Comments for Public Posting: I support the ordinance 200450. I was working at LAX for Crews of California as a Lead Cook for the past 5 years. I'm asking , along with my co-workers, for the Airport Commisioners to stand with LAX workers and their families to help us extend our Health care benefits to keep ourselves & our families safe & healthy during this Corona Virus Pandemic.

Comments for Public Posting: Covid19 has changed everyones lives in unprecedented ways. While I understand that business need help to thrive again, I believe that such help needs to also cover all the employees of the companies being bailed out. If my company is getting help from governmental institutions, they should be held responsible for the health insurance of its workers. During this time one of the most important things for me remains the health insurance of my family. The coverage its imperative for the well being of all Californians. I urge all the people in power to help not only big and small business but also the workers. I hope those with decision making power, help me keep my family healthy and safe.

Comments for Public Posting: My name is Cindy Gaete and this public comment is for Agenda Item (65) 20-0450. I volunteer at Unite Here Local 11, a union that represents 4,000+ food service and retail workers at LAX. I have witnessed thousands of our members get laid off due to the recent coronavirus. They have been thrust into a sea of uncertainty. They are worried that now that they have lost their source of income, they will also be at risk of losing their health insurance coverage. No worker deserves to lose their health insurance in the middle of a pandemic. We know airport concession companies need a break on their rent to survive, but workers need relief as well. Please support workers by requiring all companies at LAX to extend their healthcare payments for at least 2 more months.

Comments for Public Posting: I'm an writing in support of this item. My name is Steven cannon and I work for Areas LAX for 3 years. I am a proud member of unite here local 11. I am laid off because of the Covid-19 pandemic. We need our health insurance benefits to extend because it's very necessary. Especially during our current state of living. An emergency visit to a doctor can bankrupt some families. So it's vital that we stay insured during this world pandemic. Also a lot of us aren't working so it's even more unsettling if we are out there exposed to such a deadly virus without insurance.

Comments for Public Posting: I been working for HMS Host in LAX airport for 24 years and member of Local 11 Union. For alot of families ,if were to be asked what's on your top list in a job. You will hear Health insurance. Even for people that hardly have use it, they might now understand during these times how important it is. You might have already heard ,even before me.So vote yes on keeping are insurance. It's alittle to ask , compared to other things in life. Thank you.

Comments for Public Posting: I'm writing to the city council to address the rent reduction for vendors and/or companies operating at LAX. These companies are asking for a rent reduction, I'm a union worker at TBIT. If they're asking for help so are we. I've been employees and worked at the airport for 6 years now, I'm a stroke survivor so my health insurance is very important especially at this time of a pandemic. Some of my coworkers have families and some of are single parents. I would hope our city council will make sure that we are taken care of during this crisis.

Comments for Public Posting: I am writing in support of this item. My name is Daniela M. and I've worked for HMSHost in LAX as a server for nearly 17.5 years. I am a proud member of UNITEHERE Local 11. I am laid off, along with my coworkers, due to the pandemic. I need my health insurance extended because as a mother of two young children I know how important it is to have insurance. Children, as one knows, get sick often. When my son was younger he suffered a seizure. If I would not have had my medical insurance, that one day would have cost me nearly \$10,000. We are all living a very stressful life, not having a job at the moment included. Having to worry about not having insurance for my family and I hopefully will not be another stress factor I would have to add to the list. Thank you for your support.

Comments for Public Posting: I'm asking the city council to support the union employees at LAX. If rent reduction is being given to vendors and/or companies at LAX. Then the savings should be used to keep our insurance in place for at least 2 months or more. Those with families or with preexisting conditions can't afford not to have insurance during this pandemic.
