**Comments for Public Posting:** The California State Park Rangers Association (CSPRA) fully supports adequate safety equipment, including firearms, for the LA Park Rangers. California State Park Rangers have been armed for over 50 years without damaging the ranger image, while allowing for full-service park services, including enforcement, to protect and enhance parks and the public. Mike Lynch, CSPRA President.

**Comments for Public Posting:** I support Rangers having any tools necessary to get their job done well and safely. They are trained officers, just as Police, and should absolutely have the right to carry guns. I know this area and any remote area they patrol and it is 100% necessary, and unfair that they don't. Let's make this change for the right side!

**Comments for Public Posting:** I worked as a Park Patrol Officer in Griffith Park for over 23 years unarmed but I have no objection for arming Park Rangers at this time. Times have changed and we should also.
