends do NOT justify the means! We all know that there is something seriously wrong with a food system where the best day of an animals' life is the day that it is finally over. Every Living Creature deserves the Right to Live as Nature has intended! Not only do animal victims deserve to be free from abuse and neglect, but numerous studies show a correlation between animal cruelty and violence toward people—animal cruelty impacts community safety. If you have men who will exclude any of God's creatures from the shelter of compassion and pity, you will have men who will deal likewise with their fellow men.

Comments for Public Posting: I support the Los Angeles City Council resolution asking the governments of China, Vietnam, South Korea, Cambodia, and Indonesia to ban the sale of dog meat and to enforce their animal cruelty laws. It's time we question what we've been taught by so called intelligent humans & change the way we treat our non-human family...ALL of them! Humans really need to start embracing change, so be the change! Abolish animal slavery, starting with this horrendous, horrific, medieval & nonsensical treatment of dogs and cats that suffer for human consumption! I mean, how, in this day in age, can it be believed that torturing a living, sentient being makes the meat more tender & brings some type of ridiculous "power" when eaten!? It's time for change, so be the change! Ban this disgusting cruelty & start teaching children to be protectors, not destroyers of our planet. To respect ALL that is life!

Council File No: 19-0002-S101

Comments for Public Posting: Please keep up the great work of helping to end animal cruelty and specifically ending the barbaric practice of torturing dogs and eating dog meat. These animals are our best friends and deserve so much better. The thought of these innocent creatures who only want to love us being tortured makes most people sick to their stomachs. If South Korea steps up and stops this brutal treatment than hopefully other countries will follow. Ending the dog meat trade would make the world very very happy; not just Americans. Please push the resolution. Thank you, Gina Lauer

Comments for Public Posting: I strongly support this resolution asking the governments of China, Vietnam, South Korea, Cambodia, and Indonesia to ban the sale of dog meat and to enforce their animal cruelty laws. SHUT DOWN HORRIFIC DOG/CAT MEAT TRADE — Countless dog farms & slaughterhouses are scattered throughout, and they are hell on earth for the defenseless dogs & cats suffering there — Dogs & cats exist their entire lives in squalid, feces-encrusted raised wire cages in utter misery only to be slaughtered in the most horrific of ways – by electrocution, a hammer blow to the neck, being hung or beaten, bleeding to death from a slashed throat, being burned to death from a blowtorch, or thrown into a vat of boiling water while still alive. Give me a minute while I hurl. NOTE : what SANE, MORAL society would allow for such horror inflicted on other living beings? — PLEASE, LET'S DO THE RIGHT THING for these animals -- LET'S ABOLISH these DRACONIAN, NEEDLESS, depravedly SADISTIC, BRUTAL farms — LET'S RESCUE these DOGS & CATS.

