Comments for Public Posting: This is a worthwhile study to undertake. It is urgent the city do everything in its power to house people and to keep those who are housed in their homes. Expanding rent control is key to that. Yes on Prop 21 is vital to housing our families. It is also urgent that we do everything we can to preserve and improve our environment. That includes a city with less congestion and more spaces for pedestrians. We need more walkable spaces, including parks and green space. Working remotely must be encouraged to improve our city, our environment and our lives. All of this is essential for our public health.
