Comments for Public Posting: Thank you for giving the safety of community members and their property the highest concern. We have historic equestrian communities that are unique and important fabric of the city of Los Angeles- it needs to be protected - adequate bridal paths and space are imperative. Protecting the open space from OHV and motorcycles that are abusing and putting in danger multiple legal usage. We need to interlock the trail system from the various equestrian neighborhoods and designate it has a historical landmark. Thank you again for being our voice.

Comments for Public Posting: Too many accidents with horses and vehicles happen on Foothill and surrounding areas. We have all been continually plagued by speeders and even street racers. Any area with horses should be treated with sensitivity by all. DMV needs to EDUCATE in their drivers test manuals, booklets, and especially on the tv screens INSIDE DMV waiting areas their must be videos of incidents, the ugly aftermath and expense surrounding burial of horses, injured riders interviews, ect. The current speed limits are completely INAPPROPRIATE for any EQUESTRIAN COMMUNITY and need to be significantly LOWERED. BRIDLE PATHS need to be installed instead of pylons! EQUESTRIAN CROSSWALKS should be easily visibly recognizable from a good DISTANCE.