Comments for Public Posting: TO WHOM IT MAY CONCERN: I HAVE ASKED MY FELLOW ANIMAL RIGHTS ACTIVISTS AND ADVOCATES, TIME AND TIME AGAIN, WHAT CAN WE DO ABOUT YULIN, YULAN, THE DOG ME AT FESTIVALS IN VIETNAM, CAMBODIA, CHINA, ANYWHERE IN THE WORLD THEY'RE TAKING PLACE. WE HAVE ALL SIGNED NUMEROUS PETITIONS APPEALING TO THEIR GOVERNMENTS TO PLEASE STOP THIS CRUEL AND HEINOUS CRIME AGAINST INNOCENT DOGS AND CATS. THIS IS ABSOLUTELY DESPICABLE AND HEARTBREAKING. A LOT OF THE ANIMALS ARE STOLEN FROM THEIR OWNERS, AND EVEN IF THEIR NOT, THEY DON'T DESERVE TO BE VICTIMS OF THIS VERY SICK AND DISTURBING PRACTICE. THIS IS UNCONSCIONABLE AND UNCONSTITUTIONAL, WHAT IS DONE TO THESE ANIMALS. IT'S A VERY EVIL AND SERIOUSLY DEMENTED ACT. I UNDERSTAND IT'S A DIFFERENT CULTURE, BUT I DON'T UNDERSTAND THE CRUELTY INVOLVED. IT'S LUDICROUS THAT THE BELIEF THAT "THE MEAT WILL TASTE BETTER THE MORE TORTURED THE ANIMAL." THE WHOLE PRACTICE IS EXTREMELY UPSETTING AND AGAIN, CRUEL, DEMENTED, UNCONSCIONABLE AND UNCONSTITUTIONAL. I ASK THAT ANYONE WHO CAN ASSIST WITH THIS MATTER, HELP TO DISSOLVE THIS PRACTICE IN ANY WAY, PLEASE STEP UP TO THE PLATE AND HELP THESE POUR ANIMALS OF SUFFERING TO COME, OUT. PLEASE, PLEASE, HELP PUT AN END TO THIS HORRID NIGHTMARE PRACTICE ON THE ASIAN COUNTRY WHO PARTICIPATE. I, ALONG WITH PROBABLY MILLIONS OF, ANIMAL RIGHTS ACTIVISTS AND ADVOCATES WILL THANK YOU FOR THIS. I APPRECIATE BEING ABLE TO ADDRESS THIS MATTER WITH YOU. THANK YOU. L.A. FALKNER

Comments for Public Posting: Please, I ask that you put an end to the cruelty of the dog and cat trade in all countries of Asia. Stop the Yulin Festival and the Boknal Festival (China and South Korea) cruelty enough to eat dogs and cats! It's time for "culture" to have no more excuses for animal cruelty! Thank you all for this humanitarian effort!

Date Submitted: 06/24/2019 05:33 PM

Council File No: 19-0002-S101

Comments for Public Posting: On June 5, 2019, Councilmember Bob Blumenfield, a prominent advocate for animal welfare, introduced a resolution in the Los Angeles City Council urging the governments of China, Vietnam, S. Korea, Cambodia, and Indonesia to ban the sale of dog meat and to enforce their animal cruelty laws. The pending resolution, which was seconded by Councilmember David Ryu, grew out of a resolution that was previously passed by Valley Alliance of Neighborhood Councils (VANC), which encompasses representatives from all of the San Fernando Valley's 34 Neighborhood Councils. I am writing to vigorously endorse Councilmember Blumenfield's resolution, and strongly urge other members of the council to sign on as well to send a unified message against this abject cruelty and inhumanity. Thank you for considering my opinion.

Comments for Public Posting: I completely support the resolution asking the governments of South Korea, China, Vietnam, Cambodia, and Indonesia to ban the sale of dog meat and to enforce their animal cruelty laws. There are few words that are able to fully convey the horrors and cruelty these dogs (and cats) experience. They are stolen from loving families or bred or bought by humans who care nothing for them. No animal should be treated as callously and cruelly as this. No living being deserves this kind of misery. I support this resolution!

Comments for Public Posting: Hello, thank you from the bottom of my heart for starting this resolution. What is happening in Asia is a disgrace to everything civilized, that man's best friend (and cats as well) who have saved our lives over thousands of years, been a part of our families, been our protectors and companions as well as friends, are being killed off for a sick pleasure. Dog and cat eating should not be allowed in this day and age and it must end. If these countries do not cease to do this, then we in the West should make moves to boycott their products. Good luck with the resolution and please for the sake of everyone who cares, and for the sake of these furry friends, do not give up until we've won.

