Hello,

I am a resident of Los Angeles and I support motion 20-0002-S101. Please vote for it. It is VITAL to the livability of our city that we protect the character and continuity of our established neighborhoods.

Affordable housing and new multi unit and multi story development should only be allowed directly on major, large thoroughfare boulevards. Planning needs to be THOUGHTFUL and protect the character and continuity of existing neighborhoods and puts the interests of individual people and residents well before the profits of developers.

I support 20-0002-S101.

Thank you,
Lisa Connaughton
