Subject: City Council Agenda: Council File 19-0092, CEQA Appeal for Venice Boulevard Great Street Project - Finalized Project and Additional Improvements

To: <CityClerk@lacity.org>

Los Angeles City Clerk's Office,

I have lived in Mar Vista my entire life, attending Mar Vista Elementary, Webster and Venice High. I have lived on Modjeska Pl since 1975. The changes made to our streets have created chaos, accidents and horrible inconvenience.

I strongly support the Westside Los Angeles Neighbors Network's CEQA appeal of the finalization of the Great Streets Venice Blvd. project which is scheduled to be on the City Council agenda on Tuesday, March 5, 2019.

There were many significant concerns raised during the one-year pilot project to support a fair argument that the road diet has had significant impacts upon the environment. Concerns that have not been acknowledged, answered or addressed by LADOT, the Great Streets Initiative, or Councilman Bonin's office.

So how can the City of Los Angeles make this project permanent without an environmental review? How can the City go back on its promise made in March 2018 that: "If it (Great Streets Venice Blvd) is made permanent, there will be an environmental assessment and accompanying public process."

Please rectify this error by granting the CEQA appeal brought before you by the Westside LA Neighbors Network.

Subject: City Council Agenda: Council File 19-0092, CEQA Appeal for Venice Boulevard Great Street Project - Finalized

Project and Additional Improvements

To: <john.white@lacity.org>

John White,

I strongly support the Westside Los Angeles Neighbors Network's CEQA appeal of the finalization of the Great Streets Venice Blvd. project which is scheduled to be on the City Council agenda on Tuesday, March 5, 2019.

There were many significant concerns raised during the one-year pilot project to support a fair argument that the road diet has had significant impacts upon the environment. Concerns that have not been acknowledged, answered or addressed by LADOT, the Great Streets Initiative, or Councilman Bonin's office.

DOT during a community meeting stated that the safety issue and number of accidents prior to the project was not significant and actually low for a street like Venice Blvd. DOT did not measure the impact of the road diet on any streets beside Venice, only on Palms Blvd that is far away. Not on Centinela or Washington Blvd. WSJ article this year declared Vision zero a complete failure here in the US and in Europe. In the LA time last month Metro reported public transportation use has declined, DOT and Councilmen Bonin report "success as public transportation is up". He also does not consider the increase of population in the area and even cited the scooter sharing use as a byproduct of the road diet, the whole world wide innovation started about 2 years ago. Last, as a local all I see is cut through traffic including UPS, law enforcement and FedEx. No, traffic is not down it is just finding other routes and harming and endangering our children. I invite you to stand on the corner of Venice and Centinela for 10 minutes during busy hours.

Please rectify this error by granting the CEQA appeal brought before you by the Westside LA Neighbors Network.

Subject: City Council Agenda: Council File 19-0092, CEQA Appeal for Venice Boulevard Great Street Project - Finalized Project and Additional Improvements

To: <CityClerk@lacity.org>

Los Angeles City Clerk's Office,

I live 3 houses from Venice Blvd, and have not seen any improvement in safety or an increase in cycling since the implementation of the road diet. On the contrary, I have seen many more near misses between cyclists and motorists due to the lack of visibility created by parked cars along the protected bike lanes.

I have yet to see any properly processed data that shows that this configuration is an improvement to the community. In fact, the early announcements of reduced accidents on Venice Blvd made by my councilman were completely "fake news" because the accident data were not analyzed properly. They did not take into account the reduced traffic flow on Venice Blvd which provides the true accident rate per million miles traveled.

The proclamation of success also did not include any data for the accident rate in the overflow streets, which is where Venice car flow has been diverted. If one just shifts a problem from one street to another, that is NOT success.

Cut through traffic in the surrounding residential streets has surged, making these streets more dangerous for people and pets. I have not seen any recent (raw) data from LADOT or my councilman that indicates that there has been a decrease in accidents on these cut-through streets.

