Comments for Public Posting: I'm writing on behalf of Councilmember Blumenfield's Motion (19-1577) regarding having LACERS divest their over \$150M investments in companies that contribute to global warming. This needs to happen and it needs to be taken up immediately. It's absolute insanity to continue to invest in the already-in-progress destruction of our home, our resources, and everything that sustains our lives when we've known better for a long time. Please get this done. Thank you.
