Comments for Public Posting: My Comment is a Call for Accountability. The LA City Council INSTRUCTED both the CAO and CLA to DO things, such as instructing "the City Administrative Officer to report with the budgetary and staffing resources necessary for the establishment of a CLEH with the scope of work to be proposed by Council, and to identify a source of funding for the CLEH." Yet, this council file reflects there has been NO FOLLOW THRU on getting the required report from CAO or CLA. Where is the accountability? What was the point, if city departments just choose to not do as instructed and there is no tracking/follow up/accountability for the City Council approved actions that then lay dormant? This is a much larger issue that needs to be addressed. Please extend the Expiration Date for this Council File AND Do What Was Instructed!