I strongly support the Westside Los Angeles Neighbors Network's CEQA appeal of the finalization of the Great Streets Venice Blvd. project which is scheduled to be on the City Council agenda on Tuesday, March 5, 2019.

There were many significant concerns raised during the one-year pilot project to support a fair argument that the road diet has had significant impacts upon the environment. Subject: City Council Agenda: Council File 19-0092, CEQA Appeal for Venice Boulevard Great Street Project - Finalized Project and Additional Improvements

To: <CityClerk@lacity.org>

Los Angeles City Clerk's Office,

I strongly support the Westside Los Angeles Neighbors Network's CEQA appeal of the finalization of the Great Streets Venice Blvd. project which is scheduled to be on the City Council agenda on Tuesday, March 5, 2019.

There were many significant concerns raised during the one-year pilot project to support a fair argument that the road diet has had significant impacts upon the environment. Concerns that have not been acknowledged, answered or addressed by LADOT, the Great Streets Initiative, or Councilman Bonin's office.

So how can the City of Los Angeles make this project permanent without an environmental review? How can the City go back on its promise made in March 2018 that: "If it (Great Streets Venice Blvd) is made permanent, there will be an environmental assessment and accompanying public process."

Please rectify this error by granting the CEQA appeal brought before you by the Westside LA Neighbors Network.

Los Angeles City Clerk CPS-LAS,

I have an appointment every Tuesday in the building at the corner of Venice and Inglewood, across the street from the LAFD station. I have watched the firetrucks try to get on to Venice westbound but as that is the beginning of the westbound narrowing with people trying to squeeze in at the last moment, the intersection remains blocked preventing the firetrucks passage. It never was like this before this "road diet".

I strongly support the Westside Los Angeles Neighbors Network's CEQA appeal of the finalization of the Great Streets Venice Blvd. project which is scheduled to be on the City Council agenda on Tuesday, March 5, 2019.

Los Angeles City Clerk CPS-LAS,

I strongly support the Westside Los Angeles Neighbors Network's CEQA appeal of the finalization of the Great Streets Venice Blvd. project which is scheduled to be on the City Council agenda on Tuesday, March 5, 2019.

I live within a block of the Great Street and have been unable, as a disabled senior, to find parking to shop. Or to figure out how to park in the middle of a crowded street with one one lane left for merging cars behind me. I have been to no businesses in my neighborhood except the Post Office. I received no mail asking my opinion, and I live in 90066. I know there are data bases available with addresses.

There were many significant concerns raised during the one-year pilot project to support a fair argument that the road diet has had significant impacts upon the environment. Concerns that have not been acknowledged, answered or addressed by LADOT, the Great Streets Initiative, or Councilman Bonin's office.

So how can the City of Los Angeles make this project permanent without an environmental review? How can the City go back on its promise made in March 2018 that: "If it (Great Streets Venice Blvd) is made permanent, there will be an environmental assessment and accompanying public process."

Please reverse the Venice road diet. It has caused a horrendous increase in side street traffic through residential areas, making the neighborhood less safe, especially for kids.

Also, getting my kids out of car seats and to the sidewalk safely is a nightmare in Venice now.

Los Angeles City Clerk CPS-LAS,

I strongly support the Westside Los Angeles Neighbors Network's CEQA appeal of the finalization of the Great Streets Venice Blvd. project which is scheduled to be on the City Council agenda on Tuesday, March 5, 2019.

There were many significant concerns raised during the one-year pilot project to support a fair argument that the road diet has had significant impacts upon the environment. Concerns that have not been acknowledged, answered or addressed by LADOT, the Great Streets Initiative, or Councilman Bonin's office.

So how can the City of Los Angeles make this project permanent without an environmental review? How can the City go back on its promise made in March 2018 that: "If it (Great Streets Venice Blvd) is made permanent, there will be an environmental assessment and accompanying public process."

