**Comments for Public Posting:** We need no stopping signs put back on foothill. 3 were removed by the nursery on 10250 foothill so they can park on a busy blvd! 2 horses died riders sent to hospital. Bike riders, pedestrians and horses have to go around parked cars that shouldn't be parked there. LAPD cadets run that street periodically, these are children! I have videos that cannot be attached here. Email me and I will forward them.
