Comments for Public Posting: This information is provided by the USDA department in regards to mask mandates that have been lifted on many counties and cities: State County COVID-19 Community Level 04-15-2022 Masks Required or Not County Changed Requirement Since Last Week Direction of Change COVID-19 Community Level 04-08-2022 Masks Required or Not California Los Angeles County Low Not Required No Low Not Required City of Los Angeles has low and almost no cases of covid cases. No more masks mandates by the CDC, You guys city council members are promoting and holding public events and gathering the public in masses no more apart. So why the emergency declaration still in place? Why the eviction moratorium in place? Tenants are abusing the mandates and by just filling up a form saying "my income is affected by covid" thus it they don't pay rent even when they are working, making money and can afford to pay rent. Why landlords are providing free rent because your house is key is a joke. No payment of rentals have been distributed and I know that you guys are putting the money in your pockets. You guys are going on luxury vacation trips, buying the house in nice area all with the money of the landlords. Stop the eviction moratorium now. We got enough of socialism. Russia is killing people of Ukraine because of socialism and you guys are practicing this same mentality here in our city. How can you guys attend church and pretend to be nice council people when it's clear that you favor the welfare population instead of providing equality to all. Discrimination and violation of civil rights is all written in your ordinances. So stop with the abuse and stop the eviction moratorium. Your retired mom and dad who had a primary income on rentals have been exhausted and these people are back to work to cover their medical bills, their own housing and food. Don't you feel ashamed of what you guys created. Don't be hypocrite and go to church because the church doesn't want people like you guys. Oh I know elections are coming and you are seeking the votes of the majority population. You can ignored my comments but above all of us there is a God that is watching your actions and everything we do in this planet earth, God is watching and he will judge you. Stop the eviction moratorium and let the landlords get their property back. You will see how many landlords will leave the business in Los Angeles because of your

ordinances played them the worst socialism and communist in their lives.
