

Communication from Public

Name: Exhausted Los Angeles Resident

Date Submitted: 10/25/2019 08:27 AM

Council File No: 19-1075

Comments for Public Posting: Enough throwing good money after bad. How is any of this effective in getting the homeless and transients off the street? I would rather see this money go towards fighting the ACLU and actually doing something that removes the mentally ill off the street. Or a program that gives the criminal drug transients the option of real jail time or forced rehabilitation. Compassion is doing everything your can to get people off this life, not doing everything you can to enable it.