Comments for Public Posting: BAN the sale of dog meat, and the slaughter of dogs in China, Vietnam, S. Korea, Cambodia, and Indonesia! To understand that participants of dog slaughter BELIEVE that torturing a dog before death makes the 'meat' more tender, then set about to cause as much pain as humanly possible to dogs before killing them is to know this is SADISM itself. These pitiful animals are terrified, then deliberately burned, boiled, have their paws/legs chopped off, skinned alive, submerged in boiling water after being skinned, and all while STILL ALIVE, in order to make the "meat" taste better. The same is done to cats, and the ban should include them. No country should be engaged in deliberate torture of animals for ANY reason. This is only one corner of the horror show rained down on other living creatures by humans, but definitely one of the worst examples of our own barbarity. There is no excuse for eating dogs, or meat of any kind, as humans can live perfectly well without it. That leads to the conclusion that all killing of animals for profit is unnecessary, and just a reflection of the greed, indulgence and horrible cruelty of which humans are capable. The loyal companion animals who trust us, defend us, are highly intelligent and complex being treated so barbarically by humans is indefensible and sadistic. If we are to call ourselves 'civilized', we MUST END these horrific acts of deliberate barbarity. I STRONGLY SUPPORT this resolution to OUTLAW the Dog meat trade, and include cats in the resolution!

Comments for Public Posting: If there is any way to stop the dog meat trade then please you must do something. They are living beings who have no choice or voice to fight against the pain and torment they are going through, please be there voice. They are our friends, our family, and our happiness think about the pain and suffering they have to go through to satisfy a disgusting need for disgusting human beings. They deserve happiness just like everyone else, please we must take a stand and help them like they have always helped up.

Comments for Public Posting: I am writing to encourage you to pass the Resolution introduced by Bob Blumenfield to ask Korea and other Asian countries to end the horrific dog meat trade. The dog and cat meat trades are horrifically abusive. The animals are literally tortured to death. They are often blow-torched, boiled alive and even skinned alive. The suffering these animals have to endure is beyond comprehension. We must do all we can to help end this atrocity. Thank you !!!

Comments for Public Posting: Please put a stop to this barbaric trade. How can one claim to be a decent human being if we allow the torture of man's best friend? You just need to read what is done to these poor dogs and if you can stomach it, you just need to watch one video to know that these people who perform this torture must be sick and twisted. I can only imagine how they treat other human beings if they can do this to animals. Thank you to the councilmen in Los Angeles for getting involved in trying to put an end to the dog meat trade and dog meat consumption!

Comments for Public Posting: Dear all, I am writing to you asking to stop the evil and horrendous torture and abuse of dogs in South Korea, Indonesia, Thailand, China, Vietnam and other places around Asia where dogs are brutally murdered by people in those countries. Animal cruelty is a crime in many places around the world and it should also be in Asia. Dogs are amazing and very intelligent, they are helping blind kids and elders to walk because they guide them, they are helping humans who are having seizures alerting them when is one coming, dogs are also helping people coping with depression, Dogs are making humans to have friends because they are very sociable creatures, dogs have a unconditional love and loyalty for every one of their family members. **DOGS ARE WONDERFUL CREATURES and FAMILY MEMBERS** they deserve respect, love and care like any human or member of a community. Those people killing dogs for food should know that dogs are not food and every one of those dogs feel pain, emotions, fear, love. Every dog they are killing feel pain and those humans are eating the dog's pain. **PLEASE** help all the dogs in those countries and teach the people in those countries to love and respect the lives of family members like dogs.

Comments for Public Posting: According to the Animal Welfare Institute and other sources, approximately one to two million dogs are killed for food every year in South Korea. Prior to their deaths, these dogs endure a lifetime of abuse and are often slaughtered in a completely inhumane and brutal manner. As stated by AWI: "From birth to slaughter, these dogs are kept in cramped, rush, cages stacked on top of each other. The method of slaughter is extremely brutal, and the dogs are often butchered in full view of the others." "Most horrifically--due to a traditional belief that high adrenaline levels will produce tender meat and increase the supposed health benefits-- dogs who are killed may be intentionally subjected to extreme fear and suffering and be killed via bludgeoning, hanging, or electrocution. At the open-air markets, dogs are often electrocuted and their necks are broken--all in plain sight to passers-by and the other dogs." I support the resolution asking the governments of China, Vietnam, South Korea, Cambodia, and Indonesia to ban the sale of dog and cat meat and to enforce their animal cruelty laws.

