**Comments for Public Posting:** Hi there! I hope this finds everyone at the LA City Clerk's Office safe and healthy. You certainly have your hands full with the COVID-19 pandemic and the current pressure to do the right thing to correct systemic racism. I'd like to add to the latter. The violence the Black community is continuously enduring at the hands of the police has to come to an end. I urge you to defund the police, more than Mayor Garcetti has already indicated he will. LA is a wonderful place to live, with a lot of eyes watching. I hope you'll be the change that LA, California, the US, and the World are all waiting to see. Thank you for your time.
