Comments for Public Posting: It is time to lift the eviction moratorium. Everything is back to normal on the City of Los Angeles no need for FREE rent to tenants when they are working, going on luxury vacations and shopping like no tomorrow abusing the system and taking advantage of free rental and monies from the city and state. Many renters who can pay are not paying because of your moratorium. The landlords are suffering and they can not longer afford to keep up with properties. ENOUGH IS ENOUGH abuse from you guys. You guys are like Russians creating a socialism town abusing the landlords, bombarding our system, taking away the properties without recourse. The eviction moratorium was an interim assistance a "temporary" and you guys abused it and took it for over two years now. Stop the eviction moratorium now.
