Council File No: 20-0002-S101

Comments for Public Posting: I strongly urge the City Council to protect our neighbors by voting YES on this motion opposing SB1120, and I further urge you to amend this motion to include opposition to SB902. Both of those bills are designed to destroy our communities by allowing developers to build multi-family units in single family neighborhoods without consideration for the increased traffic, lack of parking on the nearby residential streets, decline in property value for surrounding homeowners, or decline in the quality of life for the existing residents who worked their entire life to buy their homes.