Comments for Public Posting: I write as a native of Los Angeles, as so many of my family are. My grandfather was a superior court judge back in the day and many of his descendants still live in the City. Know that while I cannot speak for all of them, I can speak for those who know about the dog and cat markets of southeast Asia: End the killing! Our closeness as a nation to South Korea demands that we urgently ask South Korea to end the killing; to set an example for China, Vietnam, Cambodia and Indonesia. My thanks to the City Council for this pending resolution. From the resolution: "The United States is spending billions of dollars, and our military personnel are putting their lives on the line, to assist our ally South Korea in deterring invasion or nuclear attack from the North. Tens of thousands of Americans died in the Korean War, and tens of thousands were wounded, protecting South Korea. Dogs serve in our armed forces and alongside our First Responders. Dogs are instrumental in working with returning Veterans with PTSD. We respectfully request that our ally South Korea stop killing and torturing dogs, a practice which is abhorrent to the vast majority of Americans." Most sincerely,
Dian Hardy

Comments for Public Posting: The dog meat trade is absolutely horrendous. They are living, breathing animals all with their own personalities. They feel fear, stress, pain and suffering like any other living creature. What gives human beings the right to treat them so cruelly and then torture them to death!? All so humans can enjoy a plate of meat! Human's need to use their power and intelligence to help other species and show them kindness, love and respect not use and abuse them for their own gains. When will humans realise that we DO NOT own this planet or the creatures on it. All animals have as much right to be on this Earth as we humans do. Stop this barbaric behaviour and start treating animals with the respect they deserve. One day humans will look back in time and be ashamed of how we treated other living beings. How can anyone with a heart be cruel to any animal? The way those innocent dogs are treated literally makes me feel sick to my stomach. Dogs are loyal, loving, funny, sweet, intelligent, and have hearts full of love. I hope the people that are cruel to animals get their karma one day and pay for what they've done.

Comments for Public Posting: Are China, Vietnam, South Korea, Cambodia, and Indonesia civilized countries? Without the help of dogs it would not have been possible for our far ancestors to change their nomadic way of life against a settled one. No dogs – no domesticated animal herds the dogs helped to defend against predators; no dogs – nobody to keep watch against enemies; no dogs – no aid in hunting. No cats – no one to defend crops against the onslaught of noxious rodents. Dogs and cats have been mankind's LOYAL servants for thousands of years. We OWE dogs and cats a lot. It is about time we repay them a little bit of this debt in form of kindness or at least – mercy. So ... are these civilized countries?

Comments for Public Posting: Stop this in humane barbaric butchery now. These wonderful animals both dogs & cats deserve a life that is filled with love & hope & happiness & trust. Not abuse & torture carried out on a daily basis followed by a slow death most heinous & terrible done right before their eyes. How can anyone think this is the norm to treat animals with such contempt. We should all be looking for a better future for these gentle companions most of us call our family members who bring such joy to our lives; who never seem to judge us but look to us for warmth reassurance & a loving home forever. Educating these countries & enforcing harsh laws to protect our faithful friends needs to be put in place now, not in another month where more butchery will continue to theses dogs & cats, STOP the suffering NOW The more people who shout out as advocates for these fabulous dogs & cats & sign these petitions The better chance they have to a future filled with happiness that is rightfully theirs.

Comments for Public Posting: Because human-kind is the most capable of causing agony and torture on voiceless, helpless and defenseless animals, is when we become their voice, their salvation. Animals are not ours to abuse and torture; they are our fellow travelers in a journey called life. How lonely we would be without dogs to share in our lives and be our friends. Dogs, love and trust us; thus we must give them this love and trust.

Comments for Public Posting: I strongly support the resolution 19-0002-S101 asking the governments of China, Vietnam, South Korea, Cambodia, and Indonesia to ban the sale of dog meat and to enforce their animal protection laws. It is a truly ghastly occurrence that should not be happening in this day and age. Thank you for putting this resolution forward.

