Council File Number: 19-0603

Agenda Date:

Item Number:

Summary: The South Robertson Neighborhoods Council recommends that the City Council oppose this motion. The measure will increase construction and housing costs significantly, with a heavy impact on affordable housing, and no measurable protection from fire risk as density does not correlate to fire hazard. Furthermore, using concrete to build housing in Los Angeles is a CO2 intensive process that would have a negative impact on our environmental quality.
