**Comments for Public Posting:** City Council, Please don't quit on your Affordable Housing Providers. We have been here for you for decades doing what we do best: rent out affordable Mom&Pop housing to tenants all over this city. We do this as dependable, hard-working, fair and equitable Landlords. We have, however, become very discouraged, constantly confronted with difficulties we have not created and which the City Council refuses to give any credibility to or solve. We, too, suffered through the moratorium, keeping tenants housed with little to no help or resources. We had to use our own. We have been overlooked and discounted for the importance of what we provide. Housing. We do this because we want to have income properties and to make a living using these properties. But, in order to do this under your moratorium, we had to cover the losses for you. The programs designed to help us, didn't. The causes were varied but ultimately, they were not sustaining. Now we are asking that you return our properties to us and allow us to get out of debt and recover. The Moratorium must end because we cannot afford for it not to. The simple solution of tossing a few million into a pool of grant money is not the solution. The solution is: give us back our properties. We know what to do and how to do it. Now it is time for OUR recovery.

**Comments for Public Posting:** Raman - shame on you! Your entire campaign and your agenda is simply based on the rhetoric of your stupid DSA free housing to retain your vote bank without the intelligence to do any due diligence. To all your fans and activists who are reading this, note , this is not your immigrant average raised in difficulty and adversity next door girl. She makes \$250,000 on salary ! Her husband who is in Hollywood probably rakes in a few hundred thousand more. Purchased a property in 2013 for 1.2 mil and she is sitting on a close to mill \$ equity . Sends her kids to private school. Is getting paid close to 70k in pension, we are paying for her transportation. Is very very comfortable beyond any avg housing provider is situated in. So close to \$330,000 and don't forget the healthcare ! Who the fuck is paying for all this ?? We are , working and honest landlords and tenants. Not the fuckon free loaders and activists who show up with their matching t shirts and cry foul every single time So the rhetoric of “ can't kick tenants out for Pennies” , “ keep Angelina houses” “ free housing” all this campaign by her and her un oblivious office staff , is beyond hypocrisy!! She can begin to amass wealth, take my tax money and kick us all to the kerb. Shame on you woman and your staff who act stupid and dumb Everytime . You guys all deserve to go to hell.
