Type of NC Board Action: For

#### Impact Information

Date: 08/20/2020

Update to a Previous Input: No

Directed To: City Council and Committees

Council File Number: 19-1577

Agenda Date:

Item Number:

Summary: Whereas the UN's 2018 IPCC Report, which aggregated more than 8,000 climate studies, requires carbon emissions to peak this year, and then be halved by 2030, in order to limit the world to 1.5 degrees Celsius of warming, Whereas the IPCC states that consequences of failure are apocalyptic: tens of millions of displaced people, widespread crop failures, and economic chaos, Whereas even the IPCC's "best case scenario", an increase of 1.5 degrees Celsius, would result in a destabilized economy and environment for Angelenos, Whereas the IPCC report is actually too optimistic, failing to take into account certain feedback loops, Whereas the fires that destroyed hundreds of homes and killed dozens of people last year in California are previews of what the next decade will look like, Whereas the common practice of investing retirement and pension funds in fossil fuels contributes greatly to the marketplace dominance of fossil fuels, THEREFORE BE IT RESOLVED, that the Los Feliz Neighborhood Council SUPPORTS the motion to create a plan to divest LACERS investments from fossil fuels.
