Comments for Public Posting: Dear PLUM Committee: I would like to note my support for the preservation of the Sakai-Kozawa Residence/Tokio Florist site in Silver Lake. The site is well-preserved, an extant example of Japanese-American culture in our City's historical and architectural built narrative. The structure and gardens comprise a unique site, a quiet respite in the urban situation immediately around it. As an architect and urban and planning professional, I would urge preservation of this highly intact and fascinating piece of our history. As a Silver Lake resident and former Chair of the Silver Lake Neighborhood Council's Urban Design Committee, I feel very strongly this site should be preserved and become a neighborhood community asset and preserved. I believe the site would make a great pocket park and cultural asset for Silver Lake and Los Feliz. Thank you, Scott Plante
