

Energy, Climate Change, and
Environmental Justice Committee
City Council 10/15/19

Yes Item No 3. 19-1124 -

Clerk
File

My name is Diane Fletcher-Hoppe from
Protect Playa Now. ~~am~~
I am for item #3 to investigate and
report on Solcal Gas' oil, natural gas
and gas storage field operations at Playa del
Rey. I live 1 1/3 miles away in Marina Del Rey.
The conditional Use Permit was issued
in 1955, when it was scarcely
populated. Now the conditions have
changed. Now it is very dense - with
homes, schools, hospitals + businesses, near
next to ~~or~~ on the wells. ~~These~~ ^{these} wells have
been legally classified as Ultra Hazardous
That means:
There is no way it can be remedied or
made safe to live near much less on.

These photos, which have been submitted to
the council show how scarcely populated
the Playa del Rey field was. Diane Fletcher-Hoppe
