Comments for Public Posting: I think it's unconscionable that you're proposing to cut the LAPD budget. I understand reforms are needed, but I don't see how that could be accomplished with a reduced budget. The LAPD is UNDERFUNDED as is! Fewer officers per square mile and longer wait times to get a response aren't signs of a bloated or overfunded department. If anything, we need to fund the LAPD more! I think you're putting our lives in danger with this reckless and very dangerous decision to reduce the police budget. Please reconsider and focus on the desired outcome: national policing guidelines and best practices and elimination of corrupt cops. Let's get that accomplished first. Thank you. Ismail Elshareef
