**Comments for Public Posting:** I oppose this project in light of the health hazards that are present due to the close proximity to the 134 Freeway. The residents at this location would be subjected to exhaust fumes from the freeway as well as the fumes from the entrance and exit ramps that border the proposed area for the temporary shed shelters.

**Comments for Public Posting:** Hi, my name is Zina Denevan and I live here in Eagle Rock. I'm submitting this public comment in support of this proposal because enough is enough; the unsheltered of our community need roofs over their heads. The homelessness crisis worsens every year and the pandemic has only exacerbated this unfortunate trend. This motion is by no means a silver bullet. We need additional mental health and drug abuse services. I recognize that ending the homelessness crisis needs multiple tools, and temporary permanent supportive housing is one of them. I urge the City Council to support this item. And I hope this is just the beginning of providing the services needed to end this crisis.

**Comments for Public Posting:** Please do not put this right next to a freeway nor right next to a family park. The people of Eagle Rock were not polled nor surveyed on this and do not support this plan. We are a small community and may not bring in the same voters as other communities; so, our voices have not been heard nor have we been consulted. There are other locations that would be better suited for this type of living arrangement. Please do a more thorough analysis before deciding location, as being so close to a freeway is illegal and goes against the judges' orders for this type of housing anyway. We implore you to finish the efforts started with measures H and HHH before moving on to another solution that will not work for our community. Shame on DeLeon for not considering the residents and families nor poverty stricken community members here. Our voices should matter, too.