Comments for Public Posting: In the name of Jesus, help us to stop the killing of dogs in Asia for food. As a Christian, I am deeply concerned for the welfare of man's best friend. My wife and I have 5 pups ourselves. The thought of people killing dogs for food is just beyond reality, beyond belief. Just plain insanity. Plain cruelty. Please help us to end this barbarism. Thank you and God bless all of you, James E. Carrell

Comments for Public Posting: I strongly support the resolution 19-0002-S101 asking the governments of China, Vietnam, South Korea, Cambodia, and Indonesia to ban the sale of dog -- and/or cat -- meat and to enforce their animal protection laws! There can be no possible justification for the horrific brutality inherent in this business. It is long overdue to be stopped permanently. Thank you for working to stop this cruelty.

Comments for Public Posting: I completely back the passing of the resolution by the city of Los Angeles asking South Korea to ban the horrendous dog meat trade. Dogs have been domesticated for millennia. They are loyal, trusting and loving. Many of us consider them members of our family. The idea of torturing, killing and consuming them is abhorrent. Hopefully, South Korea will ban this cruel practice and lead the way for its ban throughout Asia, including China, Vietnam and Cambodia. Thank you, city of Los Angeles, for passing this important and humane resolution.

June 12, 2019

Honorable Herb Wesson, Los Angeles City Council President
Los Angeles City Hall, 200 North Spring Street, Los Angeles CA 90012

Re: Dog Meat Trade, Council File 19-0002-S101

Dear Council President Wesson:

As you know, the Valley Alliance of Neighborhood Councils (VANC) consists of representatives of all 34 Neighborhood Councils in the San Fernando Valley. At its monthly meeting on August 9, 2018, VANC passed a resolution regarding the following:

Approximately one to two million dogs are killed for food every year in South Korea. Prior to their deaths, these dogs endure a lifetime of abuse and are often slaughtered in a completely inhumane and brutal manner. As stated by the Animal Welfare Institute: "From birth to slaughter, these dogs are kept in cramped, rusty cages stacked on top of each other. The method of slaughter is usually extremely (and even intentionally) brutal, and the dogs are often butchered in full view of the others."

"Most horrifically—due to a traditional belief that high adrenaline levels will produce tender meat and increase the supposed health benefits—dogs who are killed may be intentionally subjected to extreme fear and suffering and be killed via bludgeoning, hanging, or electrocution. At the open-air markets, dogs are often electrocuted and their necks are broken—all in plain sight to passers-by and the other dogs." Additional information regarding the South Korean Dog Meat Trade is attached.

The United States is spending billions of dollars, and our military personnel are putting their lives on the line, to assist our ally South Korea in deterring invasion or nuclear attack from the North. Tens of thousands of Americans died in the Korean War, and tens of thousands were wounded, protecting South Korea. Dogs serve in our armed forces and alongside our First Responders. Dogs are instrumental in working with returning Veterans with PTSD. We respectfully request that our ally South Korea stop killing and torturing dogs, a practice which is abhorrent to the vast majority of Americans.

Therefore, at its regular public monthly meeting on August 9, 2018, the Valley Alliance of Neighborhood Councils passed a Resolution requesting that the San Fernando Valley Councilmembers introduce a motion in the Los Angeles City Council opposing the South Korean dog meat trade and asking the South Korean government to ban the dog meat trade and enforce South Korea's animal cruelty laws.

On June 5, 2019, Councilmembers Blumenfield and Ryu introduced a resolution asking the governments of China, Vietnam, South Korea, Cambodia, and Indonesia to ban the sale of dog meat and to enforce their animal cruelty laws (Council File 19-0002-S101). The resolution has been referred to the Rules, Elections, and Intergovernmental Relations Committee, which you chair. We urge you to support this resolution.

Sincerely, Jeffrey Mausner, VANC Liaison to L.A. Animal Services