Please rectify this error by granting the CEQA appeal brought before you by the Westside LA Neighbors Network.

Los Angeles City Clerk CPS-LAS,

The argument that taking away traffic lanes increases safety and helps the flow of traffic is not only intellectually dishonest but ludicrous on its face. This is a blatant attempt to torture hard-working, tax paying drivers onto a filthy, second-rate failed public transportation system. Enough with this insanity. Restore the lanes!

Los Angeles City Clerk CPS-LAS,

I have an appointment every Tuesday in the building at the corner of Venice and Inglewood, across the street from the LAFD station. I have watched the firetrucks try to get on to Venice westbound but as that is the beginning of the westbound narrowing with people trying to squeeze in at the last moment, the intersection remains blocked preventing the firetrucks passage. It never was like this before this "road diet".

I strongly support the Westside Los Angeles Neighbors Network's CEQA appeal of the finalization of the Great Streets Venice Blvd. project which is scheduled to be on the City Council agenda on Tuesday, March 5, 2019.

Los Angeles City Clerk CPS-LAS,

I strongly support the Westside Los Angeles Neighbors Network's CEQA appeal of the finalization of the Great Streets Venice Blvd. project which is scheduled to be on the City Council agenda on Tuesday, March 5, 2019.

I live within a block of the Great Street and have been unable, as a disabled senior, to find parking to shop. Or to figure out how to park in the middle of a crowded street with one one lane left for merging cars behind me. I have been to no businesses in my neighborhood except the Post Office. I received no mail asking my opinion, and I live in 90066. I know there are data bases available with addresses.

There were many significant concerns raised during the one-year pilot project to support a fair argument that the road diet has had significant impacts upon the environment. Concerns that have not been acknowledged, answered or addressed by LADOT, the Great Streets Initiative, or Councilman Bonin's office.

Los Angeles City Clerk CPS-LAS,

It's dangerous as a bicyclist to ride on Venice Blvd now. Cars, at times, park in the bike lane right next to the meters and not their assigned places. With losing a lane of car moving, the "Road Diet" has made things worse. Concrete barriers should be put between the parked cars and the bike lane for one. For two, there can still be three lanes of

Los Angeles City Clerk CPS-LAS,

I strongly support the Westside Los Angeles Neighbors Network's CEQA appeal of the finalization of the Great Streets Venice Blvd. project which is scheduled to be on the City Council agenda on Tuesday, March 5, 2019.

There were many significant concerns raised during the one-year pilot project to support a fair argument that the road diet has had significant impacts upon the environment. Concerns that have not been acknowledged, answered or addressed by LADOT, the Great Streets Initiative, or Councilman Bonin's office.

So how can the City of Los Angeles make this project permanent without an environmental review? How can the City go back on its promise made in March 2018 that: "If it (Great Streets Venice Blvd) is made permanent, there will be an environmental assessment and accompanying public process."

Please rectify this error by granting the CEQA appeal brought before you by the Westside LA Neighbors Network.

Los Angeles City Clerk CPS-LAS,

It's dangerous as a bicyclist to ride on Venice Blvd now. Cars, at times, park in the bike lane right next to the meters and not their assigned places. With losing a lane of car moving, the "Road Diet" has made things worse. Concrete barriers should be put between the parked cars and the bike lane for one. For two, there can still be three lanes of

Los Angeles City Clerk CPS-LAS,

Please be sure to listen to the public. I saw that no public comment was proposed, but we should be heard. This is our neighborhood. This should have had public outreach. It's something that affects everyone. Let's have all the voices heard.

I strongly object to the current configuration of Venice Blvd. Minor accidents are accidents no matter how you spin it.

Thank you for your time.

Los Angeles City Clerk CPS-LAS,

Please reverse the Venice road diet. It has caused a horrendous increase in side street traffic through residential areas, making the neighborhood less safe, especially for kids.

Also, getting my kids out of car seats and to the sidewalk safely is a nightmare in Venice now.
