Comments for Public Posting: I'm totally against a "cap." If people are too lazy to walk or ride their bike to pick up their own food they should be allowed to pay as much as they want for delivery. Also if you havent noticed most small business restaurants are BARELY surviving so if the the third parties can help then great. Also a lot of people who are out of work are now taking these delivery jobs so these delivery companies need to be able to stay in business. We live in a free market society. NO ON CAPS.
